

SUBJECT INDEX

An asterisk denotes title and reference only

- Acidosis, hyperchloraemic, in early diagnosis of renal allograft rejection, 33
—, incomplete renal tubular, after cadaver renal transplantation, 33
Adrenaline, intraarterial, for prophylaxis of radiation nephritis, 69
 β -Adrenergic blockade in juvenile diabetes mellitus, 42
Aerosols, pressurized, in asthma, relation to rise and fall in mortality, 63
Aggression, habitual, neural factors related to, 48
Alcohol, haematological effects in man in absence of nutritional deficiency, 29
Aldosteronism, nontumorous "primary", effect of glucocorticoid treatment on, 40, 41
Allergy, 16
— in children, IgE concentration in, 16
Amino acid transport, human biochemical genetics of, 61*
Aminophylline, circulatory effects, clinical study, 8
Amoebiasis, fluorescent antibody test in, evaluation, 6
Amphotericin B sensitivity of *Naegleria* sp. isolated from primary amoebic meningoencephalitis, 10
Ampicillin levels in bile in biliary tract disease, 20
Anaemia, megaloblastic, retinopathy of, 30
— of chronic renal failure, effects of dialysis and of parenteral iron on iron metabolism in, 30
— — — — — rheumatoid arthritis, correlation with erythropoietic activity, 44
—, pernicious, immunological studies, 2
—, symptoms and physical signs, evaluation of diagnostic significance, 29
Anaesthesia, relation to surgical morbidity and mortality in elderly males, 68
Anaesthetics, 68
Analgesia, continuous epidural, in obstetrics, blood concentration of prilcaine and lignocaine with adrenaline during, 68
Ankle jerk time changes during radioactive iodine treatment of thyrotoxicosis, 38
Antigens, gastric, behaviour in early development, senescence, metaplasia, and cancer, 3
 α_1 -Antitrypsin deficiency associated with hepatic cirrhosis, 62
—, heterozygous and homozygous, deficiency in pulmonary emphysema, 61
Aorta coarctation in congenital mitral valve disease, 22
Arrhythmia, atrial, countershock treatment, prognosis, 27
—, direct-current countershock in, origin of elevated serum enzyme activities after, 27
Arsenic and respiratory cancer, occupational study, 67
Arteries, coronary, *see* Coronary
Arteriography in diagnosis of gallbladder disease, 72
Arthritis, rheumatoid, enzymatic composition of urine and its degradation effect on cartilage in, 45
—, —, juvenile, iridocyclitis in, 44
—, —, objective index of degree of inflammation of knee joint in, 44
Arthritis, rheumatoid, serum hyproprotein concentration as index of activity of, 44
—, —, — levels of erythropoietin in, 44
—, —, synovectomy of knee in, immunological changes in synovial fluid after, 45
Arthropathy, haemophilic, clinical and radiological study, 72
Asthma, bronchial, activity of salivary muramidase in, 16
— in growth-retarded children, growth hormone secretion and, 59
— mortality, rise and fall in relation to use of pressurized aerosols, 63
Atherosclerosis complications, prevention by diet high in unsaturated fat, 17*
— pathogenesis, blood lipids and lipoproteins in, 17*
—, platelet adhesiveness and aggregation in, 26
Athletes, electrocardiographic evaluation of myocardial hypertrophy in, 23
Atropine sulphate, effect on arterial blood gases, 68
Australia antigen in acute and chronic liver disease, 6
— — — — — chronic active liver disease with cirrhosis, 19
Bacteriuria, chronic, chemotherapy, 35
—, —, due to *Escherichia coli*, chemotherapy and correlation of microbiological, radiological, and biochemical findings with clinical results, 35, 36
Bell's palsy, injection of prednisolone trimethylacetate into stylomastoid foramen in, 46
Biliary tract disease, ampicillin levels in bile in, 20
Blood, *see also* Erythrocyte; Erythropoietic
— circulation, *see* Circulation
— gas, arterial, composition after administration of atropine sulphate to healthy volunteers, 68
— groups, ABO and Lewis, serum cholesterol levels and, 61
— — — — — rhesus, serum cholesterol levels and, 61
— platelet adhesiveness and aggregation in myocardial infarction and atherosclerotic heart disease, 26
— pressure, *see also* Hypertension
— — — — — and risk of coronary heart disease, Framingham study, 24
— transfusion, intrauterine, for erythroblastosis foetalis, possible graft-versus-host reaction after, 54
Bone abnormalities in human renal allografts, 34
Brain dysfunction, clinical approach to measurement, 60
— tissue, normal and abnormal, effect of radiographic contrast material on, 69
Bronchiolitis due to respiratory syncytial virus, prednisolone in, 11
Bronchus carcinoma *in situ* and early invasive, 32
— —, oat-celled, comparison of surgery and radiotherapy in primary treatment, follow-up study, 32
— — with gross obstruction of major bronchi without radiological evidence of atelectasis, 70
Calcium loading test, oral, in rickets and neonatal tetany, effect of vitamin D, 55
Carbimazole in thyrotoxicosis before radioactive iodine treatment, 39
Cardiovascular system, 21–8
Cartilage, enzymatic degradation by urine from rheumatoid patients, 45
Causalgia, review of 28 treated cases, 47
Chagas' disease, chronic, behaviour of autonomic nervous supply of ureters in, 5
Cheesewasher's disease, special form of farmer's lung syndrome, 67
Chemotherapy, 10
Children, *see also* Infants
—, allergic, IgE concentrations in, 16
—, asthmatic growth-retarded, growth hormone secretion in, 59
—, infective hepatitis in, influence of treatment on some laboratory tests, 11
—, lymphoblastic leukaemic, immunological and chromosome studies in first-degree relatives, 31
—, malnourished, serum β -lysin levels in, 56
—, preschool, lysine-supplemented wheat diet and its effect on growth of, 14
Cholera in pregnancy, 14
— vaccine, live oral, clinical trial, 15
Cholesterol levels in serum in ABO and Lewis blood groups, 61
— — — — — ABO and rhesus blood groups, 61
Choriocarcinoma, nongestational primary of ovary, sustained remission after chemotherapy, 10
Chromosome studies in first-degree relatives of children with acute lymphoblastic leukaemia, 31
— X, immunoglobulin M levels and, 61
Circulation, assisted, by external pressure variation, 21
Cirrhosis, *see* Liver
Clomocycline in gonorrhoea and non-gonococcal urethritis, 13
Collagen disease, relation of fat embolism in children to, 57
Colon, total aganglionosis of, recognition and treatment, 56
Contrast medium, radiographic, effect on normal and abnormal brain tissue, 69
Coronary arteriogram, effect of long-term oral treatment with coronary dilators on, 24
— artery disease, effect of blood pressure on risk of, Framingham study, 24
— — —, physical training in management of, 25
Corticosteroids in bacterial meningitis, clinical trial, 60
Countershock, direct-current, in arrhythmia, origin of elevated serum enzyme activities in, 27
— in atrial arrhythmia, prognosis, 27
Cranium, *see* Skull
Creatinine phosphokinase release from muscle in acute psychoses, 48
Crigler-Najjar syndrome, phenobarbitone and nikethamide in, 56
Cycloserine in chronic bacteriuria due to *Escherichia coli*, 35
Cystitis, chronic interstitial, differential sacral neurotomy in, 36

SUBJECT INDEX

- Depression, severe, after intramuscular injection of slow-release fluphenazine, 49
- Dermatitis, atopic, immunoglobulin E levels in, 50
- herpetiformis, granular deposits of immunoglobulins in skin in, immunofluorescent study, 51
- , rosacea-like, new disease picture, 5
- Dermatology**, 50-2
- Dermatosis, chronic, association with severe persistent photosensitivity, 50
- Diabetes mellitus, insulin-resistant, with autoantibodies induced by exogenous insulin, treatment by insulin withdrawal, 42
- , lipotrophic, serum insulin and growth hormone levels in, 41
- , juvenile, β -adrenergic blockade in, 42
- , —, increased ketone responsiveness to adrenaline in, 42
- Diarrhoea pathogenesis, bacterial contamination of small intestine in, 20
- , travellers', outbreak during medical congress in Teheran, 66
- Diazepam, parenteral, in preanaesthetic medication, 68
- Diethylnicotinamide, *see* Nikethamide
- Disinfectant, Resiguard, efficacy, 63
- Doctors' attitudes to smoking, 63
- Drug-induced disease, radiological manifestations, 72*
- Duodenography, hypotonic, 71
- Ear tumour, glomus, angiographic and tomographic investigation, 70
- Electrocardiogram pattern in left ventricular hypertrophy, 23
- , T-wave abnormalities, assessment with oral potassium salts, 22
- Electroencephalogram of infants fed on milk from mothers with low serum folate level, 59
- Embolism, pulmonary, recurrent septic, complicating maintenance haemodialysis, 33
- Emphysema, heterozygous and homozygous α_1 -antitrypsin deficiency in, 61
- Encephalopathy, "infantile" subacute necrotizing, in adults, 46
- Endocarditis, bacterial, neurological manifestations, 22
- Endocrinology**, 37-43
- Enteritis, regional, morbidity and mortality in, 20
- Environment, influence on immunoglobulin levels, 3
- Erythrocytes, glucose-6-phosphate dehydrogenase deficient, resistance to malarial parasites, 62
- Erythropoietin level in serum in rheumatoid arthritis, 44
- Ethambutol, intrapleural, in pulmonary tuberculosis, 12
- Eye disease, dysthyroid, guanethidine eyedrops in, 38
- Factor VIII deficiency, two forms, 30
- Farmer's lung syndrome, cheesewasher's disease as new form of, 67
- Fat embolism in children, frequency and relation to collagen disease, 57
- Fibrin, split products of, assay in renal disease, 34
- Fluphenazine, slow-release intramuscular injection, severe depression after, 49
- Folate levels, low, in serum, electroencephalogram of infants fed on milk from mothers with, 59
- Gallbladder disease, arteriographic diagnosis, 72
- Gastric secretion in chronic hyperparathyroidism, 39
- Gastroenteritis, acute, in hospitalized infants, antibiotic treatment, 55
- Gastroenterology**, 18-20
- Genetics, medical**, 61-2
- α -Gliadin reagins in wheat hypersensitivity, 16
- Glomerulonephritis, *see* Nephritis
- Glucocorticoid in nontumorous "primary" aldosteronism, 40, 41
- Glucose intolerance in cystic fibrosis, 43
- Glucose-6-phosphate dehydrogenase deficient erythrocytes showing resistance to malarial parasites, 62
- Glycosuria, "rapid tests" for, serious errors with, 43
- Gonorrhoea, clomoxycycline in, 13
- , spiramycin in rapid treatment, 12
- Growth hormone in lipotrophic diabetes, 41
- secretion in growth-retarded asthmatic children, 59
- of preschool children, lysine-supplemented wheat diet and, 14
- Guanethidine eyedrops in dysthyroid eye disease, 38
- Haematology, clinical**, 29-31
- Haematoma, prefrontal extradural, 46
- Haematuria, recurrent, in children, 58
- Haemodialysis, maintenance, recurrent septic pulmonary embolization complicating, 33
- Haemolytic-uraemic syndrome, heparin in, 56
- Haemophilia A, two forms, 30
- arthropathy, radiological and clinical study, 72
- Halothane requirement, relation of age to, 68
- Headache in children, analysis of 208 cases, 60
- Heart, *see also* Coronary; Myocardial infarction; Myocardium
- disease detection by clinical measurement of left ventricular ejection time, 23
- , ischaemic, complicating nephrotic syndrome, 35
- failure, congestive, in children with enlarged tonsils and adenoids, aetiological factors, 58
- hypertrophy, left ventricular, electrocardiographic pattern in, 23
- , mitral valve disease, congenital, associated with coarctation of aorta, 22
- , papillary muscle dysfunction, correlative clinical and angiographic study, 21
- , — of left ventricle, necropsy incidence of fibrosis and infarction, 4
- sound, second, interval in acute myocardial infarction, 26
- Heartburn and hiatus hernia, augmented histamine test in, 18
- Heparin in haemolytic-uraemic syndrome, 56
- Hepatitis, infective, in children, influence of treatment on some laboratory tests, 11
- , —, prophylaxis by immune serum globulin of Americans overseas, 66
- , —, relation of Australia/SH antigen to Willowbrook MS-2 strain, 7
- Heredity, influence on immunoglobulin levels, 3
- Hernia, hiatus, and heartburn, augmented histamine test in, 18
- Heteronium bromide, antisecretory effects, 8
- Hirschsprung's disease of entire colon, recognition and management, 56
- Histamine test, augmented, acute gastric mucosal lesions produced by, 18
- , —, in symptomatic hiatal hernia, 18
- Hodgkin's disease, factors affecting survival in, 69*
- Homocystinuria, pyridoxine in, 17
- Hyaline membrane disease, hypoxaemia during recovery, 54
- Hydroxyproline concentration in serum as index of activity of rheumatoid arthritis, 44
- Hyperbilirubinaemia, congenital, phenobarbitone and nikethamide in, 56
- , neonatal, phenobarbitone in, 53
- Hyperlipoproteinaemia, type III, 17
- Hyperparathyroidism, chronic, gastric secretion and, 39
- primary, radioimmunoassay in differentiation of adenoma and hyperplasia, 39
- , venous compression test in, 40
- Hypertension, portal, lymphodynamics in, 71
- , pulmonary, in children with enlarged tonsils and adenoids, aetiological factors, 58
- , renal, verapamil treatment in crises, 28
- with inappropriate aldosterone stimulation, a syndrome, 28
- Hyperthyroidism, *see* Thyrotoxicosis
- Hypothalamic-pituitary-adrenal function tests, evaluation, 37
- Hypoxaemia during recovery from severe hyaline membrane disease, 54
- Immunoglobulin, granular deposits in skin in dermatitis herpetiformis, immunofluorescent study, 51
- levels in serum, influence of heredity and environment on, 3
- A deficiency, correlation of milk precipitins with, 2
- E concentrations in children with atopic diseases, 16
- levels in atopic dermatitis and urticaria, 50
- M levels and the X chromosome, 61
- Industrial medicine**, 67
- Infants, acute gastroenteritis in, antibiotics in hospital treatment, 55
- , low birth weight and perinatal mortality, groups at risk, prospective study of biological characteristics and socioeconomic status of mothers, 53*
- , newborn, cerebral symptoms in, diagnostic and prognostic significance, 60*
- , —, liver necrosis in, 53
- , —, with staphylococcal destruction of lungs, radical surgical treatment, 54
- Infection, staphylococcal, of lungs in newborn infants, radical surgical treatment, 54
- Infectious diseases**, 11
- Inflammation of knee joint in rheumatoid arthritis, objective index, 44
- Influenza vaccine, monovalent, evaluation in a retirement community during an epidemic, 64
- Insulin level in serum in lipotrophic diabetes, 41
- release, stimulation by secretin, 37
- Intestinal absorption in falciparum malaria, 15
- Iproveratril, *see* Verapamil
- Iridocyclitis in juvenile rheumatoid arthritis, 44
- Iron metabolism in anaemia of chronic renal failure, effects of dialysis and of parenteral iron, 30

SUBJECT INDEX

Ischaemia, *see also* Myocardial
—, acute, of extremities, regional perfusion in, 21

Jaundice, *see* Hyperbilirubinaemia
Jejunum, bacteriological study in pathogenesis of diarrhoea, 20

Kallikrein-kinin system, vascular reactions in chronic urticaria mediated by, 51

Ketone responsiveness to adrenaline, increase in juvenile diabetes mellitus, 42
Kidney, *see also* Nephritis; Nephrotic — disease, split products of fibrin, assay of in assessment, 34
—, ectopic, intrathoracic location, 72
— failure, acute, infusion pyelography in, 72

—, chronic, anaemia of, effects of dialysis and of parenteral iron on metabolism in, 30
— transplant rejection, hyperchloraemic acidosis as aid to early diagnosis, 33
— transplantation, allograft, skeletal complications in, 34

—, cadaver, syndrome of incomplete renal tubular acidosis after, 33
Klebsiella infections, epidemiology of resistance, 7
Koebner phenomenon in psoriasis, experimental study, 52

Leprosy, human, in normal mice, 1
—, lepromatous, thalidomide treatment, 14

Leukaemia, familial, pattern in two interrelated families, 62
—, lymphoblastic, acute, immunological and chromosome studies in first-degree relatives of children with, 31

Lipid levels in serum, effect of propranolol on, 9
Lipoprotein, *see* Hyperlipoproteinaemia
Liver, *see also* Hepatitis

—, anaemic areas in, 5
—, cirrhosis associated with α_1 -antitrypsin deficiency, 62

—, disease, acute and chronic, Australia antigen in, 6
—, chronic active, with cirrhosis, Australia antigen in, 19

—, enlargement in area endemic for malaria and schistosomiasis, 14
—, fatty degeneration, acute, in pregnancy, 19

—, necrosis in newborn infants, 53
Lung, *see also* Farmer's lung
Lung carcinoma, *see also* Bronchus

—, and arsenic, occupational study, 67
—, cystic fibrosis, ventilatory function in infants with, assessment of inhalation therapy, 58

—, vascular pattern in idiopathic respiratory distress, microangiographic study, 4

Lymphodynamics in portal hypertension, 71
 β -Lysin levels in serum in malnourished children, 56

Lysine supplemented wheat diet and growth of preschool children, 14

Malaria endemic area, enlarged livers and spleens of subjects in, 14
—, falciparum, histopathological changes and small bowel absorption in, 15

Malaria, resistance of glucose-6-phosphate dehydrogenase deficient erythrocytes to, 62

Malnutrition in children, serum β -lysin levels in, 56
Mania, methysergide in, clinical trial, 49

Measles vaccination by intradermal route, 64
Megaclor, *see* Clomocycline

Melanoma chemotherapy, prolonged and continuous regional arterial infusion in, 10

Meningitis, bacterial, corticosteroids as adjunct in treatment, clinical trial, 60
—, cerebrospinal, sulphonamide and antibiotic treatments in seasonal outbreak, 65

Meningococcaemia, fatal intravascular consumption coagulopathy in, 11
Meningoencephalitis, primary amoebic, amphotericin B sensitivity of *Naegleria* sp. isolated from, 10

Metabolism, 17
Methotrexate in pemphigus vulgaris, 52
Methysergide in maria, clinical trial, 49

Microbiology, 6-7
Micturition, infrequent, radiological study, 36

Milk precipitins, correlation with IgA deficiency, 2
Mitral, *see* Heart

Muramidase, salivary, activity in allergic bronchial asthma, 16
Muscle enzyme release in acute psychoses, 48

Mycobacterium tuberculosis, drug dependence of, 12
Myocardial infarction, acute, danger of rectal examination in, 26

—, —, Q-second sound interval in, 26
—, —, platelet adhesiveness and aggregation in, 26

—, —, sugar intake and, 25
—, —, transmural, single and multiple attacks, relation to age, mortality, and survival, 26

Myocardium hypertrophy in athletes, electrocardiographic evaluation, 23

Nasopharynx tumours, benign and simulated formations, radiological diagnosis, 70

Neoplasms, benign, in children, removal for cancer prophylaxis, 54
—, multiple primary malignant, necropsy study of circumscribed population, 3

Nephritis, glomerular, idiopathic membranous, in adults, remission after steroid therapy, 35

—, —, in children, behaviour of β_1 C immunoelectrophoretic serum protein fraction in, 35

—, radiation, intraarterial adrenaline prophylaxis, 69
Nephrotic syndrome complicated by ischaemic heart disease, 35

Neurofibromatosis, changes in skull bones in, 69
Neurology and neurosurgery, 46-7

Neuroma, acoustic, total removal, immediate and long-term results, 47
Neurotomy, differential sacral, in chronic interstitial cystitis, 36

Nikethamide and phenobarbitone in congenital hyperbilirubinaemia, 56
Nitrazepam, hypnotic properties, 9

Nitrofurantoin in chronic bacteriuria due to *Escherichia coli*, 35
Nutrition, 17

Obesity, intestinal bypass operations in, 17

Ophthalmopathy, *see* Eye disease
Ovary carcinoma, primary, containing choriocarcinoma, sustained remission after chemotherapy, 10

Oxygen, *see also* Hypoxaemia
—, hyperbaric, in topical treatment of pressure sores and skin ulcers, 50

Paediatrics, 53-60. For details *see* Children; Infants
Pancreas, cystic fibrosis, diagnosis by sodium electrode sweat tests, 1

—, —, glucose intolerance in, 43
Parasitology, 6-7
Parathyroid, *see* Hyperparathyroidism; Pseudohypoparathyroidism

Pathology, 1-5
Pemphigus vulgaris, methotrexate in, 52
Perfusion, regional, in acute ischaemia of extremities, 21

Pharmacology, 8-9
Phenobarbitone in neonatal hyperbilirubinaemia, 53

— and nikethamide in congenital hyperbilirubinaemia, 56
Photosensitivity, persistent, association with chronic dermatosis, 50

Physical training in coronary artery disease, 25
Pneumoconiosis, early complicated, of coalworkers, antituberculosis chemotherapy, 67

Pneumonia, infarctoid, pathological study, 4
Poliomyelitis vaccine, Sabin, effect on incidence of poliomyelitis in Italy, 65

Polymyxin B susceptibility of benzylpenicillin induced *Proteus mirabilis* L forms and spheroblasts, 7
Potassium salts, oral, in assessment of T-wave abnormalities in electrocardiogram, 22

Prednisolone, trimethylacetate injection into stylo mastoid foramen in Bell's palsy, 46
Prednisone, alternate-day therapy, evaluation, 8

Pregnancy, acute fatty degeneration of liver in, 19
—, cholera in, 14
Premedication, parenteral diazepam for, 68

Pressure sores, topical hyperbaric oxygen treatment, 50
Propranolol, effect on serum lipid levels, 9

Proteinosis, pulmonary alveolar, radiological study, 70
Pseudohypoparathyroidism, no improvement after total thyroidectomy, 40

Psoriasis, experimental study of Koebner phenomenon in, 52
Psychiatry, 48-9

Psychosis, acute, muscle enzyme release in, 48
Public health, 63-6

Purpura, anaphylactoid, streptococcal antibody titres and β_1 C-globulin levels, 31

—, thrombocytopenic, chronic idiopathic, in children, immunosuppressive therapy, 57
Pyelography, infusion, in acute renal failure, 72

Pyridoxine in homocystinuria, 17

Radiation nephritis, intraarterial adrenaline protection against, 69
Radiology, 69-72

Radiothyroidectomy, changes in ankle jerk time during, 38

SUBJECT INDEX

Recklinghausen's disease, changes in skull bones in, 69
 Rectum examination, danger in acute myocardial infarction, 26
 Respiratory distress, idiopathic, pulmonary vascular pattern in, microangiographic study, 4
 — system, 32
 Retinopathy in megaloblastic anaemias, 30
Rheumatic diseases, 44-5
 Rheumatoid, *see also* Arthritis
 — factor, age-related, incidence and characteristics, 2
 Rickets, oral calcium loading test in, effect of vitamin D, 55
 Rosacea-like dermatitis, new disease picture, 51
 Sarcoid tissue, transmissible agent from, 1
 Sarcoidosis, pulmonary, steroid therapy, evaluation by pulmonary function studies, 32
 Schistosomiasis endemic area, enlarged livers and spleens of subjects living in, 14
 Secretin as stimulator of insulin release, 37
 Shock, *see* Countershock
 Skin carcinoma, squamous cell, of lower limbs, analysis of aetiological factors, 52
 Skull bone changes in Recklinghausen's disease, 69
 Smoking, *see* Tobacco
 Somatotrophin, *see* Growth hormone
 Spiramycin in gonorrhoea, 13
 Spleen enlargement in area endemic for malaria and schistosomiasis, 14
 Steroid therapy of pulmonary sarcoidosis, evaluation by pulmonary function studies, 32
 Stomach mucosa lesions, acute, produced by augmented histamine test, 18
 Sugar intake and myocardial infarction, 25
 Sulphadimidine in chronic bacteriuria due to *Escherichia coli*, 35

Sweat tests, sodium electrode, in diagnosis of cystic fibrosis of pancreas, 1
 Syncytial virus, respiratory, neutralizing activity in nasal secretions following natural infection, 6
 —, —, prednisolone in epidemic bronchiolitis due to, 11
 Synovial fluid, immunological changes after synovectomy of knee joint in rheumatoid arthritis, 45
 Syphilis serology, anamnestic reactions in, 13
 Tetany, neonatal, oral calcium loading test in, effect of vitamin D, 55
 F-Thalassaemia, familial study, 62*
 Thalidomide in lepromatous leprosy, 14
 Thrombosis, extracerebral carotid axis, pseudotumoural form, 46
 Thyroid carcinoma in Hiroshima and Nagasaki, 69
 Thyroidectomy, *see also* Radiothyroidectomy
 —, total, in pseudohypoparathyroidism, lack of effect, 40
 Thyrotoxicosis, low doses of radioactive iodine in, 38
 —, radioactive iodine in, changes in ankle jerk time during, 38
 —, —, pretreatment with carbimazole, 39
 Tobacco smoking, doctors' attitudes to, 63
 Tonsils and adenoids, enlarged, in children, pulmonary hypertension and congestive heart failure with, aetiological factors, 58
Tropical medicine, 14-5
 Trypsin, *see* Antitrypsin
 Tubercle bacillus, *see* *Mycobacterium tuberculosis*
Tuberculosis, 12
 — diagnosis by percutaneous mycobacterium test, 12
 —, pulmonary, intrapleural ethambutol in, 12
 Tumour, *see* Neoplasm

Typhoid-paratyphoid immunization, oral, efficacy during an epidemic, 65
 Ulcer, cutaneous, topical hyperbaric oxygen in, 50
 —, duodenal giant, clinical and radiological features, 71
 —, —, unrestricted diet in, 19
 —, gastric, chronic, antacid treatment, rate of healing, 18
 Ureter in chronic Chagas' disease, behaviour of autonomic nervous supply of, 5
 Urethritis, nongonococcal, clomocycline in, 13
 Urinary tract infection, acute, in children, chemotherapy, 59
 —, —, initial, in children without major radiological abnormalities, 58
Urogenital system, 33-6
 Urography, review, 72*
 Urticaria, chronic, vascular reactions mediated by kallikrein-kinin system in, 51
 —, immunoglobulin E levels in, 50
Venereal diseases, 13
 Venous compression test in hyperparathyroidism, 40
 Ventilatory function in infants with cystic fibrosis, assessment of inhalation therapy, 58
 Verapamil in renal hypertension crises, 28
 Vitamin B₁₂ deficiency, screening of psychiatric patients for, 48
 — D, effect on oral calcium loading test in rickets and neonatal tetany, 55
 Wheat hypersensitivity, reagins to α -gliadin in, 16
 Wolff-Parkinson-White syndrome, surgical treatment, 27

SUBJECT INDEX

An asterisk denotes title and reference only

Absenteeism from school and oxidant air pollution, 153
 Acetate-containing peritoneal dialysate solutions, adverse effect on bacteria, 129
 Acidosis of cholera, comparison of acetate, lactate, and bicarbonate treatment, 104
 Acne vulgaris, Grenz x-rays in treatment, 160
 Adrenal cortical adenoma, nonfunctioning, and aldosteronoma, comparative ultrastructural study, 88
 Air pollution, oxidant, and school absenteeism, 153
 Alcoholism, acute, rapid detoxification with haemodialysis, 158
 Aldosterone, relation to sodium balance changes in lithium treatment, 97
 Aldosteronoma and nonfunctioning adrenal cortical adenoma, comparative ultrastructural study, 88
 Allergy, 107
 Allpyral extracts for desensitization to bee and wasp stings, 107
 Ambilhar, *see* Niridazole
 Ammonia inhalation, haemodynamic effects, 92
 Anaemia after exchange transfusion for jaundice in premature infants, 147
 —, autoimmune haemolytic, red cell lipids in, 87*
 —, haemolytic, Coombs' positive, in myelofibrosis with myeloid metaplasia, 124
 —, iron deficiency, chronic, blood platelet levels in, 123
 —, pernicious, gastric carcinoma in, cytological evidence of long "quiescent" stage, 87
 —, —, and other vitamin B₁₂ deficiency states (review article), 73
 —, refractory, oxymethalone in, 123
 Analgesic nephropathy, clinical course after phenacetin withdrawal, 129
 Angiography in differentiation of haemangioblastomas and arteriovenous malformations of spinal cord, 159
 Angioedema and urticaria, review of 554 cases, 146
 Angiopathy, nonhypertensive, renal biopsy studies in nephrotic syndrome, 88
 Ankle weakness due to common peroneal entrapment neuropathy, 141
 Antibiotic sensitivity of *Neisseria gonorrhoeae*, 103
 Anticonvulsant drug treatment, folic acid deficiency and, 95
 Antimalarial drugs, pharmacology, rational approach to therapy of resistant falciparum malaria, 98*
 Antinuclear antibody in serum induced by procainamide, 86
 Aorta coarctation, recurrent, clinical study, 117
 — valve calcification, radiological and haemodynamic correlation, 122
 Apnoea in premature infants, frequency, gravity, and therapeutic possibilities, 147
 Arrhythmia, atrial, rare form, 121
 —, phenolamine in, 121
 —, ventricular fibrillation, helium for prophylaxis, 93

Arteries, coronary, *see* Coronary
 —, renal, stenosis and hypertension, treatment, 117
 Arthritis, distinctive type in New Guinea highlanders, clinical and laboratory studies, 104
 —, rheumatoid, azathioprine in, 137
 —, —, follicular hyperplasia in lymph nodes in, clinicopathological study, 89
 —, —, juvenile, natural course, 136
 —, —, prolactin in, 137
 —, —, pyarthrosis in, 136
 Aspergilloma in sarcoidosis, 127
 Aspergillosis, cerebral, 140*
 Aspirin ingestion, relation to gastric and duodenal ulceration, 110
 —, intravenous, influence on gastrointestinal blood loss, 96
 Asthma, effects of chloral hydrate on respiration in, 107
 —, skin reactions to mite extracts, clinical significance in children, 107
 Ataxia-telangiectasia, immunoglobulin E deficiency in, 151
 Australia antibody prophylaxis of post-transfusion hepatitis, failure, 100
 — antigen in haemodialysis-associated hepatitis, 90
 — — — hepatitis in London, 90
 Azathioprine in Crohn's disease, 113
 — immunosuppressive therapy of pemphigus vulgaris, 146
 — — rheumatoid arthritis, 137

Bacteriaemia, changing staphylococcal and streptococcal flora in, 91
 Bacteriophage, review, 90*
 Bacteriuria diagnosis in women, 130
 BCG vaccine in management of infants born of tuberculous mothers, 101
 Bee sting allergy, desensitization with allpyral extracts in, 107
 Beriberi heart disease in London, 116
 Bile salt metabolism disturbances and cholelithiasis in disorders of terminal ileum, 113
 Bladder puncture in diagnosis of urinary tract infection, 130
 Blood circulation, *see* Circulation
 — flow, myocardial, effect of glyceryl trinitrate on, 93
 — loss, acute, reticulated platelets after, 86
 — platelet(s) fate in rats and man, 86
 — — levels in chronic iron deficiency anaemia, 123
 — — size and function in ischaemic heart disease, 86
 — transfusion, exchange, for jaundice in premature infants, anaemia after, 147
 — —, fetal, developmental characteristics of infants after, 147
 — — requirements in chronic dialysis, effect of bilateral nephrectomy on, 129
 Brain scan, positive, in fibrous dysplasia and other lesions of skull, 159
 — scanning, serial, with technetium 99m and scintillation camera, 159
 Bronchitis, chronic, acute exacerbations, 126

Broncholithiasis, anatomical and clinical study, 126
 Byssinosis in cotton textile workers, respiratory survey, 156

Calcification of aortic valve, radiological and haemodynamic correlations, 122
 Calcium malabsorption of chronic renal failure, effect of haemodialysis, vitamin D, and renal homotransplantation on, 129
 — pyrophosphate dihydrate crystal deposition disease, clinical and laboratory findings, 136
 Calorie restriction in obesity, effect on energy expenditure, 108
 Cannabis constituents, detection in mouth and on fingers of smokers, 157
 Carbenicillin in Gram negative bacilli infections, 98
 — resistant strains of *Pseudomonas aeruginosa*, 90
 Carbohydrate diet, high, in diabetes mellitus, 135
 — metabolism, abnormalities in coronary artery disease, 119
 — —, effect of oral contraceptives on, 131
 Cardiovascular system, 116-22
 Catapres, *see* Clonidine
 Cephalixin, clinical and *in vitro* evaluation, 98
 Chemotherapy, 98
 Chest radiography in acute myocardial infarction, 160
 Chikungunya virus infection epidemic with concurrent dengue, 104
 Children, *see also* Infants
 —, asthmatic, skin reactions to mite extracts, clinical significance, 107
 —, cancer and congenital defects in, 153
 —, epileptic, late detection of cerebral glioma in, 150
 —, —, selective intellectual deficits in, 151
 —, hypoglycaemia precipitated by acute congestive heart failure in, 116
 —, proliferative glomerulonephritis in, immunosuppressive therapy, 150
 —, school absenteeism and oxidant air pollution in, 153
 Chloral hydrate, effects on respiration of asthmatic and control patients, 107
 Chlorpromazine, effect on patients with liver disease, 97
 — treatment, chromosome abnormalities after, 142
 Cholelithiasis in disorders of terminal ileum, disturbed bile salt metabolism and, 113
 Cholera acidosis, acetate, lactate, and bicarbonate treatment, comparison, 104
 Cholesterol level in serum in mental retardation, 143
 Cholestyramine in diarrhoea associated with ileal resection, 113
 Chromosome abnormalities after treatment with chlorpromazine, perphenazine, and lysergide, 142
 — complement of lymph node cells in Hodgkin's disease, 89

SUBJECT INDEX

- Circulation**, extracorporeal, postoperative bacterial endocarditis after use of, 116
Cirrhosis, see Liver
Clonidine, acute circulatory effects of, 94
Coeliac disease, follow-up study, 149
Colitis, ulcerative, cellular hypersensitivity to components of intestinal mucosa in, 114
—, electrolyte absorption from colon in, 114
—, mandelic acid excretion in, 115
—, salazopyrine treatment, faecal flora during, 115
—, toxic dilatation of colon in, 115
Contraceptive, oral, effect on carbohydrate metabolism, 131
—, effect on fasting serum-lipid and lipoprotein levels, 131
Coronary artery disease, effect of arterial hypoxaemia and hyperoxia on oxygen availability for myocardial metabolism in, 119
—, —, —, inhalation of 100% oxygen on myocardial lactate metabolism in, 120
—, —, lipid and carbohydrate abnormalities in, 119
Corticotrophin in myasthenia gravis, intensive therapy and maintenance treatment, 138
Cotton textile workers, byssinosis in, 156
Crohn's disease, azathioprine in, 113
—, cellular hypersensitivity to components of intestinal mucosa in, 114
—, Kveim test in, 113
Cushing's syndrome in infants, 150
Cytomegalovirus infection in renal allograft recipients, 99
—, prenatal, as cause of mental retardation, 143
—, mononucleosis in previously healthy persons, 99
- Dairy farming community, Q fever and leptospirosis in, 155
Dapsone, low dosage, in lepromatous leprosy, 105
— prophylaxis of malaria in Vietnam, 106
Death, sudden, in drug addicts, toxicological findings, 157
—, unexpected, in infancy, parathyroids and cervical thymus in, 157
Depression and premenstrual problems, 142
—, rubidium in, experimental study, 96
—, shock, and drug therapy, comparative statistical study of effects, 144
Dermatitis herpetiformis, gluten-free diet and reintroduction of gluten in, 145
—, small bowel changes in, 145
Dermatology, 145-6
Dermatosis, acute febrile neutrophilic, 145
Desferrioxamine for iron mobilization in patients with low serum iron levels, 123
Diabetes, see also Neuropathy
— mellitus, high carbohydrate diet therapy, 135
—, insulin-treated, growth hormone levels in, 133
—, maturity-onset, glibenclamide in, 134, 135
— onset, insulin response to oral glucose before and after, 133
—, variability of blood cholesterol, triglycerides, free fatty acids, glucose, and body weight in, 134
—, retesting of population after 17 years, 132
—, viral antibodies in, 133
- Dialysis, see also Haemodialysis
—, chronic, effect of bilateral nephrectomy on transfusion requirements in, 129
—, peritoneal, adverse effect on bacteria of solutions containing acetate, 129
Diaphragm activity in obesity, 126
Diarrhoea in ileal resection, cholestyramine in, 113
—, neurogenic, mandelic acid excretion in, 115
Diazepam, effect on thyroid function in normal adults, 131
Dimethothiazine prophylaxis of migraine, 139
Diuretics in congestive heart disease, clinical evaluation, 94
Dracunculiasis, niridazole in, 106
Drowning, haemorrhage into middle ear in, pathological study, 157
Drug addiction, sudden death in, toxicological study, 157
Dysentery, bacillary, tetracycline in single dose and a five-day course in, comparison, 105
Dysrhythmia, β -adrenergic receptor blocking drugs in, 122*
- Electrocardiogram changes after glucose ingestion, 118
—, exercise-induced ischaemic S-T depression, effect of propranolol on, 93
Electric convulsion therapy, dominant, nondominant and bimodal, electroencephalogram, memory, and confusion in, 142
Electroencephalogram dysrhythmias, correlation of auditory perceptual deficit with, 151
— in experimentally induced intracranial hypertension, 138
Electrolyte absorption from colon in normal subjects and in ulcerative colitis, 114
Embolism, pulmonary, prevention of recurrence, 117
—, thermographic patterns in, 118
Encephalopathy, chronic portal systemic, lactulose treatment in, 111, 112
Endocarditis, bacterial, postoperative, after use of extracorporeal circulation, 116
Endocrinology, 131-5
Energy expenditure, effect of calorie restriction in obesity on, 108
Epilepsy in children with late detection of cerebral glioma, 150
—, temporal lobe or centrencephalic, in children, selective intellectual defects in, 151
—, schizophrenic-like reactions and affective psychoses in, 144
Erythema nodosum leprosum, moderately severe, thalidomide in, 105
Erythromycin in early syphilis, 102
Ethacrynic acid, renal pharmacology and clinical use, 92*
- Factor VIII inhibitor in mild haemophilia, 124
Faeces flora in ulcerative colitis during salazopyrine treatment, 115
Fatty acid, free, concentration in serum, relation to complications after acute myocardial infarction, 120
Ferrioxamine test, differential, in haemochromatosis and liver disease, 111
Fibre glass, see Glass
- Gallstones, see Cholelithiasis
Gastrin, action on lower oesophageal sphincter, 109
— II, intravenous infusion, gastrointestinal motility and gastric secretion during, 109
Gastroenterology, 109-15
Glibenclamide in maturity-onset diabetes, 134, 135
Glioma, cerebral, late detection in epileptic children, 150
Glomerulonephritis, see Nephritis
Glucose ingestion, electrocardiogram and serum potassium changes after, 118
Glycerol trinitrate, effect on myocardial blood flow, 93
Goitre, diffuse toxic, propylthiouracil or methimazole in single daily dose in, 132
Grenz x-rays in acne vulgaris, 160
Growth failure from maternal deprivation secondary to undernourishment, 148
— hormone in insulin-treated diabetes mellitus, 133
— in familial hypophosphataemic vitamin-D resistant rickets, 148
- Haematology, clinical**, 123-5
Haemochromatosis, differential ferrioxamine test in, 111
Haemodialysis associated hepatitis, SH antigen in, 90
— in rapid detoxification of the acute alcoholic, 158
Haemophilia, mild, inhibitor of Factor VIII in, 124
Haemorrhage, gastrointestinal, effect of intravenous aspirin on, 96
— into middle ear in drowning, pathological study, 157
HB 419, see Glibenclamide
Heart, see also Coronary; Myocardial infarction
— disease, beriberi, in London, 116
—, combined vagal and sympathetic blockade in, heart rate after, 118
—, congestive, diuretics in, clinical evaluation, 94
—, ischaemic, blood platelet size and function in, 86
— failure, acute congestive, precipitating hypoglycaemia in children, 116
—, left ventricular haemorrhagic necrosis, 87
—, mitral valve disease, normal sinus rhythm in, 122
— rate after combined vagal and sympathetic blockade in heart disease, 118

SUBJECT INDEX

- Helium prophylaxis of ventricular fibrillation, 93
- Hepatitis, Australia antigen in, cases in London, 90
- , chronic, correlation of laparoscopic and histological findings in, 111
- , haemodialysis-associated, SH antigen in, 90
- , posttransfusion, failure of Australia antibody prophylaxis, 100
- , virus-like antigen, antibody and antigen-antibody complexes in, measurement by complement fixation, 91
- Herpes zoster, regional sympathetic block in, 141
- Hodgkin's disease, chromosome complement of lymph node cells in, 89
- , follow-up study after 20 years' survival, 89
- Hydrocephalus, "normal pressure", syndrome of, 140
- Hypertension, intracranial, experimentally induced, electroencephalographic findings, 138
- , oxprenolol in, haemodynamic effects, 95
- , and renal artery stenosis, treatment, 117
- Hyperthyroidism, *see* Thyrotoxicosis
- Hypoglycaemia in hepatocellular carcinoma, 112
- , precipitated by acute congestive heart failure in children, 116
- Ileum resection, diarrhoea in, cholestyramine treatment, 113
- , terminal, cholelithiasis in disorders of, disturbed bile salt metabolism and, 113
- Immunoglobulin E deficiency in ataxia-telangiectasia, 151
- Immunosuppressive therapy of pemphigus vulgaris, 146
- , —, proliferative glomerulonephritis in children, 150
- Industrial medicine, 156
- Infants, Cushing's syndrome in, 150
- , developmental characteristics after fetal transfusion, 147
- , newborn, advancement of dermal icterus in the jaundiced, 147
- , —, hypoglycaemia precipitated by acute congestive heart failure in, 116
- , premature, anaemia after exchange transfusion for jaundice in, 147
- , —, apnoea in, frequency, gravity, and therapeutic possibilities, 147
- Infection, Gram-negative bacillary, carbenicillin in, 98
- Infectious diseases, 99-100
- Influenza, uncomplicated, pulmonary function in, 99
- Insulin in serum, review, 135*
- , release in patients with fatty liver, 111
- , response of intact stomach in duodenal ulcer, 110
- , to oral glucose before and after onset of diabetes, 133
- Intestine mucosa, cellular hypersensitivity to components in ulcerative colitis and Crohn's disease, 114
- Iron mobilization by desferrioxamine in patients with low serum iron levels, 123
- Isoniazid in lupus vulgaris, follow-up study, 101
- Jaundice in premature infants, anaemia after exchange transfusion for, 147
- Jaundice, neonatal, advancement of dermal icterus in, 147
- Jejunum changes in dermatitis herpetiformis, 145
- Kidney, *see also* Nephrectomy; Nephritis, Nephropathy; Nephrosis
- , failure, chronic, calcium malabsorption of, effect of haemodialysis, vitamin D, and renal homotransplantation on, 129
- , transplantation, cytomegalovirus infection after, 99
- Kveim test in Crohn's disease, 113
- Lactulose in chronic portal systemic encephalopathy, 111, 112
- Lead poisoning, thyroid function in, 158
- Leprosy, erythema nodosum of, thalidomide in, 105
- , lepromatous, dapsone in low dosage in, 105
- Leptospirosis in dairy farming community, 155
- Leukaemia, lymphocytic, familial chronic, 125
- , meningeal, radiotherapy *vs* intrathecal methotrexate in, 125
- Lidocaine, *see* Lignocaine
- Lignocaine, haemodynamic effects, 94
- , infusion in heart disease, cardiovascular effects, 94
- Lipid and lipoprotein levels of serum during fasting, effect of oral contraceptives on, 131
- , metabolism abnormalities in coronary artery disease, 119
- Lithium treatment, sodium balance changes during, relation of aldosterone metabolism to, 97
- Liver, *see also* Hepatitis
- , cell carcinoma, hypoglycaemia in, 112
- , cirrhosis, correlation of laparoscopic and histological findings in, 111
- , disease, effect of chlorpromazine on patients with, 97
- , fatty, nutritional therapy and insulin release in, 111
- Lung carcinoma, accidentally discovered and asymptomatic, treatment of, 128
- , —, earlier diagnosis and survival, 128
- , —, in women, 128
- , function in uncomplicated influenza, 99
- Lupus erythematosus, systemic, serum β_2 globulin levels in, 86
- , —, thymic size in, 137
- , vulgaris, isoniazid in, follow-up study, 101
- Lymph node cells, chromosome complement in Hodgkin's disease, 89
- , follicular hyperplasia in rheumatoid arthritis, clinicopathological study, 89
- Lymphocyte transformation, reduced, due to plasma factor in active syphilis, 102
- Lymphoma, malignant, relation of non-tropical idiopathic splenomegaly to, 125
- Lysergide treatment, chromosome abnormalities after, 142
- Malaria, *see also* Antimalarial
- , prophylaxis with dapsone in Vietnam, 106
- Malformation, congenital, and childhood cancer, 153
- Mandelic acid excretion in ulcerative colitis and diarrhoea of nervous origin, 115
- Marihuana constituents, extraction and chromatographic isolation, purification, and identification of, 157
- Maternal deprivation, undernourishing as main cause of growth failure in, 148
- Measles vaccine, Edmonston live, serological evaluation, 154
- Menstruation, *see* Premenstrual
- Mental retardation, prenatal infection with cytomegalovirus, rubella virus, and toxoplasma as causes of, 143
- , serum cholesterol levels in, 143
- Metabolism, 108
- Methimazole, single daily dose, in diffuse toxic goitre, 152
- Microbiology, 90-1
- Migraine, dimethothiazine prophylaxis, 139
- , sulpiride in, 139
- Mite extracts, clinical significance of skin reactions in asthmatic children, 107
- Mitral, *see* Heart
- Mononucleosis, cytomegalovirus, in previously healthy persons, new cases and follow-up studies, 99
- Myasthenia gravis, corticotrophin for intensive therapy and maintenance treatment, 138
- Mycoplasma pneumoniae* infection, association with primary atypical pneumonia, 127
- Myelofibrosis with myeloid metaplasia, Coombs' positive haemolytic anaemia in, 124
- Myocardial infarction, acute, chest radiographs in, 160
- , —, complications of, relation of serum concentrations of free fatty acids to, 120
- , —, endocardial pacing in, 120
- Myocarditis in Trypanosomiasis rhodesiensis, 105
- Neisseria gonorrhoeae* sensitivity to penicillin and other antibiotics, 103
- Neoplasm, malignant, in childhood, and congenital defects, 153
- Nephrectomy, bilateral, effect on transfusion requirements in chronic dialysis, 129
- Nephritis, glomerular, proliferative, in children, immunosuppressive therapy, 150
- , —, serum β_2 globulin in, 86
- Nephropathy, analgesic, clinical course after phenacetin withdrawal, 129
- Nephrosis, lipid, morphological and clinical studies of course, 88
- Nephrotic syndrome, renal biopsy in, 88
- Nerves, optic, vascular compression, relief by anastomosis of carotid artery to jugular vein, 140
- Neurology and neurosurgery, 138-41
- Neuropathy, common peroneal entrapment causing ankle weakness, 141
- , diabetic, vitamin B₁₂ deficiency and, 134
- , —, and oesophageal dysfunction, 133
- Nitridazole in dracunculiasis, 106
- Nurses uniforms, contamination with *Staphylococcus aureus*, 152
- Nutrition, 108
- Obesity, calorie restriction in, effect on energy expenditure, 108

SUBJECT INDEX

Obesity, diaphragm activity in, 126
 Oesophagus dysfunction in diabetic neuropathy, 133
 Oxprenolol in hypertension, haemodynamic effects, 95
 Oxygen inhalation, 100 per cent, effect on myocardial lactate metabolism in coronary heart disease, 120
 — pneumonia, iatrogenic, treatment, 127
 — saturation of arterial blood, effects on oxygen availability for myocardial metabolism with and without coronary heart disease, 119
 Oxymethalone in refractory anaemia, 123

Pacemaker, endocardial, in acute myocardial infarction, 120
 Paediatrics, 147–51. For details see Children: Infants
 Pancreas disease, review, 109*
 Paraquat spray operators, exposure of, 156
 Parasitology, 90–1
 Parathyroid status in sudden unexpected death in infancy, 157
 Paratyphoid, furazolidine in, 100
 Parkinsonism, renin-aldosterone system in, 140
 Pathology, 86–9
 Pelvis, minor tumours in women, visceral phlebography in, 160
 Pemphigus vulgaris, immunosuppressive therapy with azathioprine, 146
 Penicillin sensitivity of *Neisseria gonorrhoeae*, 103
 Pentazocine, D- and L-isomers, analgesic and other effects, 96
 Perphenazine treatment, chromosome abnormalities after, 142
 Pharmacology, 92–7
 Pharyngitis, streptococcal, food-borne epidemic, surveillance studies after, 155
 Phentolamine in arrhythmia, 121
 Phlebography, visceral, in tumours of pelvis in women, 160
 Placebo dependence, case report, 142
 Platelets, see Blood
 Pneumonia, primary atypical, association of *Mycoplasma pneumoniae* infection with, 127
 Pneumonitis, oxygen, unintentional iatrogenic, treatment, 127
 Potassium level in serum, changes after glucose ingestion, 118
 Premenstrual problems, food craving, depression and, 142
 Procainamide for induction of antinuclear antibody, 86
 Prolactin in rheumatoid arthritis, 137
 Propranolol, effect on exercise-induced ischaemic S-T segment depression, 93
 Propylthiouracil, single daily dose in diffuse toxic goitre, 132
Pseudomonas aeruginosa, carbenicillin-resistant strains, 90
 Psychiatry, 142–4
 Psychosis, affective, in temporal lobe epilepsy, 144
 Public health, 152–5
 Pyarthrosis in rheumatoid arthritis, 136
 Pylorus muscle hypertrophy in gastric ulceration, 109
 Pyrogen-induced fever, effect of salicylate on, 92

Radiology, 159–60
 Reiter's syndrome, multiple cases, 103
 Renin-aldosterone system in Parkinsonism, 140
 Respiratory system, 126–8
 Resuscitation, cardiopulmonary, 3-year study, 121
 Rh isoimmunization, different doses of anti-Rh IgG in prevention, 92
 Rheumatic diseases, 136–7
 Rickets, familial hypophosphataemic vitamin-D-resistant, growth in, 148
 Rubella vaccine, Cendehill strain, clinical evaluation, 154
 — virus infection, prenatal, as cause of mental retardation, 143
 Rubidium as potential modifier of affect and behaviour, 96
 Running, marathon, danger of inadequate water intake during, 108

Salazopyrine in ulcerative colitis, faecal flora during treatment, 115
 Salicylate, effect on pyrogen-induced fever, 92
 Salmonella carriers, chronic biliary, treatment, 100
 Sarcoidosis incidence, geographical variations in Great Britain, 152
 — with aspergilloma, 127
 Sarcoma, immunological and viral studies, 91
 Schizophrenia-like reactions in temporal lobe epilepsy, aetiological factors, 144
 Sclerosis, multiple, plaques, symptoms, and remitting course of, 138
 Skull, fibrous dysplasia, positive brain scans in, 159
 Smoking, see Tobacco
 Sodium balance changes during lithium treatment, relation of aldosterone metabolism to, 97
 Sorbitol, intravenous, utilization and metabolism, 108
 Sphincter, lower oesophageal, action of gastrin on, 109
 Spinal cord, haemangioblastoma and arteriovenous malformations, differential angiographic features, 159
 Splenomegaly, nontropical idiopathic, relation to malignant lymphomas, 125
 Sprue, tropical, absorption of physiological doses of folic acid in patients responding to tetracycline treatment, 124
Staphylococcus aureus contamination of nurses' uniforms, 152
 Stomach carcinoma in pernicious anaemia, long "quiescent stage", cytological evidence, 87
 Sulpiride in migraine, 139
 Sweet's syndrome, 145
 Syphilis, active, reduced lymphocyte transformation due to plasma factor in, 102
 —, early, erythromycin in, 102
 —, —, vibramycin in, 103
 —, infectivity tests, 103*
 —, 2-mercaptoethanol in, effect on anti-cardiolipin reactivity in sera from syphilitics and false positive reactors, 102

Tetracycline in bacillary dysentery, comparison of single dose and five-day course, 105
 — tropical sprue, absorption of physiological doses of folic acid with, 124

Thalidomide in moderately severe erythema nodosum leprosum, 105
 Therapeutics, 92–7
 Thermography patterns in pulmonary embolism, 118
 Thrombosis, low fibrinolytic activity in walls of veins in, 87
 Thymus, cervical, in sudden unexpected death in infancy, 157
 — size in systemic lupus erythematosus, radiological assessment, 137
 Thyroid function in lead poisoning, 158
 — — — normal adults, effect of diazepam on, 131
 — stimulating hormone content of serum in thyrotoxicosis, comparison with normal subjects, 131
 Thyrotoxicosis, radioactive iodine in random dosage in, 132
 —, thyroid-stimulating hormone content of serum in, 131
 Tobacco smoking, relation to gastric and duodenal ulcer, 110
 Toxicology, 157–8
 Toxoplasma infection, prenatal, as cause of mental retardation, 143
 Trachea compression by anomalous innominate artery, 149
 Trasicor, see Oxprenolol
 Tropical medicine, 104–6
 Trypanosomiasis *rhodesiense*, myocarditis in, 105
 Tuberculosis, 101
 —, miliary, in adults, 101
 —, pulmonary, glucose intolerance in, 101*
 —, —, maternal, BCG in management of infants, 101
 Typhoid, furazolidine in, 100

Ulcer, duodenal, insulin response of intact stomach in, 110
 —, —, vagotomy and drainage procedure in, results of 10 years' experience, 110
 —, gastric and duodenal, association between aspirin ingestion, smoking, and family history of ulcer, 110
 —, —, hypertrophy of pyloric muscle in, 109
 Urinary tract infection, diagnosis by bladder puncture, 130
 — — — due to coagulase-negative staphylococci, 130
 Urogenital system, 129–30
 Urticaria and angioedema, review of 554 cases, 146

Vagotomy and drainage procedure in duodenal ulcer, results of 10 years' experience, 110
 Venereal diseases, 102–3
 Vibramycin in early syphilis, 103
 Virus antibodies in diabetes mellitus, 133
 Visual evoked response, comparison of bright and dull children, 144
 Vitamin B₁₂ deficiency states (review article), 73
 — — deficiency and diabetic neuropathy, 134

Wasp sting allergy, desensitization with allpyral extracts in, 107
 Water intake, inadequate, danger during marathon running, 108

SUBJECT INDEX

An asterisk denotes title and reference only

- Acetoneuria, glucose turnover in children with, 221
- Acromegaly, cryohypophysectomy in, 203
- Adenomatosis, pulmonary, and peripheral adenocarcinoma of lung, ultrastructural demonstration of common morphological features, 164
- Adenotomylectomy, effect on health of children, 225
- Adolescence, hypertension in, follow-up study, 191
- Adrenaline, urinary excretion, decrease of in bronchial asthma, 181
- Adriamycin, clinical evaluation, 171
- Affective disorders, blood concentration of thyrotrophic hormone in, 213
- , effect of lithium carbonate on electroencephalogram in, 216
- Air travel danger after pneumothorax, 224
- Alcoholism amnesia, phenomenological aspects, 215
- , chronic, as possible cause of duodenitis, 184
- , —, and chromosome abnormalities, 228
- Aldomet, *see* Methyldopa
- Alkaline battery workers, calcium-induced proteinuria, impaired renal function, and osteomalacia in, 235
- Allergy, 180-2
- Alveolitis, allergic, in maltworkers, clinical, mycological, and immunological study, 234
- Amiloride, pharmacodynamic effects, 170
- Amnesia, alcoholic, phenomenological aspects, 215
- Amniotic fluid inhalation causing neonatal respiratory distress, 220
- Amoebiasis, evaluation of indirect haemagglutination and amoeba-immobilization tests, 168
- , metridazole in, single and low dosage regimens, 179
- Amphotericin B in blastomycosis, 175
- Anaemia, aplastic, acquired, anabolic androgenic steroid therapy, 193
- , pernicious, hereditary factors, relation to serum immunoglobulin levels and age at diagnosis, 195
- , sickle cell, functional asplenia in, 193
- , with spur cells, 161
- Anaesthesia, dental, methohexitone and thiopentone supplementation, comparison of cardiorespiratory effects, 236
- , general, effect of diazepam on awareness during Caesarean section under, 236
- Anaesthetics, 236-7
- Angina pectoris, propranolol in, evaluation of long-term use, 188
- Angiography of supratentorial meningiomas, 238
- , renal, review of 1,750 cases, 240
- Anoxia, neonatal hepatic insufficiency due to, 221
- Antibiotics in acute salmonellosis, effect on faecal excretion of salmonellae, 174
- , resistant factors, recovery from a drug-free community, 167
- Antigens, hepatitis-associated, in chronic liver disease, 167
- Antinuclear factor, positive, in unexplained pulmonary fibrosis, 199
- Antistreptolysin O titres in mothers of mongoloid children, 228
- Antitrypsin deficiency in pulmonary disease, significance of intermediate levels, 199
- Anxiety, blood flow in forearm in, comparison with nonanxious patients, 214
- , effects of diazepam as measured by forearm blood flow, 214
- Aortography, abdominal, spasticity of lower extremities after, 240
- Arrhythmia, atrial flutter in infancy, 222
- , —, proximity electrodes in study of, 187
- Arteries, cerebral, changes with ageing, 162
- Arteriography, coronary, evaluation of contrast media in, 238
- Arteriosclerosis, peripheral, in rheumatoid arthritis, 206
- Arthritis, *see also* Osteoarthritis; Polyarthritis
- , rheumatoid, arteriosclerosis in extremities in, 206
- , —, ibuprofen in, 206
- , —, in Western Nigeria, 205
- , —, intravenous iron-dextran in, adverse effect, 206
- , —, iron absorption in, 193
- , —, muscle involvement in children with, 165
- , septic, complicating rheumatoid arthritis, 205
- Asbestos workers, mortality, 234
- , —, validation of death certificates in, 235
- Aspirin intolerance in asthma, clinical and immunological study, 181
- Asthma, aspirin intolerance in, clinical and immunological study, 181
- , bronchial, free fatty acid level in plasma and urinary adrenaline level in, 181
- , —, selective cardiac sympathetic blockade as adjunct to bronchodilator therapy, 169
- , corticotrophin in high-dosage short-term treatment, 182
- , exercise-induced, blood biochemical changes in, 198
- , in children, prevalence and natural history in Melbourne, 224
- , occupational, due to proteases in detergent industry, 234
- , seasonal and perennial, disodium cromoglycate inhalation in, 181, 182
- Atelectasis, postoperative, effect of dead-space rebreathing on, 237
- BCG vaccination in Hodgkin's disease, relation between response and survival, 195
- Betamethasone, intranasal, in allergic rhinitis, effect on adrenal function, 180
- Birth weight, school disposal and performance of children of different, 219
- Bitoscanate in hookworm infestation, clinical trial, 179
- Bladder function in normal and enuretic children, 225
- Blastomycosis, amphotericin B in, 175
- , North American, review of 10 years' treatment, 175
- , —, treatment, 175
- Blood circulation, *see* Circulation
- , coagulation, intravascular, and fulminant meningococcaemia, 173
- , flow in forearm in anxious and non-anxious patients, 214
- , —, measurement of effects of diazepam on anxiety, 214
- , —, ischaemic limbs, effect of rapid intermittent decompression on, 189
- , gases, cerebral venous and arterial, during Cheyne-Stokes respiration, 208
- , groups ABO, distribution in serum hepatitis, 173
- , platelet life span and sites of sequestration in onyalai, 192
- , transfusion, mini-, in drug-induced thrombocytopenia, 193
- , —, regimens, effect on growth in children with thalassaemia major, 223
- , —, siderosis and liver cirrhosis, 164
- Bone density, relation of water fluoridation to, 230
- , marrow aplasia, transplantation of allogeneic marrow in, 192
- , —, embolism, pulmonary, after external cardiac massage, 164
- , —, haemosiderin content in diagnosis of iron deficiency, 223
- Bronchiole, drug-induced relaxation, mechanism in guinea pig, 169
- Bronchitis, chronic, chemoprophylaxis, five-year study, 197
- , —, exacerbations, factors associated with, 196
- , wheezy, in children, prevalence and natural history in Melbourne, 224
- Buerger's disease, recent views on, 165
- Burns, minor, in children, early neurological disturbances after, 226
- Busulphan lung, 197
- Calculus, biliary, frequency in liver cirrhosis, 165
- , —, relation of total calorie content of diet and protein intake to formation, 186
- Carbamazepine in peripheral diabetic neuropathy, 212
- Carbohydrate ingestion after gastric surgery, insulin response to, 183
- Cardiovascular system, 187-91
- Catapres, *see* Clonidine
- Chemotherapy, 171
- Cheyne-Stokes respiration, cerebral venous and arterial blood gases during, 208
- Children, *see also* Infants
- , cor pulmonale in, as result of chronic nasopharyngeal obstruction due to hypertrophied tonsils and adenoids, 222
- , gastroenteritis in, intraperitoneal fluid infusion, 222
- , leukaemic, measurement of serum iron level in differential diagnosis, 223
- , of different birthweight, school disposal and performance, 219

SUBJECT INDEX

- Children, rheumatoid arthritic, muscle involvement in, 165
 —, wheezy bronchitis and asthma in, prevalence and natural history in Melbourne, 224

 — massage, external, pulmonary bone marrow embolism after, 164

SUBJECT INDEX

- Hepatitis after halothane exposure, 185
 —, associated antigens in chronic liver disease, 167
 —, serum, ABO blood group distribution in, 173
 Herpangina epidemic, 1967–68, 172
 Herpes-like virus infection, association with infectious mononucleosis, 172
 Histamine release from leucocytes in food allergy, test using whole food extract antigens, 180
 Hodgkin's disease, response to BCG vaccination and survival in, 195
 —, serum copper variations in, 161
 Hookworm infestation, bitoscanate in, clinical trial, 179
 Hospital treatment outcome, performance IQ as predictor of, 213
 Hydrallazine test in diagnosis of renovascular hypertension, 191
 Hyperlipidaemia in juvenile diabetes, control by standard and corn-oil diets, comparison, 204
 Hypertension, association with essential circulatory hyperkinesia, 190
 —, clonidine in, 191
 —, in adolescence, follow-up study, 191
 —, prevalence, incidence, and mortality after periodic health examination, 230
 —, renovascular, assessment of post-hydrallazine renin release in diagnosis, 191
 Hypogammaglobulinaemia, lymphopenic, transplantation of allogeneic marrow in, 192
 Hypoglycaemia, postprandial, after gastric surgery, 183
 —, symptomatic neonatal, diagnosis, 220
 Hypoparathyroidism, chronic surgical, epilepsy and electroencephalographic abnormalities in, 208
 Hypothalamus–pituitary–adrenal function tests, 202
 Hypothyroidism neuromyopathy, 211
- Ibuprofen in rheumatoid arthritis, 206
 Imferon, *see* Iron–dextran
 Imipramine, antidepressant activity, enhancement by thyroid hormone, 218
 Immunoglobulin deposition in kidneys, variable pattern in systemic lupus erythematosus, 166
 — in serum in kwashiorkor, 178
 Indomethacin in primary osteoarthritis of hips and knees, 205
 Industrial medicine, 234–5
 Infants, atrial flutter in, 222
 —, dyspnoeic, cough fracture of ribs in, 225
 —, jaundice associated with urinary tract infection in, 225
 —, newborn, erythrocyte surface alterations in reticuloendothelial immaturity of, 161
 —, hepatic insufficiency due to anoxia in, 221
 —, symptomatic hypoglycaemia in, diagnosis, 220
 —, premature, chronic respiratory distress in, 219
 —, prolonged positive pressure ventilation in, 224
 Infection, streptococcal type 49, of skin and of respiratory tract, attack rates of acute nephritis after, 174
 Infectious diseases, 172–5
 —, review, 173*
 Influenza B, UK 2054 for prophylaxis, 172
 — vaccine, inactivated, failure to protect aged population, 232
- Insect sting allergy, correlation of positive transfer with culprit insect and direct skin tests, 180
 Intal, *see* Disodium cromoglycate
 Intelligence quotient, performance, as predictor of hospital treatment outcome, 213
 Intestinal absorption, effect of cobalamin and folic acid deficiency on, 194
 Iron absorption in rheumatoid arthritis, 193
 — dextran, intravenous, in rheumatoid arthritis, adverse effects, 206
 — level in serum in differential diagnosis of leukaemia in children, 223
 — stores in health and disease, bone marrow studies in 1,134 Indian children, 223
- Jaundice, association with urinary tract infection in infancy, 225
 — during rifampicin treatment, 171
 Jejunum, massive resection, gastric secretion after, 183
- Kanamycin in penicillin-resistant gonorrhoea, 176
 Kidney, *see also* Nephritis
 — damage due to vitamin D therapy in vitamin D refractory rickets, 222
 — disease, creatinine clearance in, re-appraisal, 201
 — function impairment in alkaline battery workers, 235
 — in gout, 207
 — transplantation using cadaver and related living donors, comparison, 201
 Kwashiorkor, acute, effect of different sugars on diarrhoea of, 178
 —, serum immunoglobulin levels in, 178
- Leukaemia, acute, in children, serum iron estimation in differential diagnosis, 223
 —, adriamycin in, 171
 —, granulocytic, chronic, destructive bone lesions in, 195
 Lipid, *see* Hyperlipidaemia
 Lithium carbonate, effect on electroencephalogram in affective disorders, 216
 — in depression and mania, 217
 — in manic-depressive illness, effect on glucose tolerance, 217
 Liver, *see also* Hepatitis
 — cellular insufficiency in newborn due to anoxia, 221
 — cirrhosis, ascitic, phanurane treatment, 185
 —, gallstone frequency in, 165
 —, transfusional siderosis and, 164
 — disease, chronic, hepatitis-associated antigens in, 167
 — mitochondria, fine structural changes after prolonged use of oral contraceptives, 164
 — scintiscanning, significance of increased "splenic uptake" in, 185
 Lowe's syndrome, search for carrier state, 227
 LSD-25, *see* Lysergide
 Lung adenomatosis and peripheral adenocarcinoma of lung, ultrastructural demonstration of common morphological features, 164
 — carcinoma, mediastinoscopic diagnosis, clinical evaluation, 200
- Lung carcinoma, radiological abnormalities related to histological cell type, 239
 — disease after inhalation of vineyard sprays, 235
 —, antitrypsin deficiency in, significance of intermediate levels, 199
 — fibrosis, unexplained, positive anti-nuclear factors in, 199
 — lesions with busulphan treatment, 197
 — scanning in emphysema, 198
 Lupus erythematosus, systemic, endothelial inclusions in active lesions, 165
 —, variable patterns of immunoglobulin and complement deposition in kidneys in, 155
 Lymphogranuloma venereum, isolation of causative agent, 176
 Lymphoma, malignant, adriamycin in, 171
 Lysergide users, chromosome patterns in, 228
- Malformation, congenital, association with third fontanelle, 219
 Maltworkers, allergic alveolitis in, clinical, mycological, and immunological study, 234
 Measles virus, altered reactivity to, 231
 Mediastinoscopy, clinical evaluation, 200
 — in diagnosis of intrathoracic sarcoidosis, 200
 Melanoma, malignant, tumour-specific antibodies in, relationship to extent of the disease, 166
 Meningioma, intracranial, diagnostic value of plain skull films, retrospective study, 238
 —, supratentorial, angiography of, 238
 Meningococcaemia, fulminant, and disseminated intravascular coagulation, 173
 Meningococcus carriers, rifampicin in, 173
 Methohexitone and thiopentone supplementation in dental surgery, cardio-respiratory effects, 236
 Methylolpa in Raynaud's phenomenon, 189
 Metridazole in amoebiasis, effect of single and low dosage regimens, 179
 Microbiology, 167–8
 Migraine, monoamine oxidase inhibition in, 208
 Mongolism, antistreptolysin O titres in mothers of children with, 228
 —, transmission through maternal mosaicism, 229
 Monoamine oxidase inhibition in migraine treatment, 208
 Mononucleosis, infectious, herpes-like virus infection associated with, 172
 Morphine dependence, prolonged physiological changes in, 215
 Mosaicism, maternal, transmission of mongolism through, 229
 Mumps vaccine, live attenuated, evaluation and optimal time for testing serological response, 232
 Muscle involvement in juvenile rheumatoid arthritis, 165
 — relaxant, pancuronium, comparison with D-tubocurarine, 237
 Mycobacteria, aerial transmission of, 167
Mycobacterium tuberculosis, survival in aerosols, influence of isoniazid on, 168
Mycoplasma pneumoniae as determinant of Guillain-Barré syndrome, 226
 Myocardium metabolism, effect of glucagon on, 169
 Myclonus, palatal, and rhythmic ocular movements, polygraphic study, 208

SUBJECT INDEX

- Nephritis, acute, attack rates after type-49 streptococcal infection of skin and of respiratory tract, 174
- Nerves, peripheral, clinical aspects of lesions, 212
- , trigeminal, acute painless sensory loss in, 211
- Neurology and neurosurgery, 208–12
- Neuromyopathy of hypothyroidism, 211
- Neurone, intrinsic cardiac, damaged by daunorubicin, 163
- Neuropathy, diabetic peripheral, carbamazepine in symptomatic treatment, 212
- , trigeminal sensory, 211
- Nitrous oxide, effect on circulatory and ventilatory responses to halothane, 236
- Old age, *see* Senescence
- Onyala, platelet life-span and sites of sequestration in, 192
- Osteoarthritis, primary, of hips and knees, indomethacin and acetylsalicylic acid in, comparison, 205
- Osteolysis in chronic granulocytic leukaemia, 195
- Osteoporosis in alkaline battery workers, 235
- Oxygen, *see also* Anoxia
- affinity of blood, decrease in low-output heart failure, 189
- , high concentrations, effect on cognitive functioning in the aged, 215
- Oxyquinolone compound, *see* UH 2054
- Pacemaking, cardiac, long-term pervenous atrial, 187
- Paediatrics, 219–26. For details *see* Children; Infants
- Pancreas tissue, aberrant, in gastrointestinal tract, radiological diagnosis, 240
- Pancreatitis, chronic, correlation of previous radioisotope scanning with pathological findings, 240
- Pancuronium as muscle relaxant, clinical comparison with D-tubocurarine, 237
- Parasitology, 167–8
- Parathyroid, *see* Hypoparathyroidism
- Parkinsonism, L-dopa in, 210
- , glabellar reflex in, reversal by L-dopa, 210
- , negative symptoms, L-dopa and, 209
- Pathology, 161–6
- Phanurane in ascitic liver cirrhosis, 185
- Pharmacology, 169
- Phenetidine in epilepsy, comparison with diazepam, 209
- Phenylene-diisothiocyanate 1,4, *see* Bitoscanate
- Pick's disease, familial form, 214
- Pigeon breeders' disease, qualitative differences in immune responses in, 166
- Pituitary, cryoablation in acromegaly, 203
- lesions in craniocerebral injuries, 162
- Platelet, *see* Blood
- Pneumoencephalography, "empty sella syndrome" in, endocrine studies, 202
- Pneumonia in adults, relation between aetiology and certain clinical and radiological findings, 197
- Pneumothorax, air travel dangers after, 224
- in cystic fibrosis, 224
- Polyarthritis, acute tropical, 177
- Polypoid, *see* Pseudopolypoid
- Potassium iodide, intermittent, in chronic obstructive airways disease, 199
- Propranolol in angina pectoris, evaluation of long-term use, 188
- Proteinuria, calcium-induced in alkaline battery workers, 235
- Pseudopolypoid in ulcerative colitis, 186
- Psychiatry, 213–8
- Public health, 230–3
- Radiology, 238–40
- Raynaud's phenomenon, methyl dopa in, 189
- , rapid intermittent decompression in, 189
- Renin release, post-hydrallazine, assessment in diagnosis of renovascular hypertension, 191
- Respiration, dead-space rebreathing, effect on postoperative atelectasis, 237
- , prolonged positive pressure, effects in infancy, 224
- Respiratory disease, chronic obstructive, long-term effect of treatment, 199
- , —, —, potassium iodide for intermittent therapy, 199
- distress, chronic, in premature infants, 219
- , neonatal, due to massive inhalation of amniotic fluid, 220
- system, 196–200
- Reticuloendothelial immaturity of the newborn infant, erythrocyte surface alterations in, 161
- Rheumatic diseases, 205–7
- Rhinitis, allergic, intranasal betamethasone-17-valerate in, effect on adrenal function, 180
- Rickets, vitamin D resistant, nephrotoxic effect of vitamin D therapy, 222
- Rifampicin treatment, jaundice during, 171
- of meningococcal carriers, 173
- Rubella neutralizing antibodies in children of different ages, 230
- vaccine, Cendehill strain, in family and school setting, 231
- Rubidomycin, *see* Daunorubicin
- Salmonellosis, acute, effect of antibiotic treatment on faecal excretion of salmonellae, 174
- Sarcoidosis, intrathoracic, mediastinoscopic diagnosis, 200
- Schizophrenia, adult, behavioural antecedents, 218*
- , blood concentration of thyrotrophic hormone in, 213
- , thought disorder in, and in parents and siblings, 218
- , twin study in Denmark, 229
- Sclerosis, multiple, endocrine function in, 211
- , —, epidemiological, clinical, and aetiological aspects, 211*
- Scopolamine with secobarbitone and with fentanyl, respiratory pharmacology of, 236
- Secobarbitone and scopolamine, respiratory pharmacology, 236
- Senescence, atrial septal defects in, surgical repair, 187
- , changes in cerebral arteries with, 162
- , cognitive functioning in, effect of high concentrations of oxygen on, 215
- , inactivated influenza vaccine in, failure, 232
- Sensory loss, acute painless, in divisions of trigeminal nerve, 211
- Siderosis, transfusional, and liver cirrhosis, 164
- Somatotrophin, *see* Growth hormone
- Spleen, nonfunctioning, in sickle cell anaemia, 193
- Splenomegaly, tropical, in Uganda, immunological study, 177
- Steroids, anabolic androgenic, in acquired aplastic anaemia, 193
- Tegretol, *see* Carbamazepine
- Thalassaemia major in children, effect of transfusion regimens on growth, 223
- Therapeutics, 169
- Thrombocytopenia, drug-induced, mini-exchange and transfusion therapy in, 193
- Thrombosis, postoperative deep vein, effect of dipyridamole on incidence, 190
- Thyroid, *see also* Hypothyroidism
- carcinoma, other malignant neoplasms associated with, 163
- follicles, microscopically benign, in cervical lymph nodes, serial section study, 163
- hormone enhancement of antidepressant activity of imipramine, 218
- Thyrotrophic hormone concentration in blood in schizophrenia and affective states, 213
- Tonsils, *see also* Adenotonsillectomy
- and adenoids, hypertrophied, cor pulmonale as result of chronic nasopharyngeal obstruction due to, 222
- Toxoplasmosis in an urban community, 233
- Tropical medicine, 177–9

SUBJECT INDEX

An asterisk denotes title and reference only

- Absenteeism, school, due to asthma, effect of orciprenaline on, 312
- Adrenal function during topical oral corticosteroid treatment, 261
- response to excess corticotrophin in coronary-prone men, 282
- Adrenaline injection during methoxyflurane anaesthesia, 321
- β -Adrenergic receptor blocking drugs, clinical pharmacology, 263*
- Affective disorders, association with premature deaths from physical disease, 306
- Alcoholism, chronic, frequencies of secretors and nonsecretors of ABO blood group substances in, 305
- Aldosteronism, primary, changes in salivary electrolytes after treatment, 294
- Allergy, 273-4
- to wood dust, 274
- Alveolitis, idiopathic diffuse fibrosing, pathological study, 258
- Amantadine prophylaxis of influenza A2 in family environment, 267
- Amphetamine in nocturnal enuresis, 314
- Amphotericin B, pharmacological guide to clinical use, 265
- Ampicillin and probenidic combined in a single oral dose in gonorrhoea, 271
- Anaemia, haemolytic hereditary, erythrocyte production during puberty in, 288
- Anaesthetics, 321
- Analgesia, caudal, in labour, incidence of methaemoglobinemia with lignocaine and prilocaine in, 321
- , spinal and epidural, blood gas changes during, 321
- Aneurysm of membranous ventricular septum, method of spontaneous closure of small ventricular septal defect, 281
- Angina pectoris induced by atrial pacing, left heart haemodynamics during, 283
- Antibody production in immunosuppressed recipients of renal allografts, 259
- Antidepressant drugs, tricyclic, antagonism towards hypotensive drugs, 263
- Antiemetic drugs, oral, clinical studies, 262
- Anxiety, doxepin in, 304
- Aorta coarctation, abdominal, in children, 312*
- , plasma renin activity in hypertension due to, 287
- stenosis, subvalvular, radiological findings and haemodynamics, 323
- Aptin, see H 56/28
- Arrhythmia, asymptomatic, in middle-aged men, frequency, 282
- , phenytoin in, 282
- Arteries, coronary, see Coronary
- , innominate, compression of trachea in children, 313
- , leptomeningeal, changes in neighbourhood of cerebral cortical infarct, 257
- Arteriography, bronchial and intercostal, in non-neoplastic pulmonary disease, 323
- Arteritis, giant-cell, electron microscopic study, 257
- Arthritis, rheumatoid, diphtheroid isolation from synovial membranes in, 260
- , —, ibuprofen in, comparison with aspirin and placebo, 299
- Arthritis, rheumatoid, intermittent corticotrophin in, *in vitro* study of lymphocyte transformation, 299
- , —, intracellular and kinin enzyme activity in synovial fluid in, 256
- Ascariasis in children, levamisole in, 268
- Aspergillosis, pleural, aetiological, anatomical, clinical, and therapeutic aspects, 289
- Asthma, bronchial, chronic, corticosteroid crystal suspensions in, 273
- , —, disodium cromoglycate in, 273, 274
- , —, isoprenaline in, practolol for protection against cardiac side-effects, 263
- , chronic, and emphysema, differential diagnosis, comparison of investigative methods, 290
- , Depot-Synacthen in, 273
- , infection-related, phagocytosis of bacteria by eosinophils in, 273
- , orciprenaline in, effect on school absenteeism, 312
- Bacillus anthracis* spores, survival after 67 years, 260
- Bethanidine, hypotensive action, antagonism by tricyclic antidepressants, 263
- Birth weight-gestation distribution in stillbirth and neonatal death, comparison, 308
- Blood, see also Erythrocyte; Leucocyte
- changes and mortality, 10-year follow-up study, 317
- coagulation in hyperacute and other forms of renal allograft rejection, 292
- donors, infective, detection by hepatitis antigen, 260
- flow, pulmonary, uneven distribution between left and right lungs in isolated valvular pulmonary stenosis, 324
- gas changes during spinal and epidural analgesia, 321
- group substances, ABO, frequency of secretors and nonsecretors in chronic alcoholics, 305
- platelet adhesiveness, effect of dietary sucrose on, 275
- defect, intrinsic, in hereditary thrombocytopenia, 288
- pressure, see also Hypertension
- , arterial, influence of hypothyroidism on, 293
- transfusion, exchange, in hepatic coma in viral hepatitis, 267
- induced falciparum malaria, unusual host-parasite relationship in the donor, 272
- Body weight, effect of dietary sucrose on, 275
- gain and calorie intake in infants with growth failure due to various causes, correlation, 311
- traction in discogenic sciatica, assessment, 301
- Brain, cortical infarct, changes in leptomeningeal arteries and veins in neighbourhood of, 257
- tumours, lactate dehydrogenase and glutamic oxaloacetic transaminase content of cerebrospinal fluid in, 256
- Breast carcinoma, soft-tissue sarcomas and other neoplasms, familial syndrome, 316
- Bronchiolitis, acute viral, sympathomimetic drugs in, effect on pulmonary resistance, 312
- Bronchitis aetiology, environmental factors, 317
- , chronic, sulphametypyrazine prophylaxis of exacerbations, 290
- Calcitonin, review, 294*
- Calorie intake and weight gain in infants with growth failure due to various causes, correlation, 311
- Carbenicillin in renal failure, 266
- Carbohydrate intolerance in gout, 300
- Carcinoid syndrome, malignant, melphalan in, 266

- Haloperidol for emotionally disturbed children, 305
- Heart, *see also* Coronary; Myocardial infarction
- arrest, long-term prognosis after resuscitation, 280
 - block, ventricular and sequential A-V pacing, comparison of haemodynamic effects, 282
 - conduction in middle-aged men, frequency of asymptomatic disturbances, 282
 - defect, atrial septal, large, normal chest radiograph in, 324
 - , ventricular septal, spontaneous closure with aneurysm, 281
 - disease, ischaemic, high dietary intake of sucrose as aetiological factor, 275
 - failure, congestive, folic acid deficiency in, 286
 - infarction, plasma catecholamine levels after, 284
 - mitral valve replacement, review of 7 years' experience, 281
 - surgery, open, myocardial lesions after, 257
 - transplantation, heart rate after, 281
 - transplanted, haemodynamic performance, 281
 - , valvular pulmonary stenosis, uneven distribution of pulmonary blood flow between left and right lungs in, 324
- Heminevrin, *see* Chlormethiazole
- Hepatitis antigen in detection of infectious blood donors, 260
- , chronic, active, paradoxical elevation of growth hormone in, 277
 - , infective, exchange transfusion for hepatic coma in, 267
- Herpes zoster, cervical, causing diaphragmatic paralysis, 301
- Hirschsprung's disease diagnosis, simplified method, 311
- Hospital linen chutes, bacterial contamination on surface, 318
- Hyperlipoproteinaemia, primary, xanthoma in, 307
- Hypernatraemia, review, 275*
- Hypertension, *see also* Hypotensive
- associated with tumours adjacent to renal arteries, 287
 - due to aortic coarctation, plasma renin activity in, 287
 - , induced, treatment of acute ischaemic pain in leg due to, 280
 - , peripheral and renal venous plasma renin activity in, 286

SUBJECT INDEX

- Hypertension, renal blood flow in, 286
Hyperuricaemia in cerebrovascular disease, 302
Hypnotics, clinical effects, controlled trial and epidemiological study, 262
Hypoglycaemia of newborn infants of diabetic mothers not due to foetal hyperinsulinism, 308
Hyponatraemia in pituitary insufficiency, 293
Hypotensive drugs, antagonism by tricyclic antidepressants, 263
Hypothyroidism, influence on arterial blood pressure, 293
- Ibuprofen in rheumatoid arthritis, comparison with aspirin and placebo, 299
Icterus, *see* Jaundice
Imipramine in nocturnal enuresis, 314
— school phobia, 305
Immunoglobulins in syphilis, 270
Immunosuppression in kidney transplantation, effect on antibody production, 259
— severe myasthenia gravis, 301
Infantal, *see* Propranolol
Infant mortality, perinatal, comparison of birth weight-gestation distribution in, 308
—, newborn, cytomegalovirus infections in, 309
—, necrotizing enterocolitis in, 310
—, of diabetic mothers, hypoglycaemia not due to fetal hyperinsulinism, 308
—, urinary tract infection in, incidence, 309
—, premature, folate status, 308
—, renal medullary necrosis in, 258
Infection, *see* Cross infection
Infectious diseases, 267-8
Influenza A2 prophylaxis with amantidine in family environment, 267
— vaccine, aqueous, simple emulsion and multiple emulsion, antibody response and reactions to, 319
— prepared from ethyl ether extracted virus antigens, 318
Insulin dose, relation of gastric secretory response to, 277
—, injected, disappearance rate from plasma in juvenile diabetics, mature-onset diabetics, and normal subjects, 295
— level in plasma in 200 diabetics, 296
— — serum, effect of dietary sucrose on, 275
— reserve in chemical and early overt diabetes mellitus in children, effect of glucagon and intravenous tolbutamide on, 297
— sensitivity and vascular disease in maturity-onset diabetes, 296
— tolerance test in depression, 306
Intensive care unit, cross infection control in, 318
Irritable bowel syndrome, prognosis, 279
Isobutylphenylpropionic acid, *see* Ibuprofen
Isoniazid inactivation rate, inherited differences, relation to results of treatment of pulmonary tuberculosis, 269
Isoprenaline in asthma, practolol for protection against cardiac side-effects, 263
- Jaundice, neonatal, urinary potassium excretion in, 309
- Kidney failure, carbenicillin in, 266
—, medullary necrosis, in infants and children, 258
— transplant rejection, allograft, coagulation studies in, 292
— transplantation, leucocyte migration changes after, 259
— with immunosuppressive regimen, effect on antibody production, 259
- Leprosy, lepromatous, streptomycin with sulphones in relapsed cases, 272*
Leucocyte migration changes after renal transplantation, 259
Leukaemia remission, combination therapy in, 288
Levamisole in ascariasis in children, 268
Lignocaine in caudal analgesia, methaemoglobinaemia following, 321
Lipid content of blood, effect of dietary sucrose on, 275
Lipoprotein, *see* Hyperlipoproteinaemia
Liver, *see also* Hepatitis
— cirrhosis, association of syphilis with, 277
— disease, glucose metabolism in, 298
Lung biopsy by trephine, 289
— carcinoma aetiology, environmental factors, 317
—, alveolar-cell, 290
— disease, non-neoplastic, bronchial and intercostal arteriography in, 323
— function in corticosteroid-treated pulmonary tuberculosis, 269
—, ventilatory control and respiratory complications in quadriplegia, 289
— puncture, diagnostic, in pneumonias of infants and children, 313
—, percutaneous, in children, in study of aetiology of acute lower respiratory tract infections, 313
Lupus erythematosus, systemic, serum DNA-binding activity in, 300
Lymphocyte transformation *in vitro* in rheumatoid arthritis, effect of intermittent corticotrophin treatment on, 299
- Malaria, drug resistance in, 272*
—, falciparum, transfusion-induced, unusual host-parasite relationship in the blood donor, 272
Melphalan in malignant carcinoid syndrome, 266
Meningitis, acute bacterial, dexamethasone in, effect of study design on interpretation of results, 314
Meningoencephalitis, primary amoebic, 302
Metabolism, 275
Methaemoglobinaemia and infant response to lignocaine and prilocaline in caudal analgesia, 321
Methotrexate, intermittent administration, pulmonary complications, 266
Methoxyflurane anaesthesia, adrenaline injection during, 321
Microbiology, 260
Microtubule, isolation from haemolytic-uraemic syndrome, thrombotic thrombocytopenic purpura, and mites, 260
Mitral, *see* Heart
Mongolism, age-independent, parental dermatoglyphics in, 315
—, chromosome analysis in Japanese cases, 315
Mortality, *see* Death; Infant
Muscle percussion in clinical evaluation of neuromuscular disorders, 301
Myalgia, *see* Polymyalgia
- Myasthenia gravis, severe, immunosuppression in, 301
Myeloscintigraphy in spinal cord lesions, 322
Myocardial infarction, acute, hyperbaric oxygen in, 285
—, —, prodromal symptoms, 284
—, —, propranolol and H 56/28 in, comparison, 264
—, prognosis after early discharge from hospital, 285
—, urinary catecholamine excretion in, 284
— lesions after open heart surgery, 257
— revascularization, direct, with saphenous vein autograft, 100 cases, 285
—, review, 286*
- Narcolepsy, measurement of degree of wakefulness by pupillogram, 303
Neostigmine test in clinical evaluation of neuromuscular disorders, 301
Neurology and neurosurgery, 301-3
Neuromuscular disorders, muscle percussion and neostigmine test in clinical evaluation, 301
Neutropenia associated with haemodialysis, aetiology, 292
Nutrition, 275
— in the aged, review, 275*
- Obesity, surgical treatment by jejunoileal anastomosis, 275
Oedema, pulmonary, of high altitude, clinical, aerodynamic, and biochemical studies, 280
Oesophagitis, regional, simulating Crohn's disease, 276
Opiates, synthetic, in premedication, toxic and sedative properties, 321
Orciprenaline in asthma, effect on school absenteeism, 312
Oxygen, hyperbaric, in severe acute myocardial infarction, 285
- Pace making, ventricular and sequential A-V in heart block, comparison of haemodynamic effects, 282
Paediatrics, 308-14. For details *see* Children; Infants
Pain, acute ischaemic, in leg due to induced hypertension, treatment, 280
Pancreas secretion, exocrine, in normal subjects studied by continuous infusion of pancreozymin and secretin, 278
Pancreatitis, angiographic findings, 324
Paralysis, diaphragmatic, due to cervical herpes zoster, 301
Parasitology, 260
Parkinsonism, idiopathic, L-dopa in, 303
Pathology, 256-9
Penicillin activity, enhancement by chymotrypsin, 265
Pepsin, gastric secretion, stimulation by secretin, 276
Phagocytosis of bacteria by eosinophils in infectious-related asthma, 273
— promoting factor, C-reactive protein, 256
Pharmacology, 261-4
Phenytoin in arrhythmia, 282
Phobia, *see* School
Pinworm, *see* Enterobiasis
Pituitary insufficiency, hyponatraemia in, 293
Pleura, biopsy by trephine, 289

SUBJECT INDEX

- Pneumonia, allergic, secondary to methotrexate treatment, 266
 —, desquamative interstitial, and idiopathic diffuse pulmonary fibrosis, pathological study, 258
 — in infants and children, diagnostic lung puncture for, 313
 Polymyalgia rheumatica, prospective study, 300
 Postgastrectomy syndrome in peptic ulcer patients, motor-function of gallbladder in, 278
 Potassium excretion, urinary, in newborn infants with and without icterus neonatorum, 309
 Practolol prophylaxis of cardiac effects of isoprenaline in asthma, 263
 Prednisone in "idiopathic" obstructive airways disease, comparison with effects in "allergic" bronchitis, 291
 Pregnancy duration-birth weight distribution in stillbirth and neonatal death, comparison, 308
 Premedication with synthetic opiates, sedative and toxic properties, 321
 Prilocaine in caudal analgesia, methaemoglobinemia following, 321
 Propranolol and H 56/28 in acute myocardial infarction, comparison, 264
 Protein binding of urate in plasma, effect of drugs on, 261
 —, C-reactive, a phagocytosis-promoting factor, 256
Psychiatry, 304-6
 Psychoneurosis, genetic factor in pathogenesis studied in twins, 315
 Puberty, role in erythrocyte production in hereditary haemolytic anaemia, 288
Public health, 317-20
 Pupillogram in measurement of level of wakefulness in narcolepsy, 303
 Quadriplegia, lung function, ventilatory control, and respiratory complications in, 289
Radiology, 322-4
 Renin activity in peripheral and renal venous plasma in hypertension, 286
 — — — plasma in hypertension due to coarctation of aorta, 287
Respiratory system, 289-91
 — tract, lower, infections studied by percutaneous lung puncture in children, 313
 Resuscitation, after cardiac arrest, long-term prognosis, 280
 Retinopathy, diabetic, cottonwool spots in, 297
Rheumatic diseases, 299-300
 — fever, acute, in adults, epidemiological and preventive factors, 320
 Rheumatoid, *see also* Arthritis
 — factor activity, development in primary and secondary syphilis, 270
 Rubella, congenital, dermatoglyphic patterns in children with, 310
 Salivary electrolytes, changes after treatment of primary aldosteronism, 294
 Sarcoma, soft-tissue, breast carcinoma and other neoplasms, familial syndrome, 316
 Schizophrenia, genetic factor in pathogenesis studied in twins, 315
 School phobia, imipramine in, 305
 Sciatica, discogenic, assessment of body weight traction in, 301
 Secretin, effect on basal gastric acid secretion in man, 276
 — infusion, continuous, in study of pancreatic exocrine secretion in normal subjects, 278
 — stimulation of gastric secretion of pepsin, 276
 Shunt, *see* Circulation
 Sicking disorder due to interaction of genes for haemoglobin S and α -thalassaemia, 315
 Sinequan, *see* Doxepin
 Smallpox prophylaxis with methisazone, 266*
 — vaccination complications, 319
 Sodium, *see* Hypernatraemia
 Spinal cord lesions, myeloscintigraphy in, 322
 — fluid, creatine kinase activity in neurological disease, 256
 Status epilepticus in infants and young children, parenteral diazepam treatment, 314
 Stroke, acute, dextran 40 injection in, 302
 Sucrose, dietary, effect on peripheral vascular disease, 275
 — — —, in aetiology of ischaemic heart disease, 275
 Sulphametopyrazine prophylaxis of exacerbations of chronic bronchitis, 290
 Sympathomimetic drugs in acute viral bronchiolitis, effect on pulmonary resistance, 312
 Syndactyly, chromosome abnormalities in, 316
 Synovial fluid, intracellular and kinin enzymes in joint disease, origin and relation to disease category, 256
 — membrane in rheumatoid arthritis, isolation of diphtheroids from, 260
 Syphilis, association with hepatic cirrhosis, 277
 —, immunoglobulins in, 270
 —, late untreated, persistence of particular forms of *Treponema pallidum* in, 270
 —, problems in (review article), 241
 —, rheumatoid factor activity and cryoglobulin development in, 270
 Tattooing, psychiatric determinants, 304
 Tetanus, serological and antimicrobial therapy, evaluation, 267
Therapeutics, 261-4
 Thiocarbide in pulmonary tuberculosis, 269
 Thrombocytopenia, hereditary, with an intrinsic platelet defect, 288
 Thyroid tumours, malignant and benign, differentiation by complementary scanning, 323
 Thyrotoxicosis, effects of oral and intravenous glucose loading on, 293
 Tolbutamide, intravenous, effect on insulin reserve in chemical and early overt diabetes mellitus in children, 297
 — — —, in diabetes mellitus, effect of blood glucose level on response, 295
 Trachea, compression by innominate artery in children, 313
Tropical medicine, 272
Tuberculosis, 269
 —, pulmonary, corticosteroid treatment, effect on lung function, 269
 — — —, isoniazid in, relation of inherited differences in inactivation rate to results of treatment, 269
 — — —, thiocarbide in, 269
 Twins in genetic study of schizophrenia and psychoneurosis, 315
 Urate binding to plasma proteins, effect of drugs on, 261
 Uric acid, *see* Hyperuricaemia
 Urinary tract infection, neonatal, incidence, 309
Urogenital system, 292
 Vacuum extraction, massive subaponeurotic haemorrhage in infants born by, 308
 Vagotomy, incidence of gallbladder disease after, 278
 Vascular disease and insulin sensitivity in maturity-onset diabetes, 296
 — — —, peripheral, effect of dietary sucrose on, 275
 Veins, leptomeningeal, changes in neighbourhood of cerebral cortical infarct, 257
 —, saphenous, autograft, in direct myocardial revascularization, 100 cases, 285
Veneral diseases, 270-1
 Vibriocidal antibody in clinical cholera, 272
 Vitamin C intake and gastrointestinal bleeding, 277
 Vomiting, *see* Antiemetic
 Wakefulness in narcolepsy, measurement of level by pupillogram, 303
 Water loss, transepidermal, in dermatitis, 307
 Weight, *see* Birth weight; Body weight
 Wood dust hypersensitivity, 274
 Xanthoma in primary hyperlipoproteinemia, 307

SUBJECT INDEX

An asterisk denotes title and reference only

- Abscess, spinal epidural, 392
 Acidosis, lactic, in diabetes, 387
 —, renal tubular, after calcium cyclamate ingestion, 406
 Acne vulgaris, effect of ingestion of chocolate on, 398
 Acromegaly, untreated, relation of serum level of growth hormone to size of pituitary tumour in, 382
 Adrenaline infusion in childhood asthma, metabolic, circulatory, and bronchomotor responses, 360
 Alcohol, acute haemodynamic effects on normal subjects, 345
 — prophylaxis of hyperbilirubinaemia in the newborn, 399
 Alcoholism, chronic, lysergide in, 397
 Allergy, 359–60
 —, circadian variations in skin reactivity to certain allergens, 359
 Alprenolol in hypertension, 375, 376
 Amitriptyline overdose, deductions concerning cerebral action, 350
 Ammonia tolerance test in liver cirrhosis, 363
 Ampicillin, drug rash following administration, 351
 — in chronic bronchitis exacerbations, 379
 — granuloma inguinale, 357
 — sensitivity of Gram-negative bacilli after six years' clinical use, 343
 Anaemia, sickle cell, irreversibly sickled cell as determinant of haemolysis in, 338
 Anaesthetics, 407
 Analgesics, local, effects of intravenous injection on respiration during partial neuromuscular block, 407
 Angina pectoris, propranolol in, mechanism of action, comparison with dexpropranolol and practolol, 347
 Angiography in pancreatic carcinoma, 408
 Antilymphocyte globulin, use after cadaveric renal transplantation, 380
 Antidepressant drugs, iatrogenic epilepsy due to, 396
 —, tricyclic, overdose and deductions concerning cerebral action, 350
 α_1 -Antitrypsin deficiency gene heterozygosity, obstructive lung disease and, 404
 Aorta, *see also* Subaortic
 — stenosis, valvular and functional hypertrophic subaortic, coexistence of, clinical, physiological, and angiographic aspects, 366
 — valve homograft replacement, long-term follow-up, 366
 Aptin, *see* Alprenolol
 Arrhythmia, D-propranolol in, 366
 — in acute myocardial infarction, procainamide prophylaxis, 373
 —, ventricular fibrillation, complicating acute myocardial infarction, long-term survival after, 374
 Arteries, branch pulmonary, congenital stenosis, 367
 —, coronary, *see* Coronary
 —, great, transposition, balloon septostomy for, 368
 —, pulmonary, acquired atresia after anastomosis for cyanotic congenital heart disease, 368
 Arteritis in rheumatoid arthritis, 389
 Arthritis, *see also* Still's disease
 —, rheumatoid, arteritis and myocardial infarction complicating, 389
 —, diphtheroid bacilli isolated from synovial membrane and fluid in, 344
 —, fenclozic acid in, 390
 —, juvenile, synovectomy in, 391
 —, penicillin allergy in, with reference to Sjögren's syndrome, 389
 —, pericarditis of, 388
 —, relation of activity to fibrinolytic activity of blood, 388
 —, seronegative nodular, hidden rheumatoid factor in, 388
 Ascariasis, bitoscanate in, clinical evaluation, 358
 Aspirin, effect on bleeding time in intrinsic coagulation disorders, 378
 — hypersensitivity, clinical and immunological studies, 359
 Asthma, *see also* Status asthmaticus
 — in children, adrenaline infusion, metabolic, circulatory, and bronchomotor responses, 360
 —, plasma cortisol monitoring and corticotrophin therapy in, 360
 Ataxia-telangiectasia with gastric adenocarcinoma, 404
 Atherosclerosis in diabetes mellitus, 387
 —, relation between plasma cholesteryl polyunsaturated fatty acids, age and, 361
 Automobile, *see* Car
 Bacilli, Gram-negative, sensitivity to ampicillin after six years' clinical use, 343
 Bacteriuria in noninfectious renal disease, 381
 —, staphylococcal, coagulase-negative, significance, 381
 BC-105 prophylaxis in cluster headache, 395
 — — — migraine, 394
 Bedsore control with multi-purpose mattress, 398
 Biguanides, mode of action, 387
 Bile duct atresia, congenital extrahepatic, in two brothers, 404
 Bilirubin, *see* Hyperbilirubinaemia
 Bisolvon, *see* Bromhexine
 Bitoscanate in ascariasis, 358
 Blood, *see also* Haemoglobin; Leucocyte
 — air barrier in desquamative interstitial pneumonia, 340
 — bank storage, effect on leucocyte function, 338
 — coagulation disorders, effect of aspirin on bleeding time in, 378
 — gas in abnormal haemoglobin syndromes, 338
 — pressure, right ventricular, in myocardial infarction, 373
 — sugar level, circadian variations in normal subjects, 386
 — volume, *see* Hypovolaemia
 Brain damage, perinatal telencephalic, 339
 — ischaemia, transient attacks in a community, 394
 Bromhexine, effect on ventilatory capacity in chest diseases, 349
 Bronchitis, chronic, association with elevated hepatic water-soluble protein-bound cadmium levels, 379
 —, exacerbaton, trimethoprim-sulphamethoxazole and ampicillin in, comparison, 379
 —, in coal miners, ante- and post-mortem comparisons, 339
 Bronchopneumonia, terminal, bacteriological and histological study, 343
 Bupivacaine, maternal and neonatal blood concentrations, 407
 Byssinosis in carding and spinning workers, prevalence in cotton textile industry, 405
 Cadmium, water-soluble protein-bound, elevated levels in liver associated with chronic bronchitis and emphysema, 379
 Calcification, pancreatic, report of 45 cases, 365
 Calcium, *see also* Hypercalcaemia
 — cyclamate ingestion, photosensitive dermatitis and renal tubular acidosis after, 406
 — infusion, effect on myasthenia gravis, 393
 — metabolism after renal transplantation, 385
 Cannula, silastic teflon, arteriovenous, angiographic studies of function of, 380
 Capreomycin and ethambutol in atypical pulmonary tuberculosis, 354
 Car driving, effect on catecholamine and adrenocortical excretion, 370
 Carbohydrate metabolism, effect of clopamide on, 345
 Cardiac, *see* Heart
 Cardiomyopathy, primary congestive, occlusive disease of coronary arteries presenting as, 371
 Cardiovascular system, 366–76
 Catecholamine excretion, effect of car driving on, 370
 — metabolism in manic-depressive disorders, 397
 Cerebral, *see* Brain
 Chapping, *see* Skin
 Chemotherapy, 351
 Children, *see also* Infants
 —, herniation of lumbar intervertebral disc in, 401
 —, posttraumatic disorders in, 394
 Chloramphenicol acid succinate in induced typhoid and Rocky Mountain spotted fever, evaluation, 351
 Chlordiazepoxide, physiological, clinical, and psychological evaluation, 350
 Chlorpromazine in shock, haemodynamic response, 346
 Chocolate, effect of ingestion on acne vulgaris, 398
 Cholesterol metabolism in cholestyramine-treated hypercholesterolaemia, 362
 Chondroitin sulphate A, effect of administration on ischaemic heart disease, 370
 Choreoathetosis, benign, recessively inherited, of early onset, 403
 Chromosomes of leucocytes, effect of lysergide on, 403

SUBJECT INDEX

- Circadian reactivity rhythm of skin to house dust, penicillin, and histamine, 359
- variations of blood sugar levels, 386
 - , spontaneous, in blood insulin level in normal subjects, 385
- Circulation, pulmonary, haemodynamics of at long intervals after pneumonectomy, 367
- Cirrhosis, *see* Liver
- Clopamide, effect on carbohydrate metabolism, 345
- Colitis, ulcerative, mortality in Chicago, 1930-66, 365
- Collagen turnover measurement as thyroid function test, 383
- Complement immunofluorescent staining in bullous pemphigoid, 341
- , urinary, in kidney disease, 342
- Contraceptive, oral, containing oestrogen and gestagen, hypertension due to, 375
- , —, gestogen, influence on sexual behaviour and spread of gonorrhoea, 356
- Coronary artery disease, latent, post-exercise electrocardiogram as screening agent for, 370
- , —, occlusive, presenting as primary congestive cardiomyopathy, 371
- Cortisol monitoring in asthma with use of corticotrophin, 360
- Cotton textile industry, prevalence of byssinosis in carding and spinning workers in, 405
- Creatinine excretion, urinary, as index of completeness of 24-hour urine collection, 338
- Cyclamate, *see* Calcium
- Depression, *see also* Antidepressant
- , flupentixol in, 397
 - , manic, catecholamine metabolism in, 397
- Dermatitis, photosensitive, after calcium cyclamate ingestion, 406
- Dermatology, 398
- Dexpropranolol in angina pectoris, mechanism of action, 347
- Diabetes mellitus, atherosclerosis in, 387
- , insulin secretion control during fasting hyperglycaemia in, 386
 - , lactic acidosis in, 387
 - , pulmonary tuberculosis in, surgical treatment, 355
- Diaphragm involvement in hemiplegia and hemiparesis, 396
- Diphtheroid bacilli, isolation from synovial membrane and fluid in rheumatoid arthritis, 344
- Driving, *see also* Car
- and nondriving occupations, constitutional differences between men in, 405
- Drug rash following administration of ampicillin and other penicillins, 351
- EB virus antibody at different ages, 353
- Electrocardiogram, postexercise, use in screening for latent coronary artery disease, 370
- Electroencephalogram of newborn infants, effect of extrauterine experience on development of sleep spindles, 401
- Emphysema, association with elevated hepatic water-soluble protein-bound cadmium levels, 379
- Encephalopathy, hypercalcaemic, clinical and electroencephalographic study, 393
- Endocrinology, 382-7
- Epilepsy, iatrogenic, due to antidepressant drugs, 396
- Ethambutol and capreomycin in atypical pulmonary tuberculosis, 354
- Euglucon, *see* Glibenclamide
- Factor VIII inhibitor in haemophilia A, 377
- Fallot's tetralogy, results of repair of, 368
- Fatty acid, free, increased concentrations in plasma in acute myocardial infarction, 371
- , polyunsaturated, and myocardial infarction, 372
- Felty's syndrome, liver function and histology in, 391
- Fenclozic acid in rheumatoid arthritis, 390
- Ferrioxamine test, differential, in idiopathic haemochromatosis, 361
- Fibrillation, *see* Arrhythmia
- Fibrinolysis in relation to activity of rheumatoid arthritis, 388
- Flupentixol in depression, 397
- Forensic medicine, 406
- Fructose test, oral, in liver cirrhosis, 363
- Frusemide, acute haemodynamic effects in normal and raised left atrial pressures, 346
- Gastrectomy, *see also* Postgastrectomy
- , subtotal, neuromuscular disorders after, 393
- Gastroenterology, 363-5
- , Gene heterozygosity, α_1 -antitrypsin deficiency, and obstructive lung disease, 404
- Genetics, medical, 403-4
- in clinical medicine (review article), 325
- Glibenclamide, metabolic and clinical effects, 345
- Globulin, *see* Antilymphocyte
- γ -Globulin prophylaxis, asymptomatic hepatitis in adults after, 353
- Goitre, euthyroid, in children, differential diagnosis, 401
- Gonorrhoea, antibiotics in single-dose treatment, 356
- , asymptomatic, 356
 - , —, incidence in obstetrical and gynaecological clinic, 356
 - spread, influence of contraceptive gestogen pills on, 356
- Granuloma inguinale, ampicillin in, 357
- Griseofulvin treatment, association of chronic granulocytic leukaemia with, 351
- Growth hormone level in plasma, changes after phenylalanine tolerance test in normal and phenylketonuric children, 400
- , —, — serum in untreated acromegaly, relation to size of pituitary tumour, 382
- Guillain-Barré syndrome, lymphocyte transformation in, 341
- Haematology, clinical, 377-8
- Haemochromatosis, idiopathic, differential ferrioxamine test in, 361
- Haemodialysis, long-term maintenance, parathyroid disorders in, 384
- , regular, leucocyte counts with, 380
- Haemoglobin, abnormal, blood gas in syndromes of, 338
- Haemophilia A, acquired circulating anticoagulants in, 377
- Haemorrhage, subarachnoid, hypothalamic-pituitary-adrenal function after, 382
- Hay fever, delayed hypersensitivity in, 359
- Head injury, mild, migraine triggered by, 394
- Headache, *see also* Migraine
- , cluster, BC-105 prophylaxis, 395
- Heart, *see also* Coronary; Fallot's tetralogy; Myocardial infarction
- disease, congenital, evaporative heat losses in infants with, 400
 - , cyanotic congenital, acquired pulmonary artery atresia after, 368
 - , ischaemic, chondroitin sulphate A in, 370
 - , —, risk in familial hyperlipoproteinaemia, 361
 - failure, congestive, in chronic lung disease, atypical pulmonary patterns, 408
 - output after myocardial infarction, effect of posture on, 374
 - rupture, ventricular septal, after myocardial infarction, 374
 - size after uncomplicated myocardial infarction, 375
 - transplant rejection, acute, antibody participation in, 341
- Heat loss, evaporative, of infants with congenital heart disease, 400
- Hemiparesis and hemiplegia, diaphragmatic involvement in, 396
- Hepatitis, asymptomatic, in adults given prophylactic γ -globulin, 353
- Hyaline membrane syndrome, intermittent positive pressure respirators in, effect on pulmonary structure, 340
- Hydrochlorothiazide and spironolactone in hypertension, 376
- 11-Hydroxycorticosteroid excretion, effect of car driving on, 370
- Hyperbilirubinaemia of newborn infants, alcohol prophylaxis, 399
- Hypercalcaemia encephalopathy, clinical and electroencephalographic study, 393
- Hyperlipoproteinaemia, familial, risk of ischaemic heart disease in, 361
- Hypertension, alprenolol in, 375, 376
- , hydrochlorothiazide and spironolactone in, 376
 - , induction by oral contraceptives containing oestrogen and gestagen, 375
- Hypoglycaemia, postgastrectomy, pathophysiological study, 363
- Hypothalamic-pituitary-adrenal function after subarachnoid haemorrhage, 382
- Hypothermia, accidental, necropsy diagnosis, 406
- Hypothyroidism after sodium iodide ¹³¹I treatment, 384
- Hypovolaemia in status asthmaticus, 360
- Imipramine overdose, deductions concerning cerebral action, 350
- Immunization for overseas travel, 358*
- Industrial medicine, 405
- Infants, newborn, inflammation at separation line of umbilical cord as indicator of live birth, 406
- , —, perinatal telencephalic leucoencephalopathy in, 339
- Infection, Gram-negative, serum lipid levels in, 338
- , staphylococcal, in the newborn, nursery routines and colonization in, 399
- Infectious diseases, 352-3
- Influenza, Asian, teratogenic effects, 352
- virus, attenuation, 343
 - syndrome, production in man with equine influenza virus, 352
- Insulin level in blood, spontaneous circadian variations in normal subjects, 385
- secretion after myocardial infarction, in relation to pathogenesis of cardiovascular shock, 372

SUBJECT INDEX

- Insulin secretion control during fasting hyperglycaemia in diabetics and in nondiabetics during glucose infusion, 386
- suppression after myocardial infarction, 371
- Intervertebral, *see* Spine
- Intestinal absorption, disturbance due to metformin treatment, 387
- Iodine, protein-bound, turnover in liver disease, 363
- Iron preparation(s), absorption measured with whole body counter, 348
- , quick and slow-release, trial with single daily dose regimen, 348
- Isoeprenaline, bronchodilator and cardiovascular activity, comparison with salbutamol, 349
- Kidney, *see also* Nephritis
- disease, noninfectious, bacteriuria in, 381
 - , urinary complement appearing in, 342
 - function in persons occupationally exposed to pesticides, 405
 - transplant rejection, ultrasonic detection, 380
 - , cadaveric, antilymphocyte globulin after, 380
 - , calcium metabolism and osteodystrophy after, 385
- Latex agglutination test, direct, in diagnosis of tuberculosis, 354
- Lead, high levels in blood of Chicago children, 402
- Leucocyte counts with regular haemodialysis, 380
- function, effect of blood-bank storage on, 338
- Leukaemia, acute, immunotherapy, 378
- , granulocytic, chronic, associated with griseofulvin treatment, 351
 - and phenylbutazone ingestion, possible relationship, 378
- Lipid level in serum in Gram-negative infection, 338
- Lipoprotein, *see* Hyperlipoproteinaemia
- Liver, *see also* Hepatitis
- cirrhosis, oral fructose and ammonia tolerance tests in, comparison, 363
 - disease, chronic, with hypergamma-globulinaemia, long-term results of treatment, 364
 - , protein-bound iodine and D-thyroxine turnover in, 363
 - , serum fetal protein in, 364
 - function and histology in Felty's syndrome, 391
 - , toxic effect of papaverine on, 348
- LSD, *see* Lysergide
- Lung carcinoma, surgical treatment, long-term clinical follow-up, 379
- disease, chronic, atypical pulmonary patterns of congestive failure in, 408
 - , hypoxic, and secondary polycythaemia, reduction of haematocrit levels by phenylhydrazine hydrochloride and pyrimethamine, 377
 - , obstructive, and α_1 -antitrypsin deficiency gene heterozygosity, 404
 - resection in atypical pulmonary tuberculosis, 354
- Lymphocyte transformation in Guillain-Barré syndrome, 341
- Lysergide, effect on chromosomes of leucocytes, 403
- in chronic alcoholism, 397
- Malformation, congenital, after maternal Asian influenza, 352
- Mattress, multipurpose, for control of bedsores, 398
- Meatotomy in girls with meatal stenosis and urinary tract infection, 400
- Mediastinoscopy in differential diagnosis of mediastino-pulmonary sarcoidosis, 379
- Metabolism, 361-2
- Metformin treatment, intestinal absorption disturbances due to, 387
- Microbiology, 343-4
- Microspherocytosis, congenital, splenectomy in, 377
- Migraine attacks triggered by mild head injury, relation to posttraumatic disorders of children, 394
- , BC-105 prophylaxis, 394
 - , reserpine in, relation between headache and amine changes, 395
- Mononucleosis, infectious, mycoplasma in pathogenesis, 353
- , serological studies, 344
- Mucopolysaccharidosis, vitamin A treatment, clinical and biochemical evaluation, 402
- Myalex, *see* Fenclozic acid
- Myasthenia gravis, calcium infusion in, 393
- , medical and surgical treatment, comparative evaluation, 392
- Mycoplasma in pathogenesis of infectious mononucleosis, 353
- Myocardial infarction, acute, increased free fatty acid concentrations in plasma in, 371
- , nursing posture after, 373
 - , procainamide prophylaxis of arrhythmia after, 373
 - , ventricular fibrillation complicating, long-term survival after, 374
 - , effect of posture on cardiac output after, 374
 - in rheumatoid arthritis, 389
 - , insulin secretion after, relation to pathogenesis of cardiogenic shock, 372
 - , intravenous glucose tolerance and insulin, glucose, and free fatty acid levels after, 371
 - , polyunsaturated fatty acids and, 372
 - , right ventricular pressure in, 373
 - , uncomplicated, heart size and survival after, 375
 - , ventricular septal rupture after, clinical, haemodynamic, and surgical considerations, 374
- Nephritis, pyelo-, abacterial and bacterial, immunofluorescent location of bacterial antibodies in, 342
- Neuritis, ulnar, anterior transposition of ulnar nerve in, 393
- Neurology and neurosurgery, 392-6
- Nortriptyline overdose, deductions regarding cerebral action, 350
- steady state plasma levels in twins, influence of genetic factors and drug therapy, 350
- Nutrition, 361-2
- Oedema, pulmonary, influence of pre-existing disease on radiological appearance and distribution, 408
- Osteodystrophy after renal transplantation, 385
- Pacemaking, ventricular, in intractable supraventricular tachycardia, 366
- Paediatrics, 399-402. For details *see* Children; Infants
- Pancreas calcification, report of 45 cases, 365
- carcinoma, angiographic evaluation, 408
- Papaverine, hepatic toxicity, 348
- Parasitology, 343-4
- Parathyroid disorders in long-term maintenance haemodialysis, 384
- Parkinson's disease, L-dopa in, 396*
- tremor, response to peripheral nerve stimulation, 396
- Pathology, 338-42
- Pemphigoid, bullous, complement immunofluorescent staining in, 341
- Penicillin allergy in rheumatoid arthritis with reference to Sjögren's syndrome, 389
- Pericarditis of rheumatoid arthritis, 388
- Peritonitis, tuberculous, pathogenesis, diagnosis, and treatment, 355
- Pesticides, renal function in occupationally exposed workers, 405
- Pharmacology, 345-50
- Phenylbutazone ingestion and leukaemia, possible relationship, 378
- Phenylene diisothiocyanate, *see* Bitoscanate
- Phenylhydrazine hydrochloride and pyrimethamine in polycythaemia due to hypoxic lung disease, 377
- Phenylketonuria in children, changes in plasma growth hormone after phenylalanine tolerance test in, 400
- Pituitary adenoma, haemorrhagic forms, clinical and aetiological aspects, 383
- tumour size in untreated acromegaly, relation of serum growth hormone levels, 382
- Pneumectomy, long-term effects on pulmonary circulation, 367
- Pneumonia, *see also* Bronchopneumonia
- , desquamative interstitial, blood-air barrier in, 340
- Polycythaemia due to hypoxic lung disease, reduction of haematocrit levels by phenylhydrazine hydrochloride and pyrimethamine in, 377
- Postgastrectomy hypoglycaemia, pathophysiological study, 363
- Posture, effect on cardiac output after myocardial infarction, 374
- , nursing, after acute myocardial infarction, 373
- Practolol in angina pectoris, mechanism of action, 347
- Procainamide prophylaxis of arrhythmia, after acute myocardial infarction, 373
- Propanidol induction, cardiac arrest after, 407*
- Propranolol, cardiovascular pharmacology, 347
- in angina pectoris, mechanism of action, comparison with dextropranolol and practolol, 347
- D-Propranolol in arrhythmias, 366
- Protein, fetal, in serum in liver disease, 364
- Psychiatry, 397
- Pyelonephritis, *see* Nephritis
- Pyrimethamine and phenylhydrazine hydrochloride in polycythaemia due to hypoxic lung disease, 377
- Radiology, 408
- Regurgitation, mitral, in muscular subaortic stenosis, 369
- Reserpine administration in migraine, relation between headache and amine excretion changes after, 395

SUBJECT INDEX

- Respiration during partial neuromuscular block, effect of intravenous local analgesics on, 407
- Respiratory disease, effect of bromhexine on ventilatory capacity in, 349
 - distress in newborn infants, intermittent positive pressure respirators in, effect on pulmonary structure, 340
 - system, 379
- Rheumatic diseases, 388–91
- Rocky Mountain spotted fever, chloramphenicol acid succinate in, 351
- Rubella immunity in elective infection of human volunteers, 352
- Salbutamol, bronchodilator and cardiovascular activity, comparison with isoprenaline, 349
- Sarcoidosis, mediastinopulmonary, differential diagnosis by mediastinoscopy, 379
- Sclerosis, multiple, in immigrant and native populations of Israel, 392
 - , tuberos, genetic study, 403
- Shock, cardiogenic, insulin secretion after myocardial infarction in pathogenesis, 372
 - , chlorpromazine in, haemodynamic response, 346
- Sjögren's syndrome in rheumatoid arthritis, penicillin allergy and, 389
- Skin chapping, effect of temperature on extensibility of isolated corneum and relation to, 398
- Sleep spindles in electroencephalogram, effect of extrauterine experience on development, 401
- Sodium iodide ¹³¹I treatment, hypothyroidism after, 384
- Spine, lumbar intervertebral disc, herniation in children and adolescents, 401
- Spironolactone and hydrochlorothiazide in hypertension, 376
- Splenectomy in congenital microspherocytosis, 377
- Sprue, tropical, poorly absorbed sulphonamides in, 365
 - Status asthmaticus, hypovolaemia in, 360
 - Still's disease in Western Nigeria, 389
 - Stomach adenocarcinoma in ataxia-telangiectasia, 404
 - Subaortic stenosis, muscular, left ventricular cineangiographic observations, 369
 - —, —, mitral regurgitation in, 369
 - Sulphonamides, poorly absorbed, in tropical sprue, 365
 - Synovectomy in juvenile rheumatoid arthritis, 391
 - Syphilis, serological reactivity in consecutive patients admitted to a general hospital, 357
- Tachycardia, intractable supraventricular, ventricular pacing in long-term control, 366
- Textile, *see* Cotton
- Therapeutics, 345–50
- Thyroid, *see also* Hypothyroidism
 - function test, collagen turnover measurement as, 383
 - —parathyroid complex, homotransplantation, 382
 - Thyroiditis, chronic, and nontoxic goitre in children, differential diagnosis, 401
 - Thyrotoxicosis, long-acting thyroid stimulator in euthyroid relatives, 384
 - D-Thyroxine turnover in liver disease, 363
 - Toxicology, 406
 - Transplantation, *see also* specific organs
 - of thyroid-parathyroid complex, 382
 - Tremor, involuntary, in Parkinson's disease, aetiology, 396
 - Trimethoprim-sulphamethoxazole in chronic bronchitis exacerbations, 379
- Tropical medicine, 358
- Tuberculosis, 354–5
 - diagnosis with direct latex agglutination test, 354
 - , peritoneal, *see* Peritonitis
 - , pulmonary, atypical, ethambutol with capreomycin in, 354
 - , —, —, lung resection in, 354
 - , —, chemotherapy, bronchovascular sequelae, correlations between scintigraphy and bronchography, 354
 - , —, in diabetes mellitus, surgical treatment, 355
- Twins, steady-state plasma levels of nortriptyline in, influence of genetic factors and drug therapy, 350
- Typhoid, induced, chloramphenicol acid succinate in, 351
- Ultrasonic detection of human renal allotransplant rejection, 380
- Umbilical cord inflammation at separation line as indicator of live birth, 406
- Urinary tract infection in the newborn, diagnosis, 399
 - — — and meatal stenosis in girls, meatotomy in, 400
- Urine collection, 24-hour, urinary creatinine excretion as index of completeness, 338
- Urogenital system, 380–1
- Vena cava, inferior, post-thrombotic obstruction, 367
- Venereal disease, 356–7
- Vitamin A and mucopolysaccharidosis, clinical and biochemical evaluation, 402

SUBJECT INDEX

An asterisk denotes title and reference only

- Accident proneness in childhood, individual and familial psychopathological factors, 465
- Acid-base status of infants with congenital heart disease, effect of cardiac catheterization on, 472
- Adjuvant disease after injection of Freund's adjuvant, inhibition in rats, 409
- Adrenal function in hypothyroidism, 452
- Air pollution, carbon monoxide hazard in city traffic, 480
- Airways obstruction, chronic, effect of personality on alveolar ventilation in, 463
- resistance in asthmatic children, relative sensitivity of methods of measurement, 473
- Alcohol level in blood, errors in conversion from urine alcohol value, 480
- Alkalosis, induced metabolic, effect on hepatic coma, 436
- Allergy, 430-1
- among college students, 431
 - , cutaneous, to dust and mites, 430
 - to primulas as cause of hand dermatitis, 466
- Allopurinol in gout, 456
- Alopecia areata, thyroid disease, and autoimmunity, 467
- Amantadine hydrochloride in Parkinsonism, 460
- Amiodarone in angina pectoris, 439
- Ampicillin in whooping cough, 422
- Amyloidosis, hereditary systemic, carpal tunnel syndrome in, 413
- Anaemia after partial gastrectomy, occult blood loss and, 444
- , haemolytic, severe, in pregnancy in Nigerians, prednisolone treatment, 445
 - , in chronic illness, serum protein and blood vitamin levels in, 445
 - , pernicious, antibody activity against hog intrinsic factor in, 445
- Anaesthesia, haemoglobin concentration variability during, 481
- Anaesthetics, 481
- Analgesia, epidural, combined with general anaesthesia, cardiovascular effects, 481
- Aneurysm, aortic, with mucoid infiltration of the media and semilunar valves, 411
- Angina pectoris, amiodarone in, 439
- , isosorbide and propranolol alone and in combination in, 440
- Angiography, arterial and venous, simultaneous, in evaluation of anterior mediastinal tumours, 485
- , effect on renal function and histology in infants and piglets, 486
 - in diagnosis of bronchial carcinoma, 483
 - evaluation of anterior polar brain injury, 482
 - , postoperative, in renal homotransplantation, 487
 - , pulmonary, accuracy in assessing resolution of experimental thromboemboli, 485
 - , in the horizontal and vertical position, 484
- Anticoagulants in modification of vascular lesions of rejection in cadaveric renal allografts, 447
- renal disease in children, 475
- Anticoagulant treatment, prolonged, after acute myocardial infarction, 441, 442
- Anticonvulsant drug therapy in pregnancy causing neonatal coagulant defect, 471
- Antilymphocyte antisera in immunologically mediated renal disease, 448
- Aorta incompetence, idiopathic, with mucoid infiltration of the media and semilunar valves, 411
- stenosis in the elderly, relevance of age to diagnosis and treatment, 437
- Appendicitis in infants, diagnosis by abdominal radiography, 473
- Arrhythmia, atrial fibrillation, quinidine for maintenance of sinus rhythm after electric conversion, 438
- Arteries, middle cerebral, nature of occlusions, 458
- Arthritis, *see also* Polyarthritis
- , chronic, local injections of silicone oil and hydrocortisone acetate in, comparison, 454
 - , rheumatoid, in Nigeria, low incidence of rheumatoid factor and autoantibodies in, 454
 - , —, and psoriasis, association in total populations, 455
- Ascorbic acid deficiency, effect on desferrioxamine-induced urinary iron excretion, 433
- L-Asparaginase in acute leukaemia and lymphosarcoma, 444
- neoplastic disease, therapeutic and toxic effects, 421
- Asphyxia, perinatal, respiratory stimulants in, 469
- Asthma, bronchial, among college students, 431
- , salbutamol in, comparison of cardiorespiratory effects with those of isoprenaline, 420
 - in children, disodium cromoglycate in, 474
 - , —, relative sensitivity of methods of measurement of airway resistance, 473
- Atheroma, severe, in transplanted human heart, 413
- Australia antigen in chronic hepatitis in Australia, 436
- /SH-antigen in liver disease, 422
- Autoantibodies, low incidence in Nigerian patients with rheumatoid arthritis, 454
- Aversion therapy, electric, effect on cigarette smoking, 462
- Bacilli, Gram-negative, emergence in pharynx of hospital patients, 415
- Bacteraemia due to *Diplococcus pneumoniae* in children, 471
- Bacteriuria, transient asymptomatic, in infants, 474
- Ballet dancers, classic, occupational osteoarthritis in, 479
- Barium sulphate, intracavitary, in assessment of amoebic liver abscess, 485
- BCG vaccination, direct, epidemiological significance of local reaction to, study in Mongolia, 423
- Beef extract, *see* Bovril
- Blood circulation, *see* Circulation
- coagulation defect, neonatal, due to anticonvulsant drug therapy in pregnancy, 471
 - donors, latent cytomegalovirus infection in, 422
 - flow, cerebral, diversion and reversal by means of external carotid artery "steal", 458
 - gas, arterial, in acute myocardial infarction, effect of morphine on, 440
 - loss, occult, role in postgastrectomy anaemia, 444
 - pressure, *see also* Hypertension
 - of newborn infants, effect of acute hypoxia on, 469
 - , portal and systemic, effect of vasopressin on, 417
 - sugar and ketones, interrelationship in insulin-treated diabetes, 453
 - , response to exercise in obesity and normal subjects, 432
 - transfusion, fetal intrauterine, radiological aspects, 487
 - volume, *see also* Hypovolaemia
 - changes in splenomegaly, 446
- Bone, cortical and trabecular, effect of kwashiorkor on, 429
- Boots, *see* Footwear
- Bovril as stimulus to human growth hormone secretion, 449
- Brain injury, anterior polar, angiographic evaluation, 482
- tumour in cerebellopontine angle, erosion of jugular tubercle with, 482
- Bronchocele in bronchial neoplasms, 482
- Bronchoscopy, practolol in, 481
- Bronchus carcinoma, angiographic diagnosis, 483
- denervation, autonomic, in Chagas' disease, aetiology, 411
- Burns, severe, in children, aetiology and management, psychosocial considerations, 476
- Calcification in intrathoracic nodes in Hodgkin's disease, 484
- , subvalvular, of mitral valve, 412
- Carbenicillin, intravenous, in pseudomonas infections, 421
- Carbon monoxide hazard in city traffic, examination of traffic policemen, 480
- Carcinoma cure, five-year, relation to total amount of peripheral lymphocytes and neutrophils, 488
- Cardiovascular system, 437-43
- Carpal tunnel syndrome in hereditary systemic amyloidosis, 413
- Catheterization, cardiac, effect on acid-base status of infants with congenital heart disease, 472
- Cerebrospinal fluid, lumbar, protein content, alterations during air encephalography, 409
- Chagas' disease, bronchial autonomic denervation in, aetiology, 411
- Chemotherapy, 421
- Chest radiography, findings in acute rejection crisis in human cardiac transplants, 484
- Chikungunya disease, clinical and virological study in outpatients, 426
- and haemorrhagic fever, 426

SUBJECT INDEX

- Children, *see also* Infants
 —, accident-proneness in, individual and familial psychopathological factors, 465
 —, asthmatic, disodium cromoglycate in, 474
 —, —, relative sensitivity of methods of measurement of airway resistance, 473
 —, benign melanoma in, clinical and pathological survey, 466
 —, burnt, aetiology and management, psychosocial considerations, 476
 —, kidney transplantation in, use of paediatric cadaver kidneys for, 447
 —, of low birth weight, developmental and psychological test scores, 468
 —, phenylketonuric, growth and nutrition with treatment, 472
 —, respiratory virus infections, comparison of diagnostic methods, 415
 Chloramphenicol in whooping cough, 422
 Chromosome, XYY syndrome, serum growth hormone level after oral glucose load, urinary excretion of pituitary gonadotrophin and 17-ketosteroids in, 449
 Circulation, coronary, effect of glucagon on, 418
 Coeliac disease in hyposplenic adults, 446
 Colitis, *see also* Proctocolitis
 Coma, hepatic, complicating viral hepatitis, management, 436
 —, —, effect of induced metabolic alkalosis on, 436
 Contraceptive, oral, vascular lesions in women taking, 414
 Contrast medium, radioopaque, relation to haemorrhagic renal necrosis in infants, 486
 Convulsion, *see* Anticonvulsant
 Corticosteroids, hypersensitivity to, 431
 —, prolonged administration in nephrotic syndrome, thyroid function during, 448
 Cushing's syndrome, aetiological diagnosis, evaluation of stimulation and suppression tests, 450
 Cytomegalovirus infection, latent, in blood donors, 422
- Death, sudden, and ischaemic heart disease, 1901-61, 477
 Decarboxylase inhibitor combined with L-dopa in Parkinsonism, 460
 Dengue infection, clinical and virological study in outpatients, 426
 —, —, and haemorrhagic fever, 426
 Depression, hypertension and, 463
 —, nortriptyline in, 464
 Dermatitis herpetiformis, gluten-free diet in, 466
 —, patch testing with primula extract, 466
 Dermatology, 466-7
 Desferrioxamine-induced urinary iron excretion, effect of ascorbic acid deficiency on, 433
 Diabetes mellitus, chronic diarrhoea in, study by jejunal biopsy, 453
 —, —, effects on insulin secretion, differentiation from those of obesity, 453
 —, —, insulin-treated, interrelation of blood sugar and ketones in, 453
 Diarrhoea, chronic, in diabetes, study by jejunal biopsy, 453
 Diazoxide and frusemide in hypertension with azotaemia, 442
 Dichlorvos, anthelmintic properties, 427, 428
 Diethylcarbamazine-mediated salt in bancroftian filariasis, 429
 Digitoxin, effect on elderly women, 419
Diplococcus pneumoniae bacteraemia in children, 471
- Dipyridamole in modification of vascular lesions of rejection in cadaveric renal allografts, 447
 Disfigurement, facial, psychopathological aspects, relation with dysmorphophobia, 463
 Disodium cromoglycate in childhood asthma, 474
 L-Dopa in chronic manganese poisoning, 479
 —, with decarboxylase inhibitor in Parkinsonism, 460
 Dust, *see* House dust
- Electric convulsion therapy, reaction pattern of fibrinolysis and plasma fibrinogen to, 410
 Electrocardiogram, effect of propranolol on, 418
 —, PQ-interval, effect of posture on, 437
 Electroencephalogram in newborn infants, effect of acute hypoxia on, 469
 Embolism, *see also* Thromboembolus
 —, renal arterial, kidney function after, 448
 Encephalitis, *Herpesvirus hominis*, idoxuridine in, 459
 Encephalography, *see* Pneumoencephalography
 Endocrinology, 449-53
 Ephedrine and nialamide in narcolepsy, 460
 Epicarditis, granulomatous eosinophilic, in the newborn, 412
 Epilepsy, phenytoin treatment causing pseudodegenerative disease, 459
 Eraldin, *see* Practolol
 Erythromycin in whooping cough, 422
 —, and sulphonamides in streptococcal pharyngitis, possible antagonism between, 421
Escherichia coli, changing population in faeces of hospital medical patients, 416
 Ethamivan in perinatal asphyxia, 469
 Exophthalmos in Graves' disease, guanethidine in, 452
- Fatty acids, free, response to exercise in obesity and normal subjects, 432
 Fenfluramine in obese patients on anti-hypertensive drug therapy, 443
 Fibre content of diet, effect on serum lipid levels, 432
 Fibrillation, *see* Arrhythmia
 Fibrinogen and fibrin degradation products, measurement in serum in staphylococcal clumping test, 410
 Fibrinolysis, reaction pattern to stress, 410
 Fibrosis, cystic, staphylococcal infections in, fusidic acid and lincomycin treatment, 474
 Filariasis, bancroftian, diethylcarbamazine-mediated salt in, 429
 Fluoride, effect on atrophic osteopathies, 433
 5-Fluorouracil cream in malignant and premalignant skin tumours, 467
 Fluoxymesterone, effect on growth of girls with gonadal dysgenesis, 476
 Food poisoning outbreak caused by *Bacillus cereus*, 477
 Footwear industry, nasal carcinoma in, 478
 Forensic medicine, 480
 Fractures of long bones, venographic signs of injuries of veins in, 488
 Frusemide and diazoxide in hypertension with azotaemia, 442
 Fusidic acid in staphylococcal infections in cystic fibrosis, 474
- Gastrectomy, partial, anaemia after, role of occult blood loss in, 444
 Gastric secretion, duodenal inhibition by osmotic agents in normal subjects and in duodenal ulcer patients, 434
 Gastrin, radioimmunoassay in human serum, 434
 Gastroenterology, 434-6
 Gilles de la Tourette's syndrome in children, prognosis and review, 465
 Glucagon, effect on coronary circulation, 418
 Glutaraldehyde, topical, mechanism of antisweating effect, 467
 Gonadal dysgenesis in girls, effect of fluoxymesterone on growth, 476
 Gonorrhoea, aqueous procaine penicillin with and without aluminium monostearate in, 424
 —, triple tetracycline in double doses in, 424
 Gout, allopurinol in, 456
 —, liver involvement in, 456
 —, thiopurinol in, 456
 Graves' disease, ocular manifestations, guanethidine in, 452
 Growth hormone response to exercise in obesity and normal subjects, 432
 —, secretion, Bovril as stimulus to, 449
 —, in girls with gonadal dysgenesis receiving fluoxymesterone, 476
 —, retardation in boys, zinc deficiency and, 432
 Guanethidine, for ocular manifestations of Graves' disease, 452
- Haematology, clinical, 444-6
 Haemoglobin concentration, variability during anaesthesia, 481
 Haemorrhage, gastrointestinal, absence after salicylsalicylic acid administration, 417
 Haemorrhagic fever, dengue and Chikungunya virus infections as background to, 426
 Halothane anaesthesia, liver necrosis associated with, 413
 Heart, *see also* Epicarditis; Myocardial infarction
 —, block, sinoatrial, complicated by paroxysmal tachycardia, pacemaker therapy, 439
 —, conduction, effect of propranolol on, 418
 —, defect, ventricular septal, spontaneous closure, anatomical evidence in adults, 412
 —, disease, congenital, in infants, effect of cardiac catheterization on acid-base status, 472
 —, —, ischaemic, and sudden death, 1901-61, 477
 —, failure, congestive, protein content in lymph and oedema fluids in, 438
 —, mitral valve, subvalvular calcification, 412
 —, transplant, acute rejection crisis, chest radiological findings in, 484
 —, —, severe atheroma in, 413
 Helminthiasis, dichlorvos in, clinical trial, 427, 428
 Hemiplegia, infantile, cerebral hemispherectomy in, 476
 Hepatitis, chronic, Australia antigen in, 436
 —, drug-induced, diagnosis by lymphoblastic transformation test, 435
 —, viral, complicated by hepatic coma, management, 436
 Herpes simplex virus in a children's home, 6-year investigation, 477
 —, virus hominis, Type 2, genital infection with, 424

SUBJECT INDEX

Histiocytosis in 15-month old child, vinblastine treatment, 473
Hodgkin's disease, intrathoracic node calcification in, 484
House dust antigens and dust mites, cross-antigenicity among, 430
—, skin reactions to, 430
Hycanthone in schistosomiasis, clinical trial, 428
5-Hydroxytryptophan in chronic manganese poisoning, 479
Hyperlipoproteinaemia, Type IV, survey, 433*
Hyperparathyroidism, hypocalcaemic primary, 449
Hypertension, benign intracranial, associated with hypervitaminosis A, 457
— and emotional disturbance, 463
—, essential, suppressed plasma renin activity in, 442
—, obesity in, fenfluramine therapy during antihypertensive drug treatment, 443
—, pulmonary, width of right descending branch of pulmonary artery as radiological sign of, 483
—, renal, renin secretion in, 442
— with azotaemia, diazoxide and frusemide in, 442
Hypervitaminosis A, association of benign intracranial hypertension with, 457
Hyposplenism, adult coeliac disease in, 446
Hypothyroidism, adrenal function in, 452
Hypovolaemia in shock due to acute myocardial infarction, 440
Hypoxia, acute, effect on blood pressure and electroencephalogram of newborn infants, 469

ICI 50,172, *see* Practolol
Idoxuridine in *Herpesvirus hominis* encephalitis, 459
Industrial medicine, 477-9
Infants, appendicitis in, diagnosis by abdominal radiography, 473
—, dysmature, developmental and psychological test scores, 468
—, —, polycythaemia in, 470
—, haemorrhagic renal necrosis in, relation to administration of radioopaque compounds, 486
—, newborn, effect of acute hypoxia on blood pressure and electroencephalogram, 469
—, —, granulomatous eosinophilic epidermatitis, in, 412
—, —, oxygen tension measurements on arterialized capillary blood, reliability, 470
—, premature, developmental and psychological test scores, 468
—, renal function and histology in, effect of angiographic contrast media, 486
—, transient asymptomatic bacteriuria in, 474
Infection, perinatal, umbilical cord histology in, 471
—, staphylococcal, in cystic fibrosis, fusidic acid and lincomycin treatment, 474
—, streptococcal, effect of tonsillar size on incidence, 454
Infectious diseases, 422
Insomnia, nitrazepam in, comparison with phenobarbitone, 417
Insulin response to exercise in obesity and normal subjects, 432
— secretion reduction in diabetes with and without obesity, therapeutic use of biguanides, 453
Interferon inducers, protective effect on *Plasmodium berghei* malaria, 427

Intrinsic factor, hog, in pernicious anaemia antibody activity against, 445
Iron excretion, desferrioxamine-induced, effect of ascorbic acid deficiency on, 433
Isoniazid and *p*-aminosalicylic acid in primary isoniazid-resistant tuberculosis, 423
— prophylaxis of tuberculosis in Alaskan boarding schools, 423
Isosorbide and propranolol, alone and in combination, in angina pectoris, 440

Jaundice due to defective conjugation of bilirubin, phenobarbitone treatment, 472
"Jungle rot", *see* Pyoderma

Kernicterus, saturation of serum proteins with bilirubin during neonatal life, relation to brain damage at 5 years, 468
Ketones and blood sugar, interrelationship in insulin-treated diabetes, 453
Kidney, *see also* Nephrotic syndrome
— disease due to glomerular and vascular lesions, dipyridamole and anticoagulants in, 448*
—, immunologically mediated, antilymphocyte antiserum in, 448
— in children, anticoagulant treatment, 475
— failure, acute ischaemic, and postural proteinuria, glomerular permeability to high molecular dextrans in, 447*
—, —, plasma renin concentration in, 447
— in hypertension, diazoxide and frusemide treatment, 442
— function after renal arterial embolism, 448
— and histology in infants and piglets, effect of angiographic contrast media on, 486
— necrosis, haemorrhagic, in infants, relation to radioopaque compounds, 486
— transplant, cadaveric, modification in vascular lesions of rejection by dipyridamide and anticoagulants, 447
—, —, spontaneous remission of defect in urinary acidification after, 448
— in children, use of paediatric cadaver kidneys for, 447
—, postoperative angiography, 487
—, radiological size, retrospective study, 487
Kwashiorkor, effects on cortical and trabecular bone, 429

Lepra reaction, influence of thalidomide on, 427
Leukaemia, acute, L-asparaginase treatment, 444
Lincomycin in staphylococcal infections in cystic fibrosis, 474
Lipid concentration in serum, effect of fibre content of diet on, 432
Lipoprotein, *see* Hyperlipoproteinaemia
Liver, *see also* Hepatitis
— abscess, amoebic, assessment with intracavitary barium sulphate, 485
— disease, Australia/SH-antigen in, 422
—, chronic, protein-free liver extract therapy, 436
— involvement in gout, 456
— necrosis, association with halothane anaesthesia, 413
— scan and cirrhosis, 485

Lung, *see also* Bronchus
— carcinoma, smoking and other associated factors, 478
— disease, pulmonary oedema in, 438
Lymph, protein content in congestive heart failure, 438
Lymphoblastic transformation test in diagnosis of drug-induced hepatitis, 435
Lymphocyte, *see also* Antilymphocyte
— and neutrophils, peripheral, total amount, relation to 5-year cancer cure, 488
Lymphography in sarcoidosis, comparison with radiological findings in chest, 488
Lymphosarcoma, L-asparaginase in, 444
Lysine enrichment of wheat flour, evaluation in infants, 429

Malaria, *berghei*, protective effect of interferon inducers on, 427
—, falciparum, acute, pituitary-adrenal function in, 427
Manganese poisoning, chronic, L-dopa or 5-hydroxytryptophan treatment, 479
Mediastinum, *see also* Pneumomediastinography
— tumours, anterior, evaluation by simultaneous arterial and venous angiography, 485
Melanoma, benign in children, clinical and pathological survey, 466
Mental disorders, hospital diagnoses, differences between New York and London, 462
Metabolism, 432-3
Methyldopa, effect on plasma renin activity, 419
Microbiology, 415-6
Mitral, *see* Heart
Mogadon, *see* Nitrazepam
Morphine, effect on arterial blood gases in acute myocardial infarction, 440
—, —, blood pressure and cardiac output in acute myocardial infarction, 441
Motor neuron degeneration, late, after poliomyelitis, 457
Muscle atrophy, infantile spinal, electromyography and muscle biopsy in, 461
Myasthenia gravis in Finland, clinical analysis with reference to endocrinological and neurological disorders, 461
Mycoplasma hominis Type I, in aetiology of nongonococcal urethritis, 425
Myeloscintigraphy with ¹³¹I-labelled hippuran, screening method for spinal block lesions, 488*
Myocardial infarction, acute, blood pressure and cardiac output in, effect of morphine on, 441
—, —, effect of morphine on arterial blood gases in, 440
—, —, hypovolaemia in shock due to, 440
—, —, long-term anticoagulant therapy after, 441, 442
—, —, earliest electrocardiographic evidence, 437
—, —, reaction patterns of fibrinolysis and plasma fibrinogen to, 410

Narcolepsy, monoamine oxidase inhibitors and sympathomimetic agents in, 460
Necropsy needle, retrospective evaluation, 414
Needle, necropsy, retrospective evaluation, 414

SUBJECT INDEX

Nephrotic syndrome, prolonged steroid therapy, thyroid function during, 448
Neurology and neurosurgery, 457-61
 Nialamide and ephedrine in narcolepsy, 460
 Nitrazepam, sleep-inducing properties, comparison with phenobarbitone, 417
 Nortriptyline in depression, comparison with imipramine, 464
 Nose carcinoma in Northamptonshire footwear industry, 478
Nutrition, 432-3

Obesity, exercise in, response of growth hormone, free fatty acids, blood sugar, and insulin to, 432
 — in hypertension, fenfluramine treatment, 443
 Oedema fluid, protein content in congestive heart failure, 438
 —, pulmonary, in lung disease, 438
 Oesophagus in normal adults, cineradiographic evaluation, 434
 Ophthalmopathy, progressive endocrine, total thyroidectomy in, 452
 Osteoarthritis, occupational, and classical ballet, 479
 Osteoarthritis, generalized, in a population sample, 455
 Osteopathy, atrophic, sodium fluoride in, 433
 Oxygen, *see also* Hypoxia
 — tension measurements in arterIALIZED capillary blood of newborn infants, reliability, 470

Pacemaker in sinoatrial block complicated by paroxysmal tachycardia, 439
Paediatrics, 468-76. For details *see* Children; Infants
Parasitology, 415-6
 Parathyroid, *see* Hyperparathyroidism
 Parent death in relation to age and parental age at birth in psychiatric patients, 462
 Parkinsonism, amantadine hydrochloride in, 460
 —, L-dopa with decarboxylase inhibitor in, 460
Pathology, 409-14
 Penicillin hypersensitivity, delayed, clinical significance and hyposensitization after therapy, 430
 Personality, effect on alveolar ventilation in chronic airways obstruction, 463
 Pertussis, *see* whooping cough
Pharmacology, 417-20
 Pharyngitis, febrile, as manifestation of primary infection with herpes simplex virus, 477
 —, streptococcal, erythromycin and sulphonamides in, possible antagonism between, 421
 Pharynx, Gram-negative bacilli in, in hospital patients, 415
 Phenelzine sulphate, potentiation by tryptophan, 464
 Phenobarbitone in jaundice due to defective conjugation of bilirubin, 472
 Phenylketonuria, growth and nutrition in treated children, 472
 —, maternal, risk to fetus, 472
 Phenytoin intoxication causing pseudo-degenerative disease, 459
 Phosphorus poisoning, acute, liver changes simulated in patient receiving cytotoxic drugs, 480
 Pituitary-adrenal function in acute falciparum malaria, 427

Pneumoencephalography, alterations in lumbar cerebrospinal fluid protein during, 409
 Pneumomediastinography, direct, technique, 484
 Pneumonia, acute bacterial, serial quantitative cultures of fresh sputum in, diagnostic and therapeutic advantages, 415
 —, pneumococcal typing in, 416
 Poliomyelitis, late motor neuron degeneration after, 457
 Polyarthritis in Western Nigeria, 454*
 Polycythaemia in dysmature infants, 470
 Polymyalgia rheumatica, review, 456*
 Posture, effect on PQ interval, 437
 Practolol in bronchoscopy, 481
 Prednisolone in severe haemolytic anaemia in pregnancy in Nigerians, 445
 Pregnancy, anticonvulsant drug therapy in, causing neonatal coagulant defect, 471
 —, haemolytic anaemia in, in Nigerians, prednisolone treatment, 445
 Primula allergy as cause of hand dermatitis, 466
 Procaine penicillin, aqueous, with and without aluminium monostearate in gonorrhoea, 424
 Proctocolitis, diffuse untreated, absorption and secretion of water and electrolytes by intact colon in, 436
 Propranolol, effects on cardiac conduction, 418
 — and isosorbide alone and in combination in angina pectoris, 440
 Pseudomonas infections, intravenous carbenicillin in, 421
 Psoriasis and rheumatoid arthritis, association in total populations, 455
Psychiatry, 462-5
 Psychosis, parent death in relation to age and parental age at birth in, 462
Public health, 477-9
 Pyoderma, tropical bacterial, in Vietnam, treatment, 426

Radiography, abdominal, in diagnosis of appendicitis in infants, 473
Radiology, 482-8
 Relapsing fever, louse-borne, clinical and laboratory study in Ethiopia, 427*
 Renin activity in plasma, effect of methyl-dopa on, 419
 — — —, suppression in essential hypertension, 442
 — concentration in plasma in acute renal failure, 447
 — secretion in renal hypertension, 442
 Respiratory infection, viral, in children, comparison of diagnostic methods, 415
Rheumatic diseases, 454-6
 — fever recurrence, tonsillar size and, 454
 Rheumatism, inflammatory, complement in, 455*
 Rheumatoid, *see also* Arthritis
 — factor, low incidence in Nigerian patients with rheumatoid arthritis, 454
 Rhinitis, allergic, among college students, 431
 Rukavina's syndrome, *see* Amyloidosis, hereditary

Salbutamol, bronchodilator and cardiovascular activity, comparison with isoprenaline, 419
 — in bronchial asthma, cardiorespiratory effects, comparison with isoprenaline, 420

Salicylsalicylic acid administration, absence of gastrointestinal bleeding after, 417
 Salt medicated with diethylcarbamazine in bancroftian filariasis, 429
 Sarcoidosis, lymphography in, comparison with radiological findings in chest, 488
 Schistosomiasis, hycanthon in, 428
 Sclerosis, multiple, clinical factors associated with increased disability, 457
 Sella turcica enlargement associated with intrasellar cistern, radiological study, 482
 Senescence, aortic stenosis in, relevance of age to diagnosis and treatment, 437
 —, effect of digitoxin in, 419
 Sexual retardation in boys, zinc deficiency and, 432
 Shock due to acute myocardial infarction, hypovolaemia in, 440
 Shoes, *see* Footwear
 Short-bowel syndrome, effect of changes in dietary lipids on intestinal fluid loss in, 433*
 Silicone oil injection in chronic arthritis, comparison with hydrocortisone acetate, 454
 Skin, early destructive effects of sunlight on, 466
 — reactions to dust and mites, 430
 — tumours, malignant and premalignant, 5-fluorouracil cream in, 467
 Sleep, *see* Insomnia
 "Small-for-dates", *see* Infants, dysmature
 Smoking, *see* Tobacco
 Spine, infantile muscular atrophy, electromyography and muscle biopsy in, 461
 Spleen, *see* Hyposplenism
 Splenectomy in haematological disorders of autoimmune aetiology, 444
 Splenomegaly, blood volume changes in, 446
 Staphylococcal clumping test in measurement of fibrinogen and fibrin degradation products in serum, 410
 Stomatocytosis in Mediterranean migrants, 445
 Subclavian steal syndrome, contribution of circle of Willis to, 458
 Sulphonamides and erythromycin in streptococcal pharyngitis, possible antagonism, 421
 Sunlight, early destructive effect on skin, 466
 Surgery, operative, reaction patterns of fibrinolysis and plasma fibrinogen to, 410
 Sweat control, mechanism of action of topical glutaraldehyde in, 467

Taloximine in perinatal asphyxia, 469
 Tetracycline in whooping cough, 422
 —, triple, double doses in gonorrhoea, 424
 —, in nonspecific urethritis, 425
 Thalidomide, influence on lepra reaction, 427
Therapeutics, 417-20
 Thiopurinol in gout, 456
 Thromboembolus, experimental, accuracy of pulmonary angiography in assessing resolution, 485
 Thyrocalcitonin, physiological function, 450
 Thyroid, *see also* Graves' disease; Hypothyroidism
 — disease, autoimmunity, and alopecia areata, 467

SUBJECT INDEX

Thyroid function during prolonged steroid therapy of nephrotic syndrome, 448
 — — test, serum thyroxine specific activity as, 450
 — stimulation test with serum thyroxine concentration as index of thyroid response, 451
 — suppression test with serum thyroxine concentration as index of suppression, 451
 Thyroidectomy, total, in progressive endocrine ophthalmopathy, 452
 Tics in children, prognosis and review, 465
 Tobacco smoking, cigarette, effect of electric aversion therapy on, 462
 — — and lung carcinoma, 478
 Tonsils, role in predisposing to streptococcal infection and recurrences of rheumatic fever, 454
 Toxicology, 480
 Tropical medicine, 426-9
 Tryptophan potentiation of a monoamine oxidase inhibitor, 464
 Tuberculosis, 423
 —, primary isoniazid-resistant, response to isoniazid plus PAS in, 423
 —, pulmonary, isoniazid prophylaxis in Alaskan boarding schools, 423

Ulcer, duodenal, duodenal inhibition of gastric secretion by osmotic agents in, 434
 —, peptic, surgical treatment, selection of patients by "earring", 435
 Umbilical cord histology as guide to management of potential perinatal infection, 471
 Urethra prolapse in female children, 475
 Urethritis, nongonococcal, *Mycoplasma hominis* Type I in aetiology of, 425
 —, nonspecific, triple tetracycline in, 425
 Urinary tract infection in children, influence of successful antireflux operations on morbidity, 475
 Urogenital system, 447-8
 Vasopressin, effect on portal and systemic haemodynamics, 417
 Vein injuries in fresh fractures of long bones, venographic signs, clinical significance, 488
 Venereal diseases, 424-5
 Ventilation, alveolar, in chronic airways obstruction, effect of personality on, 463

Vinblastine in histiocytosis in young child, 473
 Virus infection, respiratory, in children, comparison of diagnostic methods, 415
 Vitamin, *see* Hypervitaminosis

Water and electrolyte absorption and secretion by colon in diffuse untreated proctocolitis, 436
 Wheat flour, lysine-enriched, evaluation in infants, 429
 Whooping cough, antimicrobial treatment, 422
 Wiskott-Aldrich syndrome, qualitative platelet defects and platelet survival in, 410

Zinc deficiency, relation to retarded physical and sexual development in boys, 432
 — levels in plasma in health and disease, 409

SUBJECT INDEX

An asterisk denotes title and reference only

- Acromegaly, permanent and irreversible hypersecretion of growth hormone in, 544
- Adenosine monophosphate, 3', 5' cyclic, urinary excretion in primary or manic depression, 556
- Adrenal, *see also* Pituitary
— hypoplasia, congenital, an X-linked disease, 568
- Adrenocortical function, effect of propranolol on, 572
— in young men and dogs, effect of coffee ingestion on, 506
- Airway conductance, relation to smoking habits and symptoms of chronic bronchitis, 541
— resistance in healthy and asthmatic subjects, effect of prostaglandin E₁ aerosol on, 505
- Ajmaline in arrhythmias due to myocardial hyperexcitability, 528
- Albuton in epilepsy, clinical trial, 552
- Allergy, 516-8
—, arrhythmia due to, 518
— reactions, inhibition in man and other species by cromoglycate, 518
- Alprenolol prophylaxis of angina pectoris, comparison with pentanitrol, 529
- D-Alprenolol in acute arrhythmias associated with acute myocardial infarction, 528
- Aluminium hydroxide in calcinosis universalis, 563
- Alveolobronchography, selective, in chronic pulmonary emphysema, 574
- Amantadine in A2 influenza, 509
- Amino acid(s), essential, and glucose, synergistic effect on insulin secretion, 546
— pairs, synergistic effect on insulin secretion, 546
- Amniotic fluid cells, examination for prenatal sex prediction and culture, 567
- Ampicillin and high dosage procaine penicillin in gonorrhoea, 512
- Amylase, renal clearance of in renal insufficiency, acute pancreatitis, and macroamylasaemia, 498
- Amyloidosis, lichen, clinical study, 557
- Anaesthesia, 572
- Analgesia, conscious, and amnesia for cardioversion, 572
- Anastomosis, superior vena cava-right pulmonary artery, in congenital heart disease with decreased pulmonary blood flow, 527
- Angina pectoris, alprenolol and pentanitrol prophylaxis, comparison, 529
- Angiography, fluorescence, of fundus vessels in aortic coarctation, 525
— in pulseless disease, 573
- Aorta coarctation, fluorescence angiography of fundus vessels in, 525
- Arrhythmia, due to hypersensitivity, 518
— in acute myocardial infarction, D-alprenolol treatment, 528
— myocardial hyperexcitability, ajmaline prophylaxis and treatment, 528
—, refractory ventricular, in myocardial infarction, bretylium tosylate in, 528
—, transient, detection by continuous long-term recording of electrocardiograms of active subjects, 528
- Arteries, coronary, *see* Coronary
- Arteriography, renal, in assessment of severity of essential hypertension, 536
- Arthritis, rheumatoid, cortisone withdrawal syndrome in, management, 550
—, disturbance of pulmonary diffusing capacity in, 548
—, intraarticular nitrogen mustard in, 550
—, —, trasyolol in, 549
—, iron deposits in lymph nodes in, 499
—, tryptophan metabolites in pathogenesis, study in rabbits, 498
- L-Asparaginase in acute leukaemia, 538
- Asthma, airways resistance in, effect of prostaglandin E₁ aerosol on, 505
—, bronchial, associated with intestinal parasites, 517
—, chronic, disodium cromoglycate in, changes in blood gas tensions and functional residual capacity with, 540
—, histamine binding of serum from children with, 516
—, distribution in blood of children with, 516
- Ataxia, hereditary, mode of inheritance, 568
- Australia antigen in hepatitis in Sweden, presence and persistence, 502
- Bacteriuria, detection at room temperature, 502
- Barium suspension in polyvinyl alcohol for bronchography, 573
- Beryllium disease, chronic, patterns of lung function in, 571
- Betamethasone in tetanus, 508
- Blood, *see also* Erythrocyte
— coagulation factor changes in cyanotic heart disease, 563
— donors, commercial and volunteer, comparison of incidence of post-transfusion hepatitis after open-heart surgery using, 511
— flow, cerebral, relation to senile dementia, 555
—, coronary, effect of diazoxide on, 505
— gas tensions in chronic asthma, changes with disodium cromoglycate treatment, 540
— glucose, *see* Glucose
— platelet count, influence on incidence of thrombotic and haemorrhagic complications of polycythaemia vera, 537
— survival time in idiopathic thrombocytopenic purpura, 537
— viscosity in congenital heart disease, 564
- Bone pathology and calcium metabolism in adult coeliac disease, 519
- Brain damage in persistent oral dyskinesia, 555
— tumour presenting as acute meningeal syndrome, 552
- Bread iodation for goitre prophylaxis, 545
— in endemic goitre area, increase in thyrotoxicosis after, 545
- Bretylium tosylate in refractory ventricular arrhythmias complicating myocardial infarction, 528
- Bronchitis, chronic, additional irritant factors in, 542
—, —, purulent, rifamycin and rifampicin in, 541
- Bronchography, *see also* Alveolobronchography
— with barium suspension in polyvinyl alcohol, 573
- Calcinosis universalis, aluminium hydroxide in, 563
- Calcitonin, renal effects, 543
- Calcium, *see also* Hypercalcaemia
— metabolism and bone pathology in adult coeliac disease, 519
- Campbell de Morgan spots, outbreak in Lancashire, 559
- Candida infection after open-heart surgery, serological evidence, 504
- Carbamazepine in trigeminal neuralgia, 554
— prophylaxis of migraine, 552
- Cardiovascular system, 525-36
- Cardioversion, conscious analgesia and amnesia for, 572
- Carditis, rheumatic, chronic, decreasing incidence of history of acute rheumatic fever in, 548
- Catheterization, percutaneous, of frontal vein for visualization of orbital veins and cavernous sinuses, 573
- Cerebrospinal fluid, homovanillic acid concentration in L-dopa treated Parkinsonism, 553
- Children, *see also* Infants
— acute hemiplegia in, natural history, 565
—, asthmatic, histamine binding power of serum from, 516
—, —, distribution in blood, 516
—, cholera in, fluid replacement solutions in, comparison, 515
—, lymphoid hyperplasia of colon in, radiological study, 575
- Chlorpromazine, plasma levels and urinary excretion of four dosage forms, 505
- Cholera in children, fluid replacement solutions in, comparison, 515
- Chondrocalcinosis, idiopathic, relation of arthropathy to, 549
- Chromosome abnormalities associated with myeloid leukaemia in Hodgkin's disease, 538
— complement, prenatal determination, 567
- Circulation, left-to-right shunts, cardiovascular abnormalities after, 527
- Cirrhosis, *see* Liver
- Clofazimine in reactive phases of lepromatous leprosy, 514
- Coalminers, diabetic, pneumoconiosis in, 571
- Coeliac axis compression syndrome, 532
— disease, adult, calcium metabolism and bone pathology in, 519
—, digestion of gluten peptides by jejunal mucosa in, 524
—, effect on fertility, 523
—, oral prednisolone in, response of jejunal mucosa to, 524
—, peptide hydrolase activity of human intestinal mucosa in, 524

SUBJECT INDEX

Coffee ingestion, effect on adrenocortical function in young men and dogs, 506
 Colon, lymphoid hyperplasia in children, radiological study, 575
 Complement changes in children with acute nephritis, 501
 Coronary heart disease, risk factors and, review, 531*
 Contraceptive, oral, cryofibrinogenaemia in women using, 507
 —, —, combined oestrogen-progestogen, effect on serum levels of proteins, 507
 —, —, medical aspects, review, 507*
 Corticotrophin, effect on pituitary-adrenal function, 506
 — treatment, pituitary-adrenal response to surgical stress during, 543
 Cortisone withdrawal syndrome in rheumatoid arthritis, management, 550
 Cranium bifidum, occipital, report of 74 cases, 565
 Cromoglycate, *see* Disodium cromoglycate
 Cryofibrinogenaemia in women using oral contraceptives, 507
 Cryothalamectomy for relief of intention tremor, 553

Death, sudden, from myocardial infarction, predisposing factors, 529
 —, —, in infants, role of viruses, 561
 Dementia, senile, relation of cerebral blood flow to, 555
 Depression, bilateral and unilateral electric shock therapy for, amnesic and therapeutic effects, 555
 —, primary or manic, 3',5' cyclic adenosine monophosphate excretion in, 556
 Dermal hypoplasia syndrome, focal, review and report of cases, 557
 Dermatitis, contact, due to enzyme detergents, 557
 Dermatology, 557-9
 Dermatomyositis, endothelial inclusions in, 500
 Detergents, enzyme, contact dermatitis due to, 557
 Diabetes mellitus, "brittle", due to insulin-induced posthypoglycaemic hyperglycaemia, 547
 — in coalminers, association with pneumoconiosis, 571
 —, parental, differential serum responses of children to intravenous glucose and tolbutamide, 547
 —, scleroderma in, 559
 Diazepam in neurological disorders with excessive motor activity, 551
 Diazoxide, effect on coronary blood flow, 505
 —, intravenous, in severe hypertension, 534
 Disodium cromoglycate activity in three *in vitro* models of immediate hypersensitivity reaction in lung, 517
 — in chronic asthma, changes in blood gas tensions and functional residual capacity with, 540
 — inhibition of allergic reactions in man and other species, 518
 L-Dopa in Parkinsonism, 552
 Ductus arteriosus, patent, cardiovascular abnormalities after surgery for left-to-right shunts, 527
 Dyskinesia, oral, brain damage in, 555
 —, —, phenothiazine-induced, treatment, 555

EB virus antibody, prevalence, incidence, and persistence in young adults, 509

Effusion, neoplastic pleural, local instillation of quinaquine hydrochloride in, 542
 Electrocardiogram abnormalities in diphtheritic myocarditis, 508
 — changes, ischaemic, after truncal vagotomy, 525
 Electroencephalogram abnormalities in hypercalcaemia, 551
 Electroshock, *see* Shock
 Emphysema, bullous, surgical treatment, changes in lung function after, 540
 —, chronic, selective alveolobronchography in, 574
 —, lung transplantation in, regional ventilation and perfusion after, 541
 Encephalitis, *see* Meningoencephalitis
 Endocrinology, 543-7
 Epilepsy, albutoin in, clinical trial, 552
 —, myotonic, diazepam in, 551
 Ergotamine and ergometrine, effect on forearm venous compliance, 506
 Erythrocyte size determinants in chronic liver disease, 537
 Exercise, early and vigorous, effects on recovery from infective hepatitis, 510

Fertility, effect of coeliac disease on, 523
 Fibrosis, cystic, in young adults, pulmonary function and radiological patterns in, 540
 Fistula, pulmonary arteriovenous, 526
 Fluorochrome method for detection of malaria parasites, 502

Gastric secretion study, positioning of subject and of nasogastric tube during, 520
 Gastroenterology, 520-4
 Genetics, medical, 567-8
 Glucagon stimulation test for detection of growth hormone deficiency, 544
 Glucocorticoids, adrenal, 20-year review of clinically relevant consequences* 507
 Glucose and essential amino acids, synergistic effect on insulin secretion, 546
 — intolerance, mechanism after starvation, 546
 — level in blood, measurement by test strips with colour meter, 498
 Gluten peptide digestion by jejunal mucosa from healthy subjects and from patients with adult coeliac disease, 524
 Goitre, endemic, increase in thyrotoxicosis after bread iodation in, 545
 — prophylaxis by addition of potassium iodate to bread, 545
 Gonorrhoea, *see also* Neisseria
 —, asymptomatic, in women, evaluation of diagnostic methods, 512
 —, high dosage procaine penicillin with ampicillin in, 512
 Growth hormone deficiency, detection by glucagon stimulation test, 544
 —, permanent and irreversible hypersecretion in acromegaly, 544

Haematemesia, factors influencing outcome, 521
 Haematology, clinical, 537-9
 Haemolytic disease of the newborn, developmental study of cognitive and personality characteristics associated with, 561
 Haemostasis in cyanotic congenital heart disease, 564
 Hay fever, methylprednisolone acetate in, clinical and endocrine side-effects, 516

Heart, *see also* Carditis; Myocardial infarction; Myocarditis
 — defect, atrial and ventricular septal, cardiovascular abnormalities after surgery for left-to-right shunts, 527
 — disease, congenital, hyperviscosity in, 564
 —, —, with decreased pulmonary blood flow, superior vena cava-right pulmonary artery anastomosis in, 527
 —, —, cyanotic, blood coagulation factor changes in, 563
 —, —, congenital, haemostasis in, 564
 —, —, polycythaemia in, 563
 —, —, rheumatic, *see* Carditis
 — failure, congestive, plasma renin activity in, 525
 — surgery, open, posttransfusion hepatitis after, comparison of commercial and volunteer donors, 511
 —, —, serological evidence of candida infection after, 504
 Hemiplegia, acute, of childhood, natural history, 565
 Hepatitis, Australia antigen in, presence and persistence in Sweden, 502
 —, chronic persistent, prognosis, 522
 —, immune complexes in, 504
 —, infective, effects of early and vigorous exercise on recovery, 510
 —, —, liver function tests in, computer analysis, 511
 —, posttransfusion, after open-heart surgery, comparison of commercial and volunteer donors, 511
 Herpes simplex virus, isolation of two variants from simultaneous eruptions at different sites, 511*
 Histamine binding power of serum from healthy and asthmatic children, 516
 — distribution in blood of healthy and asthmatic children, 516
 Hodgkin's disease, myeloid leukaemia in, chromosome abnormalities associated with, 538
 Homovanillic acid concentration in cerebrospinal fluid in L-dopa treated Parkinsonism 553
 Hyaline bodies in subepidermal papillae, immunohistochemical studies in dermatoses, 500
 — membrane disease, effects of intermittent positive pressure ventilation on lung function in, 560
 Hydatid disease, diagnosis and prognosis by immunological tests, 503
 Hypercalcaemia, electroencephalographic abnormalities in, 551
 Hyperglycaemia, insulin-induced posthypoglycaemic as cause of "brittle" diabetes, 547
 Hyperparathyroidism, primary, changing clinical, surgical, and pathological aspects, 543
 Hypertension, essential, arteriographic and haemodynamic assessment of interlobar and arcuate arteries in, 536
 —, —, renin secretion in, 536
 —, —, vasodilator PDP with propranolol in, 533
 —, labile arterial, haemodynamic study, 533
 —, portal, influence on prognosis of liver cirrhosis, 522
 —, propranolol in, controlled trial, 534
 —, renovascular, pyelogram urea wash-out test in evaluation, 535
 —, —, renal vein renin activity in prognosis of surgical treatment, 535
 —, severe, intravenous diazoxide in, 534
 Hypopituitarism diagnosis, estimation of plasma nonesterified fatty acid levels in, 544
 Hypothyroidism presenting with musculoskeletal symptoms, 545

SUBJECT INDEX

- Immunoconglutinin changes in children with acute nephritis, 501
 Immunoglobulin G, antilymphocytic, effect on established autoimmune thyroiditis in rats, 501
Industrial medicine, 569-71
 Infant(s), dysmature, motor behaviour, 561
 — feeding, acceptance of unsalted strained foods in, 560
 —, small-for-dates, *see* Infants, dysmature
Infectious diseases, 508-11
 Influenza A2, amantadine treatment, 510
 Insulin-induced posthypoglycaemic hyperglycaemia as cause of "brittle" diabetes, 547
 — secretion, effect of intravenous infusion of secretin and pancreozymin on, 546
 —, synergistic effect of certain amino acid pairs on, 546
 —, —, — essential amino acids and glucose on, 546
 Iron deposits in lymph nodes in rheumatoid arthritis, 499

 Kidney, *see also* Nephritis
 — disease, chronic, renal clearance of amylase in, 498
 — failure due to methoxyflurane anaesthesia with tetracycline, 572

 Lamprone, *see* Clofazimine
 Larynx, histological changes in relation to smoking habits, 499
 Leprosy, lepromatous, reactive phases, clofazimine in, 514
 —, rifampicin in, experimental and clinical studies, 514
 Leukaemia, acute, L-asparaginase treatment, 538
 —, chronic erythromonocytic, 539
 —, myeloid, in Hodgkin's disease, chromosome abnormalities associated with, 538
 Lichen amyloidosis, clinical study, 557
 Liver, *see also* Hepatitis
 — cirrhosis, latent, study of 95 cases, 522*
 — prognosis, influence of portal hypertension on, 522
 — disease, chronic, determinants of erythrocyte size in, 537
 — diagnosis by ultrasonic and isotope scanning, 574
 —, subclinical, mitochondrial antibodies and, 521
 — function tests in infective hepatitis, computer analysis, 511
 Lung, diffusing capacity, disturbance in rheumatoid arthritis and systemic lupus erythematosus, 548
 — function changes after surgical treatment of bullous emphysema, 540
 — in chronic beryllium disease, 571
 — functional residual capacity, in chronic asthma, changes with disodium cromoglycate treatment, 540
 —, radioisotope scanning in surgical practice, 574
 —, total irradiation for metastatic tumour, 576
 — transplantation in emphysema, regional ventilation and perfusion after, 541
 Lupus erythematosus, systemic, disturbance of pulmonary diffusing capacity in, 548
 —, —, "rheumatoid" nodules in, 548

 Lymph node iron deposits in rheumatoid arthritis, 499
 Lymphoid hyperplasia of colon in children, radiological study, 575

 Malaria parasites, detection by fluorochrome method, 502
 — resistance in sickle-cell trait, increased sickling of parasitized erythrocytes as mechanism of, 515
 Measles virus, haemagglutination inhibiting antibody titre, elevation in acute aseptic meningitis, 565
 Mefruside, acute diuretic effects, 505
 Melaena, factors influencing outcome, 521
 Melanoma cells, malignant, autologous extracts, skin hypersensitivity reactions to, 501
 —, malignant, immunological studies, 501
 Melioidosis, report of ten cases, 514
 Meningitis, acute aseptic, elevation of titre of haemagglutination inhibiting antibody to measles virus in, 565
 —, meningococcal and echovirus 9, outbreak, 569
 Meningoencephalitis, primary amoebic, in Britain, 509
 Mepacrine hydrochloride, local instillation, in neoplastic pleural effusions, 542
Metabolism, 519
 Metampicillin in salmonellosis, clinical trial, 508
 Methotrexate, parenteral, in psoriasis, efficacy and toxicity, 558
 Methoxyflurane anaesthesia with tetracycline, renal effects, 572
 Methylprednisolone acetate in hay fever, clinical and endocrine side-effects, 516
Microbiology, 502-4
 Migraine, aetiology and carbamazepine prophylaxis, 552
 Mitochondria antibodies and subclinical liver disease, 521
 Mononucleosis, infectious, link with EB virus infection, 509
 Mycoplasma in post-gonococcal urethritis, prospective study, 513
 — and "nonspecific" genital infection, previous studies, laboratory, and clinical aspects, 513
 —, T-strain, in nongonococcal urethritis, 512
 Myocardial infarction, acute, D-alprenolol for acute arrhythmias in, 528
 —, —, haemodynamic effects of D-propranolol in, 506
 —, —, pentaerythritol tetranitrate in, 531
 —, —, preventive management outside coronary care unit, 530
 —, —, refractory ventricular arrhythmias in, bretylium tosylate treatment, 528
 —, sudden death in, predisposing factors, 529
 —, unrecognized, follow-up experience in Framingham study, 530
 Myocarditis, diphtheritic, electrocardiographic abnormalities and serum transaminase levels in, 508
 Myocardium hyperexcitability, ajmaline prophylaxis and treatment of arrhythmias in, 528

 Naevus sebaceus, report of 140 cases and development of secondary malignant tumours in, 559
Neisseria gonorrhoeae, *in vitro* activity of twelve antibacterial agents against, 512

 Nephritis, acute, in children, immunoconglutinin and complement changes in, 501
 Neuralgia, trigeminal, carbamazepine in, 554
 —, —, idiopathic and symptomatic of disease, 554
 Neurofibromatosis, multiple, somatic variation and, 567
Neurology and neurosurgery, 551-4
 Nitrogen mustard, intraarticular, in rheumatoid arthritis, 550
Nutrition, 519

 Oedema, pulmonary, at high altitude, relation of peripheral vasomotor responses to, 526
 Oesophagus motility, relation of lower oesophageal sphincter pressures to reflux, 520
 Opiates in premedication, 572
 Oxygen consumption, effect of thiopentone on, 572

Paediatrics, 560-6. For details *see* Children; Infants
 Paget's, disease of bone, radiotherapy, 576
 Pancreatitis, acute, renal clearance of amylase in, 498
 Pancreozymin, intravenous infusion of, effect on insulin secretion, 546
 — and secretin infusions, response to in health and disease, 522
 Paralysis, respiratory, late onset after poliomyelitis, 510
 Parasitism, intestinal, association of bronchial asthma with, 517
Parasitology, 502-4
 Parathyroid, *see* Hyperparathyroidism
 Parkinsonism, L-dopa treated, homovanillic acid concentration in cerebrospinal fluid, 553
 —, in, 552
Pathology, 498-501
 PDP vasodilator with propranolol in essential hypertension, 533
 Penicillin, *see also* Procaine penicillin
 — allergy, specific hyposensitization in, 517
 Pentaerythritol tetranitrate in acute myocardial infarction, 531
 Pentanitol prophylaxis of angina pectoris, comparison with alprenolol, 529
 Peptide hydrolase activity of intestinal mucosa in adult coeliac disease, 524
 Personality characteristics associated with haemolytic disease of newborn, developmental study, 561
 Phaeochromocytoma, diagnosis by modified phenolamine test, 543
Pharmacology, 505-7
 Phenothiazine-induced persistent oral dyskinesia, treatment, 555
 Phenolamine test, modification for diagnosis of phaeochromocytoma, 543
 Phenylketonuria, atypical, 562
 —, evaluation of treatment begun in first three months of life, 562
 Pituitary, *see also* Hypopituitarism
 — adrenal function, effect of corticotrophin treatment on, 506
 — response to surgical stress during corticotrophin treatment, 543
 Platelet, *see* Blood
 Pneumoconiosis in diabetic coalminers, 571
 Pneumonia, atypical, caused by rhinoviruses, 542
 Poliomyelitis, late onset of respiratory paralysis after, 510

SUBJECT INDEX

- Polycythaemia in cyanotic heart disease, 563
 — vera, thrombotic and haemorrhagic complications, influence of platelet count on incidence, 537
 Posture of subject and position of nasogastric tube during gastric secretion study, 520
 Potassium iodate addition to bread for goitre prophylaxis, 545
 Prednisolone, *see also* Methylprednisolone
 —, oral, in adult coeliac disease, response of jejunal mucosa to, 524
 Premedication, opiates for, 572
 Procaine penicillin with ampicillin in gonorrhoea, 512
 Propranidol, effect on adrenocortical function, 572
 Propranolol in hypertension, controlled trial, 534
 — with vasodilator PDP in essential hypertension, 533
 D-Propranolol in acute myocardial infarction, haemodynamic effects, 506
 Prostaglandin E₁ aerosol, effect on airways resistance in healthy and asthmatic subjects, 505
 Protein concentration in serum in normal infants, 499*
 Psoriasis, parenteral methotrexate in, efficacy and toxicity, 558
 —, zinc therapy and distribution, 558
Psychiatry, 555-6
Public health, 569-71
 Pulseless disease, angiography in, 573
 Purpura, idiopathic thrombocytopenic, platelet survival time and surface radioactivity in, 537
 Pyelogram urea washout test in renovascular hypertension, 535

 Quadriplegia, hereditary spastic, mode of inheritance, 568

R factor evolution, study of "preantibiotic" community in Borneo, 503
 Radiation-induced skin carcinoma of head and neck, 576
 Radioisotope scanning of lungs in surgical practice, 574
Radiology, 573-6
 Raynaud's disease, intraarterial reserpine in, 526
 Renin activity in plasma in congestive heart disease, 525
 — — renal vein in prognosis of surgery for renovascular hypertension, 535
 — secretion in essential hypertension, 536
 Reserpine, intraarterial, in Raynaud's disease, 526
Respiratory system, 540-2
 Retina vessels, fluorescence angiography in aortic coarctation, 525
Rheumatic diseases, 548-50
 Rheumatic fever, acute, decreasing incidence in history of chronic rheumatic carditis, 548
 — —, immunofluorescence in serological diagnosis, 503
 Rhinovirus, atypical pneumonia due to, 542
 Rifampicin in leprosy, experimental and clinical studies, 514
 Rifamycin and rifampicin in chronic purulent bronchitis, 541

 Salmonellosis, metampicillin in, clinical trial, 508
 Schizophrenia, acute, crises and life changes preceding onset or relapse, clinical aspects, 556
 —, hallucinogenic drugs in, mode of action (review article), 489
 Scleroderma in diabetes mellitus, 559
 Sclerosis, systemic, progressive, neurological manifestations, 548
 Secretin, intravenous infusion, effect on insulin secretion, 546
 — and pancreozymin infusion, response in health and disease, 522
 Sewage sludge, conditioning and disinfection by gamma irradiation, 569
 Sex, prenatal determination, 567
 —, — prediction by culture of amniotic fluid cells, 567
 Shock therapy, electric, bilateral and unilateral, amnesic and therapeutic effects, 555
 Shunt, *see* Circulation
 Sick-cell trait, malaria resistance in, increased sickling of parasitized erythrocytes as mechanism of, 515
 Sinus, cavernous, visualization by percutaneous catheterization of frontal vein, 573
 Skin carcinoma, radiation-induced, of head and neck, 576
 Skull, *see* Cranium
 Smallpox vaccination by intradermal jet injection, 569, 570
 Smoking, *see* Tobacco
 Spasm, flexion, agenesis of corpus callosum, and choroidoretinal anomalies, syndrome, 566
 Starvation, glucose intolerance mechanism after, 546
 Streptokinase in chronic arterial occlusive disease, 531

 Tegretol, *see* Carbamazepine
 Tetanus, betamethasone in, 508
 Tetracycline with methoxyflurane anaesthesia, renal effects, 572
 Thalamus, *see* Cryothalamectomy
 Thalassaemia intermedia, genetic study, 568
Therapeutics, 505-7
 Thiopentone, effect on oxygen consumption, 572
 Thrombosis, arterial, chronic, streptokinase treatment, 531
 Thyroid, *see also* Hypothyroidism
 Thyroiditis, autoallergic, effect of administering antilymphocytic IgG on, 501
 Thyrotoxicosis increase in endemic goitre area after iodation of bread, 545
 Tobacco smoking, change in airway conductance on, relation to smoking habits and symptoms of chronic bronchitis, 541
 —, relation to histological changes in larynx, 499
 Toxoplasma, virulent, life cycle in cell cultures, 502
 Transaminase levels in serum in diphtheritic myocarditis, 508
 Transposition of great arteries, balloon atrial septostomy in infancy, 527
 Trasylol, intraarticular, in rheumatoid arthritis, 549
 Tremor, intention, relief by thalamic surgery, 553
Tropical medicine, 514-5
 Tryptophan metabolites, arthritogenic effect in rabbits, 498
 Twins, environmental influences apparent at birth, 567

 Ulcer, peptic, correlation between radiological findings in stomach and duodenum and gastric acid secretion in, 520
 Ultrasonic scanning in diagnosis of liver disease, comparison with isotopes, 574
 Urethritis, nongonococcal, T-strain toxoplasma in, 512
 —, postgonococcal, mycoplasma in, prospective study, 513

 Vagotomy, truncal, ischaemic electrocardiographic changes after, 525
 Veins, orbital, visualization by percutaneous catheterization of frontal vein, 573
Veneral diseases, 512-3
 Venous compliance, forearm, effect of ergotamine and ergometrine on, 506
 Ventilation, intermittent positive pressure, in hyaline membrane disease, effects on lung function, 560

 Xanthomatosis, hyperlipidaemic, treatment, 519

 Zinc therapy and distribution in psoriasis, 558
 Zollinger-Ellison syndrome, bioassay in diagnosis, 520

SUBJECT INDEX

An asterisk denotes title and reference only

- Abortion, therapeutic, follow-up study of patients after referral, 632
- Acne vulgaris in adolescent men, sebum excretion and composition in, 637
- Acromegaly, causes of death in, 623
- Adenosinetriphosphatase activity of cellular organelles in experimental potassium depletion cardiomyopathy, 577
- Adrenal cortical function in children on prednisolone treatment, 643
- unresponsiveness to corticotrophin, hereditary, 646
- Aerosol, pressure packed in asthma, cardiac and bronchodilator effects, 590
- Age, effect on metaplasia of bronchial epithelium, 579
- , relation of cushion-like lesions of intramyocardial lesions to, 579
- Airways obstruction, chronic, relation between sensitivity to carbon dioxide and clinical features in, 619
- Alkalinization, prophylactic, in delivery room for respiratory distress syndrome of newborn infants, 639
- Allergen inhalation associated with nephrotic syndrome, 621
- Allergy, 601
- practice in military service, review, 601*
- Ambilhar, *see* Niridazole
- Amiloride alone and with hydrochlorothiazide, chlorothiazide, and ethacrynic acid in oedema, 587
- Ammonia metabolism in liver disease, 607
- Amoebiasis, chronic intestinal, paromomycin treatment, 599
- , intestinal and extraintestinal, antibody response, 586
- Amphotericin B in cryptococcal meningitis, long-term results, 594
- Ampicillin in acute otitis media, 641
- gonorrhoea, clinical evaluation, 597
- Anaemia, association with laundry starch and clay ingestion in New York City, 615
- , autoimmune haemolytic, heparin in, 615
- , pernicious, serum gastrin concentration in, 605
- , refractory, with excess myeloblasts in bone marrow, 615
- Anaesthetics, 652-3
- Angina pectoris, perhexiline maleate in, clinical evaluation, 612
- , rapidity of hypotensive effect of short-acting nitrous compounds in, 589
- Antielastase activity in serum in silicosis, 650
- Antiglobulin reaction, history, and evolution, application in clinical and experimental medicine, 578*
- test, human positive, during carbromal treatment, 578
- Arteries, coronary, *see* Coronary
- , intramyocardial, cushion-like intimal lesions, relation to age, sex, coronary atherosclerosis, and certain diseases, 579
- Arthritis, *see also* Osteoarthritis
- , rheumatoid, and articular chondrocalcinosis, 628
- , —, association with multiple myeloma, 628
- , —, — plasma cell and lymphocytic neoplasms, 627
- , —, methiazinic acid and indomethacin in, comparison, 628
- Arthritis, rheumatoid, Rose-Waaler negative, diagnosis by rheumatoid rosette phenomenon, 577
- , —, seronegative, elevated IgG antiglobulins in, 627
- Ascorbic acid level in leucocytes in the elderly, urinary hydroxyproline as index of collagen metabolism in, 638
- L-Asparaginase, *Escherichia coli* in leukaemia, lymphoma, and solid tumours in adults, clinical results, 592
- , —, —, and solid tumours in children, 592
- , —, —, toxicity in man, 592
- Aspirin-induced gastric mucosal injury, role of acid secretion in, 605
- Asthma, oral and inhaled salbutamol in, bronchodilator effects, 591
- , pressure packed aerosols in, cardiac and bronchodilator effects, 590
- relief in an Alpine valley, aerobiology and, 601
- Ataxia-telangiectasia, chromosomal abnormalities in, 646
- Australia-SH antigen in sporadic viral hepatitis in London, 584
- Bacteriuria in two selected neonatal populations, 640
- Barbiturate intoxication, rapid diagnosis by gas chromatography, 651
- BCG revaccination, immediate effects, 595
- Benzylpenicillin in acute otitis media, 641
- Bile salt secretion in liver cirrhosis, quantitative study, 607
- Bilharziasis control in Iran, mass chemotherapy with niridazole for, 600
- Blood, *see also* Antiglobulin; leucocyte
- circulation, *see* Circulation
- flow, femoral venous, effect of externally applied pressure on, 613
- groups, Xg, and clonal origin theory of chronic myeloid leukaemia, 616
- platelet stickiness, effect of phenformin with ethyloestrenol or stanozolol on, 613
- pressure, *see also* Hypertension
- , —, association between circulating haemoglobin level, serum cholesterol and, 615
- Bone tuberculosis, *see* Tuberculosis, skeletal
- Brain recovery processes after drug overdose, 651
- Bronchitis, chronic, enzyme activities in mucous membrane of small intestine in, 609
- exacerbation, prevention with sulfametypyrazine, 618
- in children, urban and social origins in England and Wales, 647
- Bronchus carcinoma, preoperative assessment by lung scanning, 654
- epithelium metaplasia, effect of age, sex, and smoking, 579
- Bupivacaine, duration of action, 652
- Calcium, *see* Hypercalcaemia
- Calculus, renal, urinary fibrinolytic activity as protection against, 621
- Carbenoxolone sodium capsules in duodenal ulcer, 606
- Carbon dioxide, effect on ventilatory response to hypoxia in newborn infants, 639
- sensitivity, relation to clinical features of chronic airways obstruction, 619
- monoxide intoxication with peripheral neuropathy, 630
- Carbromal treatment, positive anti-human globulin test during, 578
- Cardiomyopathy, experimental potassium depletion, adenosinetriphosphatase activity of cellular organelles in, 577

- Histiocyte, sea-blue, with splenomegaly, syndrome, 604
- Hodgkin's disease, nitrogen mustard and vinblastine sulphate in, comparison, 617
- Homeostasis, acute postural, role of renin in, 614
- Hyaline membrane disease of newborn, atypical radiological appearances of lung in, 655
- 11-Hydroxycorticosteroid suppression and nonsuppression in severe depressive illness, clinical association, 634
- Hydroxyproline, urinary, measurement in the elderly with low leucocyte ascorbic acid levels, 638
- 5-Hydroxytryptamine, *see* Serotonin
- Hymenoptera sensitivity, relation of allergic disposition to, 601
- Hyperaldosteronism, falsely high plasma potassium values in, 583
- Hypercalcaemia, mithramycin in, 604
- Hyperlipoproteinaemia, effect of SU-13437 on serum lipids in, 602
- Hyperparathyroidism, primary, plasma magnesium concentration in, 622
- , secondary, in osteomalacia, 603
- Hypertension, essential, cardiac causes of death in, 580
- , —, oral frusemide in, 614
- , —, prostaglandin PGA₁ in, haemodynamic and renal effects, 590
- Hyperthyroidism, *see* Thyrotoxicosis
- Hypoglycaemia in children with kwashiorkor, 599
- Hypothermia, deep, successful recovery from, 603
- Hypothyroidism and plasma growth hormone content in children, influence of treatment on response to stimulation, 642
- Hypoxia in newborn infants, effect of carbon dioxide on ventilatory response, 639
- Immunoglobulin G antiglobulins, elevation in seronegative rheumatoid arthritis, 627
- levels in cerebrospinal fluid, 577
- , normal, in multiple myeloma, effect of melphalan treatment, 617
- M antibody test, specific, in neonatal congenital syphilis, 597

SUBJECT INDEX

Indomethacin in rheumatoid arthritis, comparison with methiazinic acid, 628
Industrial medicine, 647-50
 Infants, newborn, hypoxic, effect of carbon dioxide on ventilatory response in, 639
 —, jaundice in, phenobarbitone treatment, 639
 —, urinary infection in, 640
 Infection, bacterial, acquisition during respiratory resuscitation of newborn infants, 640
Infectious diseases, 593-4
 —, review of significant publications, 594*
 Influenza, *see also* Parainfluenza
 — vaccine, fatal haemolytic streptococcal septicaemia after mass inoculation, 649*
 Insect sting hypersensitivity, relation of allergic disposition to, 601
 Insulin, *see also* Shock
 — level in plasma during cortisone glucose tolerance tests in "nondiabetic" relatives of diabetic patients, 625
 — — —, effect of isocaloric exchange of dietary starch and sucrose on, 602
 — secretion during clinical remission of diabetes, 626
 Ion excretion, divalent, in chronic kidney disease, relation to degree of renal insufficiency, 620
 β -Irradiation in chronic eczema and psoriasis, 636
 Isoniazid self-poisoning, 651

 Jaundice, neonatal, phenobarbitone in, 639
 Jejunum disease in children, review, 645*
 —, mucous membrane, enzyme activities in chronic bronchitis, 609

 Kaposi's sarcoma in East African children, 641
 Kidney, *see also* Nephritis
 — disease, chronic, relation of divalent ion excretion to degree of renal insufficiency in, 620
 —, diagnosis, 620*
 —, xylitol metabolism in, 602
 — necrosis, papillary, seasonal variation in postmortem incidence, 648
 — pathology in haemolytic-uraemic syndrome, 581
 — transplant, cadaver, angiographic signs of rejection, 656
 Klinefelter's syndrome, testosterone in, 622
 Kwashiorkor, hypoglycaemia in children with, 599

 Laundry starch ingestion, association with anaemia in New York City, 615
 Leptomeningitis, chronic, in closed head injuries, 579
 Leucocyte reaction, mixed, as possible test of zygosity in twins, 646
 Leucotomy, bimodal prefrontal, 631
 Leukaemia, acute, long complete remission in, 616
 —, chronic myelocytic, Philadelphia-chromosome-positive and -negative, 617
 —, myeloid, Xg blood groups and clonal origin theory of, 616
 —, *E. coli* L-asparaginase in, 592
 —, familial acute myelogenous, possible inherited leukaemogenic factors in, 616
 Lignocaine, duration of action, 652

Lipid level in serum, effect of isocaloric exchange of dietary starch and sucrose on, 602
 Lipoprotein, *see* Hyperlipoproteinaemia
 Lithiasis, *see* Calculus
 Liver, *see also* Coma; Hepatitis; Hepatosplenomegaly
 — cirrhosis, bile salt secretion in, quantitative study, 607
 — disease, ammonia metabolism in, 607
 Louis Bar's syndrome, chromosomal abnormalities in, 646
 Lung disease, chronic nonspecific, serotonin inhalation in, 619
 — — —, obstructive, graded exercise training in, 619
 — scanning in preoperative assessment of bronchial carcinoma, 654
 Lymphoma, *E. coli* L-asparaginase in, 592
 Lysozyme, *see* Muramidase

 Magnesium concentration in plasma in primary hyperparathyroidism, 622
 Malabsorption, intestinal, due to oral colchicine, comparison with neomycin and cathartic agents, 587
 Mania, cinaserin in, 635
 —, lithium in, review, 635*
 Mantoux test, quantitative, in sarcoidosis, 586
 Melphalan in multiple myeloma, effect on normal immunoglobulins, 617
 Membrane, *see also* Synovial
 —, serosal, fibrinolytic activity in, 582
 Meningioma recurrence, prediction, 578
 Meningitis, *see also* Leptomeningitis
 —, cryptococcal, amphotericin B in, long-term results, 594
 Mental retardation, microcephaly and, 645
 Mesoridazine and chlorpromazine, parenteral, in psychosis, comparison, 632
Metabolism, 602-4
 Methaemoglobinaemia due to drinking water with high nitrate content, psychophysiological reactions in children with, 651
 Methiazinic acid in ankylosing spondylitis, osteoarthritis of hip, and psoriatic rheumatism, 627
 — — — rheumatoid arthritis, comparison with indomethacin, 628
 Methotrexate, oral, in intermittent high dose in psoriasis, 636
 Methysergide treatment, pleural effusion and fibrosis during, 588
 Metoclopramide causing dystonic reactions in children, 587
Microbiology, 584-6
 Microcephaly and mental retardation, 645
 Mithramycin in hypercalcaemia, 604
 Mitral, *see* Heart
 Mood-altering drugs, physicians' use of, 634
 Mucoviscidosis, latent, possible relationship between silicosis and, 650
 Muramidase activity in plasma, methods of assay and clinical applications, 583
 — estimation in biological fluids, diagnostic value, 583
 Muscular atrophy, progressive spinal, in children, increased incidence in West Germany, 645
 — dystrophy in young girls, 630
 Mycoplasma, "T", human strains, associated with nongonococcal urethritis, 596
 Myeloblast, excess, in bone marrow in refractory anaemia, 615
 Myelography, predictive value in diagnosis of ruptured lumbar discs, 654

Myeloma, multiple, association with rheumatoid arthritis, 628
 —, melphalan treatment, effect on normal immunoglobulins, 617
 Myocardial infarction, acute, complicated by heart block, sequential atrioventricular pacing in, 611
 —, prehospital reanimation, problems of organization and effectiveness, 612

 Narcotic-tranquillizer combinations, effect on respiratory depression, 653
Neisseria meningitidis, a respiratory pathogen? 584
 Neoplasia, plasma cell, antecedent rheumatoid arthritis in, 627
 Nephritis, glomerular, symptom-poor, clinical and morphological features, 621
 —, pyelo-, lenta, childhood urinary infection as forerunner of renal insufficiency in later life, 621*
 Nephrotic syndrome associated with inhaled allergens, 621
 Neurofibromatosis in children, 644
Neurology and neurosurgery, 629-30
 Neuropathy, peripheral, after carbon monoxide intoxication, 630
 Niridazole in mass chemotherapy of bilharziasis in Iran, 600
 — urinary schistosomiasis, 600
 Nitrogen mustard in Hodgkin's disease, comparison with vinblastine sulphate, 617
 Nitrous compounds, short-acting, rapid hypotensive effects, 589
 Noradrenaline metabolism in rat brain, effects of tranlycpromine on, 588
Nutrition, 602-4

 Obesity, tissue changes during intermittent starvation and caloric restriction in, 604
 Observer variation in clinical and radiological assessment of hepatosplenomegaly, 655
 Oedema, amiloride alone and with hydrochlorothiazide, chlorothiazide, and ethacrynic acid in, 587
 Oesophagitis, reflux, histological consequences, 580
 Osteoarthritis of hip, methiazinic acid in, 627
 Osteomalacia, secondary hyperparathyroidism in, 603
 Otitis media, acute, treatment, 641
 Oxygen, *see* Hypoxia

 Pacing, sequential atrioventricular, in heart block complicating acute myocardial infarction, 611
Paediatrics, 639-45
 Pancreatitis, chronic, spontaneous evolution, long-term study, 608
 Parainfluenza virus associated with outbreak of acute respiratory disease in Trinidad, 647
Parasitology, 584-6
 Parathyroid, *see* Hyperparathyroidism
 Paromomycin in chronic intestinal amoebiasis, 599
Pathology, 577-83
 Penicillin, *see* Benzylpenicillin
 Pentazocine, oral, analgesic efficacy, 652
 —, sedative properties, 653
 Perhexiline maleate in angina pectoris, clinical evaluation, 612
 Petit mal, *see* Epilepsy

SUBJECT INDEX

Phaeochromocytoma, arteriographic appearance, 656
Pharmacology, 587-91
 Phenformin in insulin-dependent diabetes, 626
 —, site and mechanism of action, 588
 —, with ethyloestrenol or stanozolol, effect on platelet stickiness and fibrinolysis, 613
 Phenobarbitone in neonatal jaundice, 639
 Plasmapheresis with plasma exchange in hepatic coma, 608
 Pneumonia, evaluation by transtracheal aspiration of sputum, 618
 —, meningococcal, 584
 Porphyrria, cutaneous, current concepts and sodium calciumedetate treatment, 636
 Potassium depletion cardiomyopathy, experimental, adenosinetriphosphatase activity in cellular organelles in, 577
 — level in plasma, falsely high in hyperaldosteronism, 583
 Prednisolone treatment in children, effect on adrenal cortical function, 643
 Premedication, diazepam-containing mixtures in, 652
 Prilocaine, duration of action, 652
 Prostaglandin, PGA_1 , haemodynamic and renal effects in essential hypertension, 590
 Proteinuria, heavy, selectivity as guide to treatment, 620
 Psoriasis, beta irradiation in, 636
 —, intermittent high dose oral methotrexate in, 636
Psychiatry, 631-5
 Psychosis and temporal lobe epilepsy, 629
Public health, 647-50
 Pulseless disease, *see* Takayasu's disease
 Pyelonephritis, *see* Nephritis

Radiology, 654-6

Radiotherapy, creatinine phosphokinase activity during, 656
 Reagin test, automated, in syphilis, reliability compared with other tests, 598
 Reflux oesophagitis, histological consequences, 580
 Renin, role in acute postural homeostasis, 614
 Respiratory disease, acute, outbreak in Trinidad associated with parainfluenza viruses, 647
 — distress syndrome in newborn infants, prophylactic alkalinization in delivery room, 639
 — — —, radiological diagnosis and prognosis, 640
 — system, 618-9
 Resuscitation of newborn infants, severe bacterial infections acquired during, 640
 Retinopathy, diabetic, progression in relation to blood sugar level, 625
 Rheography, pulmonary, in heart disease, comparison with pulmonary artery pressure curves, 610
Rheumatic diseases, 627-8
 Rheumatism, psoriatic, methiazinic acid in, 627
 Rheumatoid, *see also* Arthritis
 — rosette phenomenon in diagnosis of Rose-Waaler negative rheumatoid arthritis, 577
 Rhinovirus Type 13 infection, experimental, comparison of protective effects of neutralizing antibody in serum and nasal secretions in, 585
 Rubella immunization of schoolchildren with intranasal and subcutaneous vaccine, 649

Salbutamol, oral and inhaled, in asthma, bronchodilator effects, 591
 Sarcoidosis, quantitative Mantoux test in, 586
 Schistosomiasis, urinary, niridazole in, 600
 Sclerosis, multiple, long-term survival in young men with, 630
 Sebum excretion and composition in adolescent men with and without acne vulgaris, 637
 Sedative intoxication, rapid diagnosis by gas chromatography, 651
 Senescence, subarachnoid haemorrhage in, 638
 —, vitamin K deficiency in, 638
 Serotonin inhalation in chronic non-specific lung disease, 619
 — test, intracutaneous, in thyroid disease and normal subjects, 623
 Sexual immaturity in boys, anabolic and androgenic effect of testosterone and dependence on growth hormone in, 643
 Shock therapy, insulin, impaired glucose tolerance as late effect of, 631
 Silicosis, antielastase activity in serum and, 650
 — and latent mucoviscidosis, possible relationship, 650
 Skin lesions, malignant and premalignant, local chemotherapy and immunotherapy, 637
 Sleep duration, syndrome associated with sleeping late, 633
 Smoking, *see* Tobacco
 Sodium calciumedetate in cutaneous porphyria, 636
 Speech in deaf, maladjusted children, relation of early diagnosis of deafness to, 632
 Spine, lumbar disc rupture, predictive value of myelography in diagnosis, 654
 Splenomegaly with sea-blue histiocytes, syndrome, 604
 Spondylitis, ankylosing, methiazinic acid treatment, 627
 Sputum, transtracheal aspiration in evaluation of pneumonia, 618
 Starch and sucrose, dietary, effect of isocaloric exchange on glucose tolerance, plasma insulin, and serum lipid levels, 602
 Starvation, intermittent, and caloric restriction for severe obesity, tissue changes during, 604
 Stomach mucosal injury, aspirin-induced, role of acid secretion in, 605
 Stroke survivors, hypotensive therapy for, 629
 SU-13437, effect on serum lipid levels in hyperlipoproteinaemia, 602
 Suicide, nonpsychotic, psychopathological approach to, 631
 Sulfametypyrazine in prevention of exacerbations of bronchitis, 618
 Synovial membrane, fibrinolytic activity in, 582
 Syphilis, congenital, in newborn, specific IgM antibody test in, 597
 —, infectivity tests, 598*
 —, treponema-like forms demonstrated in treated and untreated late, and in treated early cases, 598

Takayasu's disease, manifestations and aetiologies, 613
 Testosterone, anabolic and androgenic effect on sexually immature boys and dependency on growth hormone, 643
 — in Klinefelter's syndrome, 622

Tetralin phenoxyisobutyrate, *see* SU-13437
Therapeutics, 587-91
 Thyrotoxicosis in children, electrocardiographic study, 643
 —, intracutaneous serotonin test in, 623
 —, surgical treatment, retrospective study, 624
 Tobacco smoking, effect on metaplasia of bronchial epithelium, 579
Toxicology, 651
 Tranylcypromine, effect on noradrenaline metabolism in rat brain, 588
 Treponema-like forms, demonstration in treated and untreated late syphilis and in treated early syphilis, 598
Tropical medicine, 599-600
 Tuberculin test in assessment of activity of tuberculous lesions of lungs, 595
Tuberculosis, 595
 —, primary, in children with phlyctenular lesions of eyes, clinical picture and diagnosis, 595
 —, pulmonary, assessment of activity of lung lesions by tuberculin testing, 595
 —, skeletal, review, 595*
 Twins, zygosity in, mixed leucocyte reaction as possible test for, 646

Ulcer, duodenal, carbenoxolone sodium capsules in, 606
 Urethritis, nongonococcal, associated with human strains of "T" mycoplasmas, 596
 Uric acid concentration in serum, reduction in young men during physical training, 602
 Urinary tract infection in children, study in general practice, 641
 Urine, fibrinolytic activity of as protection against stone formation, 621
Urogenital system, 620-1

Vas deferens abnormality in cystic fibrosis, 582
 Vectorcardiogram in mitral valve disease, 610
 Vegetable cells causing pulmonary granulomatosis in children, 641
Veneral diseases, 596-8
 Vinblastine sulphate in Hodgkin's disease, comparison with nitrogen mustard, 617
 Vision, after-images, changes in transient disturbances of circulation of verteobasilar system, 629
 — disorders in children, neurophysiological approach, 644
 Vitamin B₁₂ level in serum in epileptics with and without mental illness, 629
 — K deficiency in the elderly, 638

Waldenström's macroglobulinaemia, antecedent rheumatoid arthritis in, 627

Xylitol metabolism in healthy subjects and in renal disease, 602

Zygosity in twins, mixed leucocyte reaction as possible test of, 646

SUBJECT INDEX

An asterisk denotes title and reference only

- Accidents, traffic, fatal injuries to liver and spleen in, 718
- Acidaemia in newborn infants, apnoea after THAM treatment, 707
- Acidosis in premature infants, development of renal acidifying processes and relation to, 709
- Adolescence, diabetes in, plasma insulin level during early stages, 693
- Affective disorders, recurrent, lithium prophylaxis, 704
- Air pollution and bronchitis in Britain, 715
- Alcohol, *see also* Ethanol
 - , enhancement of alimentary lipaemia by administration of, 674
- Alcoholism, *see also* Neuropathy
 - , chronic, asymptomatic abnormalities of exocrine pancreatic function in, 678
 - , —, transient stomatocytosis with haemolysis complicating, 686
- Aldosterone-induced hypertension, mechanism of action, 683
- Allergy, 673
- Amantadine in Parkinsonism, 700
- Anaemia, chronic, circulatory effects of oxygen inhalation in, 686
 - in dermatitis herpetiformis, role of dapsone-induced haemolysis and malabsorption, 705
 - , megaloblastic maternal, due to folate deficiency, effect on infants, 708
- Anaesthetics, 719
- Analgesia, obstetric, clinical trials of different concentrations of oxygen and nitrous oxide in, 719
- Anaphylaxis, nonfatal third degree, from insect stings, 673
- Aneurysm, cerebral arterial, surgical treatment, 698
- Antidepressants in phobic states, retrospective study, 702
- Antidiuretic hormone in production of dehydration in intravenous pyelography, 722
- Antilymphocytic serum in conditioning before bone marrow grafting, clinical study, 686
- Anxiety, effect of colour of tablets on treatment, 702
- Aorta stenosis, congenital, management, 679
- Apnoea after THAM treatment of acidemia in newborn infants, 707
 - in premature infants, relation of environmental temperature changes to, 707
- Appendix stump, buried, clinical and radiological aspects, 724
- Arteries, *see* Transposition
- Arrhythmia, atrial fibrillation, effect of direct current shock and antidysrhythmic drugs on, 680
 - , ventricular, oral lignocaine in, absorption and effectiveness, 681
- Arthritis, *see also* Polyarthritis
 - , rheumatoid, effect of intraarticular hydrocortisone on inflammation in knee joints, 695
 - , —, in children, acid phosphatase activity in synovial fluid in, 696
 - , —, liver disease in, 696
 - , —, long-term immunosuppressive therapy, 695
 - , —, of knee joints, quantitative assessment of inflammation, 695
- Ascariasis of liver and bile ducts, 668
- Asthma, bronchial, effect of α -receptor blocking drugs and disodium cromoglycate on histamine hypersensitivity in, 664
 - , induced, effect of atropine on bronchoconstrictor reactions in, 673
- Atropine, effect on bronchoconstrictor reactions in induced asthma, 673
- Australia antigen associated hepatitis, virus-like particles in serum in, 662
- Azathioprine in nephrotic syndrome in children, 711
- Azostix strip test, assessment, 657
- BCG vaccination of children against leprosy in Burma, 672
- Blood, *see also* Leucocyte
 - circulation *see* Circulation
 - coagulation, intravascular, in acute hepatic necrosis, 677
 - plasma volume alteration during prolonged thiazide treatment of essential hypertension, 685
 - pressure, *see also* Hypertension
 - , —, arterial, influence of type of work on, 716
- Bone marrow grafting after conditioning by antilymphocytic serum, clinical study, 686

SUBJECT INDEX

- Diabetes mellitus in children and adolescents, plasma insulin level during early stages, 693
- , latent, in women, effect of oral contraceptive on glucose tolerance, 694
 - onset, haemodynamic studies before and after adequate insulin treatment, 693
 - , — in women, cardiovascular state, 693
 - and mucoviscidosis, pathogenetic relationship, 711
- Diazepam, oral, in epilepsy, prolonged treatment, 700
- Diet in diabetes, reliability and cost, 692
- Disodium cromoglycate, effect on histamine hypersensitivity in bronchial asthma, 664
- Diverticulitis and diverticulosis of colon, limitations of radiological differentiation, 724
- DNA synthesis *in vivo*, effect of fluorouracil on, 706
- L-Dopa with peripheral decarboxylase inhibitor in depression, 704
- Dysmorphophobia, 701
- Electroconversion and antidysrhythmic drugs in atrial fibrillation, 680
- Electrolyte and water excretion in chronic parenchymal renal disease, short-term effect of frusemide on, 666
- Endocrinology, 690-4**
- Epilepsy, effect of folic acid on fit frequency and behaviour during anticonvulsive treatment, 700
- , oral diazepam treatment for prolonged period, 700
- Ergotamine tartrate in migraine, clinical trial, 699
- Erythrocyte enzymes in trisomy 21, 713
- glutathione peroxidase deficiency, relation to neonatal jaundice, 708
- Erythromycin, lincomycin, and clindamycin, *in vitro* comparison, 667
- Ethanol, intravenous, as anaesthetic induction agent, 719
- Fatty acids, free, concentration in plasma in depression, 702
- Fibrillation, *see* Arrhythmia
- Fluorouracil in multiple actinic keratosis, mechanism of action and effect on DNA synthesis *in vivo*, 706
- Folic acid, effect on fit frequency and behaviour in epileptics on anticonvulsants, 700
- Forensic medicine, 718**
- Frusemide in chronic parenchymal renal disease, short-term effect on electrolyte and water excretion, 666
- and quinethazone, combined diuretic action in congestive heart failure, 664
- Gastroenterology, 675-8**
- Gastrooesophageal sphincter strength, hormonal control, 675
- Genetics, medical, 713-4**
- Gentamicin in ventriculitis of spina bifida infants, 712
- Glucose tolerance in women with latent diabetes, effect of oral contraceptive on, 694
- Glutathione peroxidase deficiency in erythrocytes, relation to neonatal jaundice, 708
- Gonorrhoea, *see also* Urethritis
- in men, procaine penicillin with procaine in single-session treatment, 670
 - , sulfametopyrazine in single-dose treatment, 670
- Goodpasture's syndrome, basis of pulmonary disease resolution after nephrectomy in, 687
- Growth hormone inhibition of thyroidal radioiodine uptake, 690
- of children with excessive weight gain in early infancy, follow-up study, 710
- Haematite miners, lung carcinoma in, 716
- Haematology, clinical, 686**
- Haemodialysis, chronic, renal osteodystrophy during, radiological study, 723
- Haemolysis with transient stomatocytosis, complication of chronic alcoholism, 686
- Haemorrhage, basal ganglionic, angiographic and clinicopathological correlates, 721
- Head circumference of malnourished infants, rapid increase upon restoration of adequate nutrition, 712
- Heart, *see also* Myocardial infarction
- defect, atrial septal, age-related dynamics of changes in pulmonary circulation in, 679
 - disease, congenital, dermatoglyphics in, 714
 - , —, ischaemic, relation between free fatty acids and β -hydroxybutyrate in, 681
 - , effect of burns on, clinicopathological study in children, 711
 - failure, congestive, quinethazone and frusemide combined, diuretic action in, 664
 - transplant, human, detection of circulating heart-reactive antibody in, 661
- Hepatitis associated with Australia antigen, virus-like particles in serum in, 662
- implicated blood donors, suppression of leucocytic mitosis by, 663
- Hernia, sliding hiatal, with hypertonic gastrooesophageal mechanism of closure, 676
- Herpes zoster, acute painful, effect of early corticosteroid therapy on, 668
- Histamine hypersensitivity in bronchial asthma, effect of α -receptor blocking drugs and disodium cromoglycate on, 665
- Histidinaemia in two successive generations, 613
- Hodgkin's disease, primary cutaneous, 686
- Hydrocephalus, symptomatic occult, abnormal isotope cisternography in, correlative isotopic-neuroradiological study, 720
- Hydrocortisone, intraarticular, in rheumatoid arthritis of knee joint, effect on inflammation, 695
- Hypertension, aldosterone-induced, mechanism of action, 683
- , essential, intrarenal pressure and exaggerated natriuresis in, 684
 - , —, long-term thiazide treatment, persistent alterations in plasma volume and renin activity in, 685
 - , —, renin aldosterone system in, abnormal responsiveness to acute stimulation, 684
 - , immunoglobulin G level in serum in, 682
 - , oral propranolol in, haemodynamic studies, 665
- Hypertension, renal haemodynamics and renin suppression in, 685
- , systolic, in the elderly, epidemiological assessment, 683
- Hyperthyroidism, *see* Thyrotoxicosis
- Hyperuricaemia in routinely screened hospitalized men, clinical significance, 658
- Hypothyroidism, dynamics of insulin secretion before and during substitution therapy, 691
- Imipramine in depression, clinical trial in general practice, 703
- , triiodothyronine with for enhanced activity in nonretarded depression, 703
- Immunoglobulin A and neutralizing antibody in nasal washings in influenza virus infection, 668
- E, elevated levels in conditions other than classic allergy, 673
 - G level in serum in hypertension, 682
- Immunosuppressive therapy, long-term, of rheumatoid arthritis and lupus erythematosus, 695
- Industrial medicine, 716-7**
- Infants, effect of maternal megaloblastic anaemia due to folate deficiency on, 708
- , newborn, acidaemic, apnoea after THAM treatment, 707
 - , —, normal leucocyte picture in, 657
 - , premature, assessment of thyroid function during later development, 710
 - , —, normal leucocyte picture in neonatal period, 657
 - , —, relation of environmental temperature changes to apnoea in, 707
 - , viral infections in, factors in increased susceptibility, 663
- Infectious diseases, 668**
- Inflammation of joints, quantitative index, 695
- Influenza virus infection, immunoglobulin A and neutralizing antibody in nasal washings in, 668
- Insect stings, nonfatal third degree anaphylaxis from, 673
- Insulin level in plasma during early diabetes in children and adolescents, 693
- release, gastrointestinal stimulus to, dual action of secretin, 692
 - secretion dynamics in hypothyroidism before and during substitution therapy, 691
- Interferon, ontogeny of production by human leucocytes, 663
- Iodine, butane-extractable, level in serum as index of thyroid function in developing full-term and premature infants, 710
- , radioactive, *see* Radioiodine
- Iron ore miners, lung carcinoma in, 716
- Isoprenaline and propranolol in cardiogenic shock, 681
- Jaundice, neonatal, relation of erythrocyte glutathione peroxidase deficiency to, 708
- Jejunum, bacterial overgrowth in, assessment and significance, 678
- Kaposi's sarcoma in Uganda, immunological study, 661

SUBJECT INDEX

- Keratosis, multiple actinic, fluorouracil in, mechanism of action, 706
- Kidney, *see also* Nephrectomy; Nephritis; Nephrotic syndrome
- , acidifying processes, development in relation to acidosis in premature infants, 709
 - , disease, chronic parenchymal, short-term effect of frusemide on electrolyte and water excretion in, 666
 - , glomerular and arteriolar thrombosis in pneumococcal septicaemia, 659
 - , transplantation, alternate-day prednisone treatment after, 689
 - , transplanted, selective phlebography of, 723
- Klinefelter's syndrome, dermatoglyphics in, 714
- Knee, valgus deformities in children with chronic polyarthritis, epiphyseal stapling for, 712
- Lactate dehydrogenase and isoenzyme activity in serum, changes in chronic pneumonia, 688
- Lead workers, subclinical neuropathy in, 717
- Leprosy immunization of children with BCG vaccine in Burma, 672
- Leucocyte antibody formation, prevention, 660
- , in peripheral blood forming rosettes with Rh(D) isoantigen, 661
 - , mitosis, suppression by sera of hepatitis-implicated donors, 663
 - , picture, normal, of healthy full-term and premature infants in neonatal period, 657
- Leukaemia, acrocentric chromosome association in, 713
- , oesophageal lesions in, 658
- Lignocaine, oral, absorption and effectiveness in ventricular arrhythmia control, 681
- Lincomycin, clindamycin, and erythromycin, *in vitro* comparison, 667
- Lipaemia, alimentary, enhancement by alcohol, 674
- Lipid level in serum of normal men, effect of restriction of dietary sucrose or starch on, 681
- Lithium prophylaxis in recurrent affective disorders, 704
- Liver, *see also* Hepatitis
- , carcinoma metastases, detection by function tests and visualization by radionuclides, 677
 - , cirrhosis, cerebral haemodynamics and metabolism in, 676
 - , disease in Sjögren's syndrome and rheumatoid arthritis, 696
 - , injuries in forensic necropsies, 718
 - , morphology, effect of rapid weight reduction in obesity on, 659
 - , necrosis, acute, intravascular coagulation in, 677
 - , scanning, comparison of technetium sulphide colloid and radioactive gold in, 721
- Lung carcinoma in haematite miners, 716
- , disease, chronic obstructive, comparison between clinical, radiological, functional, and morphological criteria, 688*
- Lupus erythematosus, long-term immunosuppressive therapy, 695
- Lymphoma, mechlorethamine, cyclophosphamide, and uracil mustard in, comparison, 667
- , oesophageal lesions in, 658
- Malabsorption and haemolysis as causes of anaemia in dermatitis herpetiformis, relative importance, 705
- , intestinal, neomycin-induced, in a tropical population, 671
- Malnutrition in infants, rapid brain growth upon restoration of adequate nutrition causing false radiological evidence of increased intracranial pressure, 712
- Mechlorethamine in neoplastic disease, 667
- Memory, Victor Horsley Memorial lecture, 697*
- Mental retardation in full-term low-birth-weight patients, chromosome analyses, 713
- Metabolism, 674
- Methicillin resistance in *Staphylococcus aureus*, 662
- Microbiology, 662-3
- Migraine and cluster headache, clinical comparison, 699*
- , ergotamine tartrate in, clinical trial, 699
 - , serotonin antagonists in, comparative trial, 699
- Minocycline, oral, in gonorrhoeal urethritis in men, single-dose treatment, 670
- Mucoviscidosis and diabetes mellitus, pathogenetic relationship, 711
- Müller's manoeuvre, double contrast examination of oesophagus during, 721
- Myalgia after clofibrate treatment, 664
- Myocardial infarction, acute, serial determination of central venous oxygen saturations in, 682
- , pentazocine in, increased pulmonary arterial pressures after, 665
- Neomycin-induced intestinal malabsorption in a tropical population, 671
- Neoplasms, mechlorethamine, cyclophosphamide, and uracil mustard in, comparison, 667
- Nephrectomy in Goodpasture's syndrome, basis of pulmonary disease resolution after, 687
- Nephritis, membranoproliferative, origin, 689
- Nephrotic syndrome in children, azathioprine in, 711
- Neurology and neurosurgery, 697-700
- Neuropathy, alcoholic, electrophysiological and histological study, 697
- , subclinical, in lead workers, 717
- Nutrition, 674
- Obesity, rapid weight reduction in, effect on hepatic morphology, 659
- Oesophagus, *see also* Gastrooesophageal
- , carcinoma after gastric surgery, 675
 - , double contrast examination during Müller's manoeuvre, 721
 - , lesions in leukaemia and lymphoma, 658
 - , motility, influence of bolus temperature on, 675
- Old age, *see* Senescence
- Osteodystrophy, renal, during chronic haemodialysis, radiological study, 723
- Osteoporosis, postmenopausal, relation of parathyroid activity to, 690
- Oxygen inhalation in chronic anaemia, circulatory effects, 686
- , and nitrous oxide for obstetric analgesia, clinical trials of different concentrations, 719
- Oxygen saturation, central venous, serial determinations in acute myocardial infarction, 682
- Paediatrics, 707-12. For details *see* Children; Infants
- Pain of herpes zoster, effect of early corticosteroid therapy on, 668
- Pancreas function, exocrine, in chronic alcoholism, asymptomatic abnormalities, 678
- Paralysis, hypokalaemic familial periodic, physiological and biochemical study, 697
- Parasitology, 662-3
- Parathyroid activity, relation to postmenopausal osteoporosis, 690
- Parkinsonism, amantadine in, 700
- Pathology, 657-61
- Pemphigus, familial benign chronic, microbial flora in, 705
- Penicillin, *see also* Procaine
- , allergy, avoidance by reduction of penicilloyl radical, 667
 - , oral, in single-day treatment of lobar pneumonia, 688
- Pentazocine in myocardial infarction, increased pulmonary arterial pressures after, 665
- Pharmacology, 664-6
- Phenylketonuria, altered sex ratio in infants ascertained by screening the newborn, 710
- Phlebography, selective, of transplanted kidney, 723
- Phobia, antidepressant treatment, retrospective study, 702
- Phosphatase, acid, activity in synovial fluid of children with rheumatoid arthritis, 696
- Physical appearance, exaggerated concern about, psychiatric aspects, 701
- Pituitary, *see* Cryohypophysectomy
- Plasmapheresis, intensive, as therapeutic measure in Rh-immunized women, 666
- Pneumonia, chronic, changes in lactate dehydrogenase and its isoenzymes in, 688
- , lobar, single-day treatment, 688
- Poliomyelitis, geographical incidence, 715
- Polyarthritis, juvenile chronic, valgus knee deformities treated by epiphyseal stapling in, 712
- Polycythaemia, acrocentric chromosome association in, 713
- , reaction in acute ischaemic stroke, 698
- Prednisone after renal transplantation, alternate-day treatment, 689
- Probenecid and procaine penicillin in single-session treatment of gonorrhoea in men, 670
- Procaine penicillin with probenecid in single-session treatment of gonorrhoea in men, 670
- Propranolol in hypertrophic obstructive cardiomyopathy, effect on response to exercise, 665
- , and isoprenaline in cardiogenic shock, 681
 - , oral, in hypertension, haemodynamic studies, 665
- Pseudomonas infections of bronchi, treatment, 687
- Psychiatry, 701-4
- Public health, 715
- Pyelography, intravenous, in advanced uraemia, visualization in post-dialytic state, 722
- , —, production of dehydration by antidiuretic hormone, 722

SUBJECT INDEX

- Quinethazone and frusemide, combined diuretic action in congestive heart failure, 664
- Radioiodine test, hormonal phase, early registration, 691
— uptake by thyroid, inhibition by human growth hormone, 690
- Radiology**, 720-4
- Radon exposure of United Kingdom miners, 717
- Renin activity alterations during long-term administration of thiazides in essential hypertension, 685
— aldosterone system in essential hypertension, abnormal responsiveness to stimulation, 684
— suppression and renal haemodynamics in hypertension, 685
- Respiratory distress syndrome of newborn, negative pressure artificial respiration in, 707, 709
— system, 687-8
- Retinopathy, diabetic, cryohypophsectomy in, ophthalmological and endocrine correlation, 694
- Rh(D) isoantigen, formation of rosettes with peripheral blood leucocytes, 661
- Rh-immunized women, intensive plasmapheresis as therapeutic measure in, 666
- Rheumatic diseases**, 695-6
- Rhinorrhoea, cerebrospinal fluid, aetiology, diagnosis, and treatment, 697
- Ricochet or contact wound, 718
- Rickettsia prowazeki*, electron microscopic study, 662
- Salivary gland tumours, cytological and cytochemical characteristics, 658
- Salt excretion, exaggerated, and intrarenal pressure in essential hypertension, 684
- Sarcoma, *see* Kaposi's
- Sclerosis, multiple, psychological disturbances and psychotherapy, 701
- Sebum excretion, increase in breast carcinoma, 706
- Secretin, dual action in gastrointestinal stimulus to insulin release, 692
- Senescence, systolic hypertension in, epidemiological assessment, 683
- Septicaemia, pneumococcal, glomerular and arteriolar thrombosis in, 659
- Serotonin antagonists in migraine, comparative trial, 699
- Sex ratio among phenylketonuric infants, alteration ascertained by screening, 710
- Shock, cardiogenic, isoprenaline and propranolol combined in, 681
- Sjögren's syndrome, liver disease in, 696
- Smoking, *see* Tobacco
- Sneezing, intractable paroxysmal, 687
- Sodium, *see* Natriuresis
- Sphincter, gastrooesophageal, hormonal control of strength of, 675
- Spina bifida in infants, gentamicin and cloxacillin treatment of ventriculitis with, 712
- Spleen injuries in forensic necropsies, 718
— rupture, angiographic diagnosis, 722
- Staphylococcus aureus*, methicillin resistance in, 662
- Stomach carcinoma, early diagnosis, 676
— surgery, oesophageal carcinoma after, 675
- Stomatocytosis, transient, with haemolysis, complication of chronic alcoholism, 686
- Stroke, acute ischaemic, polycythaemic reaction in, 698
- Strongyloides stercoralis*, hyperinfection syndrome with, 672
- Strontium, radioactive, in hair as index of concentration in bone tissue, 720
- Sucrose, dietary, effect of restriction on serum lipid levels of normal men, 681
- Sulfametopyrazine in gonorrhoea, single-dose treatment, 670
- Synovectomy, chemical, with sodium salts of fatty acids, 696
- Synovial fluid, acid phosphatase activity in juvenile rheumatoid arthritis, 696
- Tablet colour, effect on results of treatment of anxiety states, 702
- Temperature, environmental, relation of changes to apnoea in premature infants, 707
— of bolus, influence on oesophageal motility, 675
- THAM** (tris-(hydroxymethyl)-amino-methanetrimetamol) in acidaemia of newborn, apnoea after, 707
- Therapeutics**, 664-6
- Thiazide diuretics in essential hypertension, persistent alterations in plasma volume and renin with prolonged administration, 685
- Thrombosis, glomerular and arteriolar, in pneumococcal septicaemia, 659
- Thyopac-3- *see* Triiodothyronine
- Thyroid carcinoma, metastatic, provoking hyperthyroidism, 691
— function in developing full term and premature infants, assessment, 710
— — test by triiodothyronine uptake, *in vitro* assessment, 690
- Thyroid uptake of radioactive iodine, inhibition by human growth hormone, 690
- Thyrotoxicosis, diagnosis by radioiodine test of hormonal phase, 691
— due to excessive circulating thyrostimulators from metastatic thyroid carcinoma, 691
- Tobacco smoking, air pollution, and bronchitis in Britain, 715
— —, cigarette, metabolic changes associated with cessation of, 674
- Toluene diisocyanate, respiratory impairment in workers exposed to "safe" levels, 716
- Toxicology**, 718
- Transposition, congenital, of great arteries, clinical picture, 679
- Triiodothyronine enhancement of imipramine in nonretarded depression, 703
— test of thyroid function, *in-vitro* assessment, 690
- Triamcinolone, effect on skin eruption and pain of herpes zoster, 668
- Tropical medicine**, 671-2
- Tuberculosis**, 669
— in Kenya, follow-up of national survey of drug resistance, 669
—, miliary, changing pattern, 669
- Ulcer, gastric, pathogenesis, relation of gastric acid secretion to, experimental study, 657
- Uracil mustard in neoplastic disease, 667
- Uraemia, advanced, intravenous pyelography in, 722
- Urea concentration in blood, estimation with Azostix strip test, 657
- Urethritis, gonococcal in men, minocycline in single oral dose in, 670
- Uric acid, *see* Hyperuricaemia
- Urogenital system**, 689
- Valium, *see* Diazepam
- Venereal diseases**, 670
- Ventriculitis in spina bifida infants, gentamicin and cloxacillin in, 712
- Weight gain due to metabolic changes after cessation of cigarette smoking, 674
- Whipple's disease, electron microscopic study of bacteria in, 660
- Wolff-Parkinson-White syndrome, His bundle electrograms in, 680

SUBJECT INDEX

An asterisk denotes title and reference only

- Abscess, hepatic, antibiotic infusion through umbilical vein in, 748
 Achlorhydria, influence on aspirin-induced occult gastrointestinal haemorrhage, 746
 Acidosis of pulmonary oedema, 759
 ACTH, *see* Corticotrophin
 Adolescence, enuresis in, urological study, 786
 Adrenal insufficiency, role of hypovolaemia in impaired diuresis of, 768
 Adrenocortical activity, effect of lithium carbonate treatment on, 736
 Agammaglobulinaemia, idiopathic "acquired", immunological studies on patients and their families, 762
 Air pollution, urban, effects on health, review, 790*
- Allergy, 744
 Alzheimer's disease, rare forms, relationship to senile dementia, 778
 Amantadine in Parkinsonism, 776, 777
 Ampicillin in typhoid and paratyphoid fevers, influence on antibody response, 739
 Anaemia, pernicious, association with vitiligo, 762
 —, —, hidden gastric autoantibodies to intrinsic factor in, 729
 Anaesthesia, general, in outpatients, measurement of recovery with simple ocular test, 794
 — induction agent, ketamine, 793
 Anaesthetics, 793-4
 Analgesia, abuse in psychiatric patients, 778
 Androgen metabolism in atherosclerosis, 760
 Aneurysm of aortic arch as cause of unilateral hypertranslucent lung, 795
 Anger in neurotic outpatients, effects of phenytoin on, 781
 Angina pectoris, influence of changes in blood volume on, 732
 —, —, prazosin, in clinical evaluation, 757
 —, —, relation to pattern of cluster headache, 776
 Angiocardiogram, interpretation by atrial septal sign, 795
 Antibiotic infusion through umbilical vein in hepatic abscess, 748
 Anticoagulants, oral, pharmacology, 730*
- Antilymphocyte serum preparations in renal allograft rejection, 766
 Antinuclear antibodies, frequency in serum and diagnostic significance, 729
 α_1 -Antitrypsin deficiency in chronic obstructive bronchopulmonary disease, 764
 —, —, radiological findings, 796
 —, —, manifestation in recognizable pattern of chronic obstructive lung disease, 795
 Anxiety in neurotic outpatients, effects of phenytoin on, 781
 —, —, relation to breathlessness in asthma and bronchitis, 780
 Aorta arch aneurysm as cause of unilateral hypertranslucent lung, 795
 — coarctation, peripheral and renal vein plasma renin activity in, 759
 —, —, recurrent, after successful repair in infancy, 759
 — valve surgery as emergency procedure, 752
- Arrhythmia, atrial, without previous atrioventricular block, internal pacemaker for, 753
 — causing transient cerebral ischaemia, 775
 —, —, postoperative, bretylium tosylate in prevention and treatment, 755
 Arteries, internal carotid, occlusion of, pathological study, 728*
- , —, —, study of 61 instances with postmortem data, 776*
- Arteriography, coeliac, selective, in gastric carcinoma, 796
 —, —, trickle, in demonstration of thrombosis in origin of internal carotid artery, 795
 Arthritis, rheumatoid, altered immunoglobulin metabolism in, 771
 —, —, autologous immunoglobulin G response in, 773
 —, —, cholinesterase activity in, 772
 —, —, intraarticular Zymofren in, 771
 —, —, latex test in, effect of age and duration of illness on, 772
 —, —, of knee joint with popliteal cyst, radioactive colloidal gold treatment, 773
 —, —, radioactive xenon clearance from knee joint in, effect of synovectomy on, 773
 —, —, Sjögren's syndrome in, 772
 Aspirin abuse in psychiatric patients, 778
 — induced occult gastrointestinal haemorrhage, influence of achlorhydria on, 746
 — poisoning, mannitol and forced alkaline diuresis in, 792
 Asthma, breathlessness in, relation of anxiety to, 780
 —, —, bronchial, effect of salbutamol and isoprenaline on spirometry and blood gas tensions in, 732
 —, —, chronic, macrolide antibiotics in, 744
 —, —, house-dust mite, challenge tests on five criteria, 744
 —, —, serum reagins and leucocyte response in, 744
 Ataxia telangiectasia, unusual form of diabetes mellitus in, 770
 Atherosclerosis, cortisol and androgen metabolism in, 760
 Atrial, *see* Heart
 Autism, infantile, epidemiology, 779
 Autoantibody, hidden gastric, to intrinsic factor in pernicious anaemia, 729
- Bacillus subtilis* derivatives in detergent dusts, survey of workers' exposure to, 790
 Baker's cyst, *see* Cyst, popliteal
 Blood, *see also* Erythrocyte; Methaemoglobin
 — flow, coronary, effect of glucagon on, clinical and experimental studies, 731
 —, —, regional myocardial, in acute ischaemia, effect of propranolol on, 731
 — gas(es), arterial, in acute respiratory failure, effect of oxygen therapy on, 764
 —, —, in chronic bronchitis, effects of nebulized isoprenaline, nebulized saline, and intravenous isoprenaline on, 733
 — tension in bronchial asthma, effect of salbutamol and isoprenaline on, 732
- Blood platelet aggregation in lipid nephrosis, 728
 — pressure, *see also* Hypertension
 — during provoked attacks of cluster headache, 775
 —, —, systolic, learned control of decreases in, 780
 — transfusion, intrauterine, fetal outcome and complications, 785
 — volume, *see also* Hypovolaemia
 — changes, influence on angina pectoris, 732
 Body composition changes in long-term oral diuretic treatment of hypertension, 761
 Bone dating methods, forensic study, 791
 Brain, *see also* Ischaemic
 — function in liver disease, objective tests, 748
 — injury due to nail gun, 792*
- Bretylium tosylate in postoperative arrhythmias, prevention and treatment, 755
 Bronchitis, breathlessness in, relation of anxiety to, 780
 —, chronic, α_1 -antitrypsin deficiency in, 764
 —, —, effect of low doses of nebulized isoprenaline, nebulized saline, and intravenous isoprenaline on blood gases in, 733
 Bundle-branch block, nitrate test in interpretation of exercise electrocardiogram in, 753
- Calcium, *see* Hypercalcaemia
 Cardiolipin F antibodies in early syphilis, 742
 Cardiovascular system, 752-61
 Carditis, rheumatic, quantitative plasma protein determinations in assessment of activity, 771
 Case identification method in psychiatric illness in general practice, 778
 Cephalixin, oral, clinical evaluation, 737
 Cephaloglycin in streptococcal pharyngitis, comparison with penicillin, 727
 Chemotherapy, 737
 Children, *see also* Infants
 —, chemical diabetes mellitus in, insulin responses, 788
 —, familial hypercholesterolaemia in, treatment, 745
 —, inflammatory bowel disease in, severe growth retardation with, 786
 —, low insulin response to glucose infusion in, 769
 —, nephrotic syndrome in, clinicopathological study, 787
 —, streptococcal skin infection in, treatment, 786
 —, transient synovitis of hip in, aetiology, 788
 —, unilateral renal hypoplasia in, 787
 Chloramphenicol in typhoid and paratyphoid fevers, influence on antibody response, 739
 Chlorpromazine levels in plasma, correlation with pharmacological action, 735
 Chlorpropamide in diabetes insipidus, antidiuretic effect and complications, 767

SUBJECT INDEX

- Cholelithiasis, experimental, preventive and curative effects of various drugs in mice, 730
- Cholesterol, *see* Hypercholesterolaemia
- Cholinesterase activity in rheumatoid arthritis, 772
- Chromosomes in spinal fluid, presence as evidence for metastatic origin of meningeal leukaemia, 763
- Clinistix test, positive postprandial, in diabetes detection survey, 769
- Clonidine in benign hypertension, 761
- Coeliac disease, adult, variable clinical expressions of, 751
- Colitis, *see also* Enterocolitis
- , inflammatory, urinary crystalloid excretion in, 750
 - , ulcerative, growth retardation of children with, 786
 - , —, lactose malabsorption in, incidence and clinical significance, 751
 - , —, liver disease in, effect of colectomy, 749
 - , —, surgical treatment, vitamin B₁₂ absorption in ileostomy patients after, 745
- Contraceptive, oral, and myocardial infarction, 734
- , —, steroidal content, relation to incidence of thromboembolism, 733
- Coronary artery disease in pneumoconiosis, 790
- care unit, effect on hospital mortality of myocardial infarction, 758
 - heart disease deaths in dock workers related to work activity, 789
- Corticotrophin levels in plasma during halothane anaesthesia and surgery, 794
- Cortisol levels in plasma during halothane anaesthesia and surgery, 794
- metabolism in atherosclerosis, 760
- Crohn's disease, lactose malabsorption in, incidence and clinical significance, 751
- mortality, 750
- Cyst, popliteal, in association with rheumatoid arthritis of knee joint, radioactive colloidal gold therapy, 773
- Cytomegalovirus infection, inapparent congenital, 785
- Daunorubicin in acute leukaemia, 763
- Death from coronary heart disease and stroke of dock workers, relation to work activity, 789
- myocardial infarction in hospital, effect of coronary care unit on, 758
- Dementia, senile, relationship of rare forms of Alzheimer's disease to, 778
- Depression, severe, L-tryptophan and electroshock therapy in, sequential comparison, 779
- Dermatitis, contact, in the atopic, 782
- Dermatology, 782-3
- Detergent dusts containing *Bacillus subtilis* derivatives, survey of workers' exposure to, 790
- Diabetes insipidus, chlorpropamide treatment, antidiuretic effect and complications, 767
- mellitus, chemical, insulin responses of children with, 788
 - detection survey based on positive postprandial Clinistix test, 769
 - , juvenile, effect on innervation of skeletal muscles, 726
 - , —, late neuropathological complications, 726, 727
 - , —, pancreatic α -cell function in, 770
 - , —, unusual form in ataxia telangiectasia, 770
- Diarrhoea, experimental, with *Salmonella* in rats, 725
- Diuresis, osmotic, in chronic renal failure, 765
- Dock workers, work activity related to death from coronary heart disease and stroke, 789
- Doxycycline in gonorrhoea infection with decreased sensitivity to penicillin, 743
- Drug combinations in psychiatry, patterns of differential treatment, 736
- Dysuria in women, clinical significance, 765
- Elastase inhibitor concentrations in serum in respiratory distress syndrome, 784
- Electrocardiogram findings during provoked attacks of cluster headache, 775
- exercise, in bundle-branch block and Wolff-Parkinson-White syndrome, interpretation with nitrate test, 753
 - , —, interpretation by nitrate test, 752
 - , —, postprandial changes, 752
 - stress test, abnormal, prognosis, 756
- Emphysema, α_1 -antitrypsin deficiency in, 764
- , mediastinal, complicating measles in the tropics, 738
- Encephalopathy, chronic hepatic, effect of lactulose treatment on, 748
- in liver disease, objective tests, 748
 - , tuberculous, with and without meningitis, clinical features and pathological correlations, 774
- Endocrinology, 767-70
- Enteritis, regional, growth retardation of children with, 786
- Enterocolitis, salmonella, in rats, 725
- Enteropathy, dermatogenic, 751
- Enuresis, adolescent, urological study, 786
- Enzyme activity in serum during ethionamide treatment of pulmonary tuberculosis, 741
- Erythrocyte, sickled, effect of hypertonic stress on fine structure, 725
- Erythromycin estolate in chronic asthma, 744
- Ethionamide in pulmonary tuberculosis, changes in serum enzyme activity during treatment, 741
- Etiocolanolone in measurement of bone marrow reserves of granulocytes, 726
- Eye "bobbing", absence of lateral movements, 775
- Factor VIII deficiency, cryoprecipitate prophylaxis, 762
- Fibrin, intraglomerular, in lipid nephrosis, 728
- Fibrinogen content of plasma in chronic relapsing urticaria, 783
- Fibrosis, myocardial, in progeria, pathological study, 727
- Forensic medicine, 791-2
- Gallstones, *see* Cholelithiasis
- Gastric secretion in duodenal ulcer, with reference to diagnosis of Zollinger-Ellison syndrome, 747
- Gastroenterology, 746-51
- Glucagon, effect on myocardial oxygen consumption and coronary blood flow in man and dog, 731
- , influence on pancreatic exocrine secretion, 746
 - potentiation of hypoprothrombinaemic action of warfarin, 730
- Glucose infusion in children, low insulin response to, 769
- Glutethimide, hypnotic effects, 735
- Goitre, congenital, due to maternal ingestion of iodides, 788
- Gold, radioactive colloidal, in rheumatoid arthritis of knee joint with popliteal cyst, 773
- Gonorrhoea, doxycycline treatment of infections with decreased penicillin sensitivity, 743
- in men, intramuscular rolitetracycline with oral tetracycline complex in, 743
 - , trimethoprim and sulphamethoxazole in, 743
- Granulocyte reserves in bone marrow, measurement by etiocholanolone, 726
- Graves' disease, circulating sensitized lymphocytes in, 767
- Growth retardation in children with inflammatory bowel disease, 786
- Haematology, clinical, 762-3
- Haemophilia, cryoprecipitate prophylaxis, 762
- Haemorrhage, gastrointestinal, occult, aspirin-induced, influence of achlorhydria on, 746
- , retinal and conjunctival, in the newborn, 785
- Halothane anaesthesia and surgery, plasma levels of corticotrophin and cortisol during, 794
- Head injury, spurious papilloedema and visual field contraction after, 774
- Headache, cluster, heart rate, blood pressure, and electrocardiographic changes during provoked attacks, 775
- , —, patterns in relation to angina pectoris and peptic ulcer, 776
- Heart, *see also* Coronary; Ischaemia; Myocardial infarction; Pericarditis
- , atrial septal sign, significance in interpretation of angiocardiograms, 795
 - block, complete, due to acute myocardial infarction, 758
 - defect, atrial septal, associated with mitral stenosis, 752
 - disease, ischaemic, and apparently primary cardiac failure, 756
 - , —, — sugar consumption, 755
 - , —, rheumatic, *see* Carditis
 - failure, apparent primary, of ischaemic origin, factors in clinical diagnosis, 756
 - , —, congestive, in pneumoconiosis, 790
 - , —, insulin secretion in, 758
 - , mitral stenosis and constrictive pericarditis, differential diagnosis, 752
 - rate during provoked attacks of cluster headache, 775
 - transplantation in man, allograft pathology, 727
- Hip synovitis, transient, of children, aetiology, 788
- Hodgkin's disease, long survival in, 763
- House-dust mite allergy, serum reagins and leucocyte response in, 744
- asthma, challenge tests on five criteria, 744
- Hyaline membrane disease in infants, negative pressure assisted ventilation in, 784
- Hypercalcaemia during vitamin D treatment of hypoparathyroidism, 768
- Hypercholesterolaemia, familial, in children, treatment, 745
- Hypernephroma associated with reversible hepatic dysfunction, clinical and biochemical manifestations, 748
- Hypertension, benign, clonidine in, 761
- due to increased salt content of processed baby foods, studies in rats, 784

SUBJECT INDEX

Hypertension due to renal disease, distinct mechanisms of production, 725
 —, oral diuretics in, body composition changes during long-term treatment, 761
 —, renal, differential renal function studies in diagnosis, 760
 —, venous renin activity in, 760
Hypnotics, comparison of effects, 735
Hypokalaemia, myopathy due to, and elevation of serum enzyme levels, 777
Hypoparathyroidism, idiopathic, neurological and psychiatric manifestations, response to treatment, 768
 —, vitamin D treatment, hypercalcaemia during, 768
Hypothyroidism, congenital, due to maternal ingestion of iodides, 788
Hypovolaemia, role in impaired water diuresis of adrenal insufficiency, 768

Ileostomy after operation for ulcerative colitis, vitamin B₁₂ absorption in, 745
Immunoglobulin, effect of administration on rubella in pregnancy, 789
 — metabolism, alteration in systemic lupus erythematosus and rheumatoid arthritis, 771
 — G, autologous, response in rheumatoid arthritis, 773
Industrial medicine, 789-90
Infant foods, processed, hypertension and death from consumption by rats of, 784
Infants, newborn, interscapular skin temperatures in, 784
 —, —, retinal and conjunctival haemorrhage in, 785
 —, unilateral renal hypoplasia in, 787
Infection, streptococcal, in skin of children, treatment, 786
Infectious diseases, 738-9
Insulin response of children with chemical diabetes mellitus, 788
 — — to glucose infusion in children, 769
 — secretion in heart failure, 758
Iodide ingestion, maternal, congenital goitre and hypothyroidism due to, 788
Irritability in neurotic outpatients, effect of phenytoin on, 781
Ischaemia, cerebral, transient, due to arrhythmia, 775
 —, myocardial, effect of propranolol on regional myocardial blood flow in, 731
Isoniazid treatment complicated by phenytoin intoxication, 792
Isoprenaline, aerosol and intravenous, effect on blood gases in chronic bronchitis, 733
 — in bronchial asthma, effect on spirometry and blood gas tensions, 732
Isoproterenol, see Isoprenaline

Joint complaints in myxoedema, 767

Ketamine as induction agent in anaesthesia, 793
Kidney, see also Nephrosis
 — contraction, ischaemic, in rats, relation of blood pressure level to, 725
 — failure, acute, factors affecting response to mannitol, 766
 —, chronic, mannitol osmotic diuresis in, 765
 — function studies, differential, in diagnosis of renal hypertension, 760

Kidney hypoplasia, unilateral, in infancy and childhood, 787
 — transplant, allograft rejection, antilymphocyte serum preparations in, 766
Knee joint tuberculosis, management, 741

Lactose malabsorption in ulcerative colitis and Crohn's disease, incidence and clinical significance, 751
Lactulose in chronic hepatic encephalopathy, clinical and biochemical changes, 748
Latex test in rheumatoid arthritis, effect of age and duration of illness on, 772
Leukaemia, acute, daunorubicin in, 763
 —, meningeal, metastatic origin evidenced by chromosomes in spinal fluid, 763
 —, preleukaemic acute myelogenous, 762
Lipofuscin pigment in progeria, pathological study, 727
Lithium carbonate treatment, effect on adrenocortical activity, 736
Liver disease, acute venoocclusive, fine structure in Jamaican children, 728*
 —, cerebral function in, objective tests, 748
 — in ulcerative colitis, effect of colectomy, 749
 — dysfunction, reversible, associated with hypernephroma, clinical and biochemical manifestations, 748
 — encephalopathy, effect of lactulose treatment on, 748
Longshoremen, see Dock workers
Lung disease, chronic obstructive, radiological manifestation of α_1 -antitrypsin deficiency as recognizable pattern of, 795
 — hypertranslucence, unilateral, due to aneurysm of aortic arch, 795
 —, lower zone, long line radiological shadow across, 796
Lupus erythematosus, abnormal fluorescence pattern in, 742
 — and scleroderma, coexistence in light of immunopathological study, 728
 —, systemic, altered immunoglobulin metabolism in, 771
Lutembacher's syndrome, diagnosis, 752
Lymphocyte, see also Antilymphocyte
 —, circulating sensitized, in Graves' disease, 767
 — transformation by basic protein from bovine spinal cord in multiple sclerosis, 729

Macrolide antibiotics in chronic asthma, 744
Malabsorption, see also Lactose
 —, intestinal, caused by skin disease, 751
Mandrax-induced sleep patterns, 735
Mannitol and forced alkaline diuresis in aspirin poisoning, 792
 — in acute renal failure, factors affecting response to, 766
 —, oral, in oedema, 730
 — osmotic diuresis in chronic renal failure, 765
Maxolon, see Metoclopramide
Measles antibody titres in multiple sclerosis patients, siblings, and controls, 774
 — complicated by mediastinal emphysema in the tropics, 738
Melanoma, metastatic malignant, vaccination virus in treatment, 783
Meningitis, tuberculous encephalopathy in, clinical features and pathological correlations, 774

Metabolism, 745
Methaemoglobin levels after peridural prilocaine anaesthesia for vaginal deliveries, 794
Methiazinic acid in rheumatic diseases, 771
Methohexitone-assisted desensitization in phobias, 781
Methypyrrolon, hypnotic effects, 735
Metoclopramide, antiemetic action in anaesthesia, clinical trials, 793
Mitral, see Heart
Mongolism, visual and somatosensory evoked responses in, 778
Mononucleosis, infectious, subclinical infection of family contacts in, 738
Muscle stiffness, generalized, fasciculations and myokymia of peripheral nerve origin, 777
Mycobacteria, atypical, clinical, laboratory, and epidemiological significance, review, 741*
Myocardial infarction, acute, causing complete heart block, 758
 —, —, inapparent, postmortem detection, 791
 — mortality in hospital, effect of coronary care unit on, 758
 — and oral contraceptives, 734
 — without overt diabetes, long-term tolbutamide treatment, clinical and biochemical study, 758*

Myopathy, hypokalaemic, and elevation of serum enzyme levels, 777
Myxoedema, rheumatic syndromes in, 767

Nail-gun injuries of the brain, 792*
Nephrosis, lipid, intraglomerular fibrin, platelet aggregation, and subendothelial deposits in, 728
Nephrotic syndrome in childhood, clinicopathological study, 787
Nerves, peripheral, damage causing generalized muscular stiffness, fasciculations, and myokymia, 777
Neurology and neurosurgery, 774-7
Neuron antibodies in patients with systemic lupus erythematosus, cerebral palsy, and epilepsy, 775*
Neuropsychiatric disturbances in idiopathic hypoparathyroidism, response to treatment, 768
Nitrate test in interpretation of exercise electrocardiogram, 752
Nutrition, 745

Oedema, oral mannitol in, 730
 —, pulmonary, acidosis of, 759
Oxygen consumption, myocardial, effect of glucagon on, clinical and experimental studies, 731
 — therapy, effect on arterial blood gases in acute respiratory failure, 764

Pacemaker, implanted, checking of function, 754
 —, —, for atrial arrhythmia without previous atrioventricular block, 753
 —, —, prediction of impending failure in a pacemaker clinic, 754

Paediatrics, 784-8
Pancreas α -cell function in normal and diabetic subjects, 770
 — secretion, exocrine, influence of glucagon on, 746

SUBJECT INDEX

- Papilloedema, spurious, after head injury, 774
- Paramomycin in taenia infections, 739
- Parathyroid, *see* Hypoparathyroidism
- Paratyphoid fever, influence of chloramphenicol and ampicillin on antibody response in, 739
- Parkinsonism, amantadine in, 776, 777
- , psychiatric symptoms, 776
- Pathology, 725-9
- Pentazocine-induced respiratory depression, reversal, 794
- Pericarditis, constrictive, masquerading as mitral stenosis, 752
- Pharmacology, 730-6
- Pharyngitis, streptococcal, cephaloglycin in, comparison with penicillin, 737
- Phenytion, effect on anxiety, irritability, and anger in neurotic outpatients, 781
- intoxication, complication of isoniazid treatment, 792
- Phlebotomy, effect on angina pectoris, 732
- Phobia, methohexitone-assisted desensitization in, 781
- Platelet, *see* Blood
- Pneumoconiosis, coronary artery disease and congestive heart disease in, 790
- Potassium, *see* Hypokalaemia
- Practolol in angina pectoris, clinical trial, 757
- Pregnancy rubella, effect of immunoglobulin administration on, 789
- , urinary tract infections in, diagnosis by suprapubic aspiration of urine, 765
- Premedication with ketamine, 793
- Prilocaine anaesthesia, peridural, for vaginal deliveries, methaemoglobin levels after, 794
- Progeria, pathological study with reference to myocardial fibrosis and lipofuscin pigment, 727
- Propranolol, effect on regional myocardial blood flow in acute ischaemia, 731
- in paroxysmal tachycardia of supraventricular origin, long-term results, 754
- Psychiatric illness in general practice, method of case identification, 778
- Psychiatry, 778-81
- , drug combinations in, patterns of differential treatment, 736
- Public health, 789-90
- Radiology, 795-6
- Reflux, gastric, cricopharyngeal sphincter in, 746
- Renin activity in peripheral and renal vein plasma in coarctation of aorta, 759
- — — veins in hypertension, 760
- Respirator, negative pressure tank-type, for assisted ventilation in infants with hyaline membrane disease, 784
- Respiratory depression, pentazocine-induced, reversal, 794
- distress syndrome, serum elastase inhibitor concentrations in, 784
- failure, acute, effect of oxygen therapy on arterial blood gases in, 764
- infection, bacterial, chemotherapy, 737*
- system, 764
- Rheumatic diseases, 771-3
- diseases, methiazinic acid in, 771
- syndromes in myxoedema, 767
- Rolitetracycline, intramuscular, with oral tetracycline phosphate complex for gonorrhoea in men, 743
- Rubella in pregnancy, effect of immunoglobulin on, 789
- virus vaccine, live, combined with live vaccines against measles and mumps, 789
- Saibutamol in bronchial asthma, effect on spirometry and blood gas tensions, 732
- Salmonella enterocolitis in rats, 725
- Salt content of processed baby foods, hypertension and death of rats due to, 784
- Schizophrenia in children, epidemiology, 779
- Scleroderma and lupus erythematosus, coexistence in light of immunopathological study, 728
- Sclerosis, amyotrophic lateral, psychological function in, 780
- , multiple, lymphocyte transformation by basic protein from bovine spinal cord in, 729
- , —, measles antibody titres in patients, siblings, and controls, 774
- Scurvy, Sjögren's syndrome in, 745
- Sicca syndrome, *see* Sjögren's syndrome
- Sjögren's syndrome in rheumatoid arthritis, 772
- — — scurvy, 745
- Skeletal remains, methods of dating, 791
- Sleep patterns in natural and Mandrax- and Tuinal-induced sleep, comparison, 735
- Smoking, *see* Tobacco
- Sphincter, cricopharyngeal, in gastric reflux, 746
- Spinal fluid chromosomes, evidence for metastatic origin of meningeal leukaemia, 763
- Stomach carcinoma, selective coeliac arteriography in, 796
- Stroke, fatal, in dock workers, relation to work activity, 789
- Sugar consumption and ischaemic heart disease in the community, 755
- —, relation to cigarette smoking, 755
- Sulphamethoxazole and trimethoprim in gonorrhoea and nongonococcal urethritis, 743
- Synovectomy, effect on clearance of radioactive xenon from knee joint in rheumatoid arthritis, 773
- Synovitis, transient, of hip in children, aetiology, 788
- Syphilis, *see also* *Treponema*
- , early, cardiolipin F antibodies in, 742
- Tachycardia, paroxysmal, of supraventricular origin, propranolol in long-term results, 754
- Taenia infection, paramomycin in, 739
- Temperature, interscapular skin, in newborn infant, 784
- Tetanus, cranial nerve palsies in, 729
- Tetracosactrin depot therapy, intermittent, in dermatology, 782
- Tetracycline phosphate complex, oral, with intramuscular rolitetracycline for gonorrhoea in men, 743
- Therapeutics, 730-6
- Thromboembolism, relation of steroidal content of oral contraceptives to, 733
- Thrombosis in origin of internal carotid artery, demonstration by trickle arteriography, 795
- Thyroid, *see* Hypothyroidism
- Tobacco smoking, cigarette, relation of sugar consumption to, 755
- Toxicology, 791-2
- Treponema pallidum* antibodies, quantitative automated microhaemagglutination assay, 742
- Triacetoleandomycin in chronic asthma, 744
- Trimethoprim and sulphamethoxazole in nongonococcal urethritis and gonorrhoea, 743
- Trypsin, *see* Antitrypsin
- L-Tryptophan in severe depression, sequential comparison with electroshock therapy, 779
- Tuberculosis, 740-1
- , pulmonary, chemotherapy after hospital discharge of unreliable patients, 740
- , —, domiciliary isoniazid treatment, attack rates of family contacts, 740
- , —, ethionamide in, changes in serum enzyme activity during, 741
- , —, isoniazid-streptomycin and isoniazid-thioacarlide in, results and randomized original treatment, 740
- , —, isoniazid with thioacetazone treatment in East Africa, 741*
- , skeletal, of knee joint, management, 741
- Tuinal-induced sleep patterns, 735
- Typhoid fever, influence of chloramphenicol and ampicillin on antibody response in, 739
- Ulcer, duodenal, gastric secretion in, with reference to diagnosis of Zollinger-Ellison syndrome, 747
- , peptic, relation to pattern of cluster headache, 776
- Urethritis, nongonococcal, trimethoprim and sulphamethoxazole in, 743
- Urinary tract infection in pregnancy, diagnosis by suprapubic aspiration of urine, 765
- — —, unsuspected, survey of 2,000 persons, 765
- Urine, crystalloid excretion in inflammatory bowel disease, 750
- , suprapubic aspiration in diagnosis of urinary tract infections in pregnancy, 765
- Urogenital system, 765-6
- Urticaria, chronic relapsing, plasma fibrinogen content in, 783
- , solar, active serum factor in, 783
- Vaccinia virus treatment of metastatic malignant melanoma, 783
- Veneral diseases, 742-3
- Visual field contraction after head injury, 774
- Vitamin B₁₂ absorption in ileostomy patients after operation for ulcerative colitis, 745
- D treatment of hypoparathyroidism, hypercalcaemia during, 768
- Vitiligo, association with pernicious anaemia, 762
- Warfarin, hypoprothrombinaemic action, potentiation by glucagon, 730
- Whipple's disease, report of 19 cases and review of literature, 751*
- Wolff-Parkinson-White syndrome, nitrate test in interpretation of exercise electrocardiogram in, 753
- Xenon, radioactive, effect of synovectomy on clearance from knee joint in rheumatoid arthritis, 773
- Zollinger-Ellison syndrome, diagnosis, 747
- Zymofren, intraarticular injection in rheumatic diseases, 771
- 9,921 RP, *see* Zymofren
- 16,091 RP, *see* Methiazinic acid

SUBJECT INDEX

An asterisk denotes title and reference only

- Acidosis, postasphyxial, in the newborn, effects of intragastric and intravenous sodium bicarbonate on rate of recovery, 861
—, renal tubular, and Sjögren's syndrome, 853
Acromegaly, conventional pituitary irradiation in, 871
—, lung size in, 847
—, pituitary fossa in, plain film and tomographic assessment, 871
Aerosol, ultrasonic, effect on pulmonary mechanics and arterial blood gases in chronic bronchitis, 818
Age, effect on normal leucocyte count, 811
—, relation to cystic medial necrosis of ascending aorta, 812
Agranulocytosis due to dapsone, 824
Air pollution and cancer, aspects of geographical pathology, 868
Airways obstruction, chronic, long-term continuous oxygen therapy in, mortality in relation to cor pulmonale, hypoxia, and hypercapnia, 845
—, —, regional lung function in, 846
—, in cystic fibrosis, effect of isoprenaline on, 866
Ajmaline in arrhythmias, 837
Aldosterone, *see also* Hyperaldosteronism
— secretion rate in hypertension, relation to plasma renin activity, 842
Aldrin, occupational exposure to, clinical and laboratory findings, 870
Allergy, 825
— to grass pollen and horse dander, association of IgE with reaginic activity in serum in, 825
 ϵ -Aminocaproic acid in preoperative correction of haemostatic defect in cyanotic congenital heart disease, 835
Aminophylline, effect on respiration and pulmonary circulation, 819
p-Aminosalicylic acid causing false elevations of serum glutamic-oxaloacetic transaminase activity, 811
Amniotic fluid analysis in assessment of Rh disease, 861
Amoebiasis, invasive, latex agglutination test for, 815
Anaemia, iron deficiency, relation between erythrocyte survival and alterations in metabolism in, 843
— and temporary erythroblastopenia syndrome in children, 863
Anastomosis, superior vena cava-right pulmonary artery, long-term follow-up study, 836
Aneurysm, multiple cerebral, risk of rupture of a second aneurysm in, 855
Angina pectoris, acute change in haemoglobin affinity for oxygen during, 838
—, isosorbide dinitrate and prenylamine theophylline acetate combined in, 839
Anorchia, effect of testosterone on growth hormone secretion in, 865
 α_1 -Antitrypsin deficiency, hereditary, pathological manifestations, 864
Aorta, ascending, cystic medial necrosis of, in relation to age and hypertension, 812
Arrhythmia, atrial fibrillation, concealed conduction during, 837
Arrhythmia, atrial fibrillation, mechanism of production, 838
—, —, pattern of onset and spontaneous cessation, 838
—, N-propylajmaline bitartrate in, 837
Arteries, coronary, *see* Coronary
—, internal carotid, obstruction of, increased early radionuclide activity in nasopharyngeal area in, 872
Arteriography in renal parenchymal diseases, 872
Arthritis, rheumatoid, early, carpal tunnel syndrome in, 852
—, —, iron dextran in, reactions to total dose infusion, 852
—, of knee, intraarticular pressure in, 851
—, —, thoracic duct fistula construction as immunosuppressive treatment in, 851
—, —, urinary tract infection in, 852
—, sarcoid, in children, 851
Asphyxia neonatorum, effects of intragastric and intravenous sodium bicarbonate on rate of recovery from acidosis in, 861
Asthma, occupational, among cedar wood workers, 870
Australia antigen in acute infective hepatitis, 814
—, —, chronic hepatitis, 814
—, —, location by immunofluorescence, 816
BCG vaccination, influence on subsequent tuberculin tests, 822
Bell's palsy, familial oculomotor palsy with, 867*
Birth weight, relation to intellectual development at ages 8–10 years, 862
Bladder tumours in children, cystographic detection, 865
Blood, *see also* Circulation; Erythrocyte; Haemoglobin; Leucocyte
— gas, arterial, in chronic bronchitis, effect of ultrasonic aerosol on, 818
— studies, serial, during cardiopulmonary resuscitation, 833
— plasma volume expansion in pneumonia, 844
Brain, *see also* Cerebrovascular
— tumour, decerebration for, recovery, 854
Bread, brown, iron absorption from, 826
Bronchitis, chronic, effects of ultrasonic aerosol on pulmonary mechanics and arterial blood gases in, 818
—, — haemophilus, massive doses of penicillin and penicillin with streptomycin in, 844
Burns complicated by suppurative thrombophlebitis, 833
Buruli lesions, preulcerative, clinical features and treatment, 824
Butoxamine and practolol, comparison of effect on myocardial circulation, 818
Calcium deficiency after partial gastrectomy, 830
Carbohydrate and fats, interrelationship of various kinds in hyperlipoproteinemia, 826, 827
Cardia competence before and after total abdominal vagotomy, 829
Cardiovascular system, 833–42
Carditis, rheumatic valvular, incidence of coronary artery disease in, 837
Carpal tunnel syndrome in early rheumatoid arthritis, 852
Cedar wood workers, occupational asthma and rhinitis in, 870
Cerebrocostomandibular syndrome, a familial developmental disorder, 867
Cerebrovascular disease, local, effect of papaverine on regional blood flow in, 819
Chemotherapy, 820
Children, *see also* Infants
—, anaemia and temporary erythroblastopenia in, 863
—, bladder tumours in, cystographic detection, 865
—, disturbed, comparison of haloperidol and fluphenazine in, 858
—, nephrotic syndrome in, international cooperative prospective study, 813
—, pyoderma in, treatment, 859
—, recurrent abdominal pain in, 863
—, Rocky Mountain spotted fever in, 821
—, sarcoid arthritis in, 851
Chlordiazepoxide, effect on thyroid function tests, 847
Chromosome abnormality, XXY type in men, relation to crime and psychoses, 867
Circulation, myocardial, effect of practolol on, comparison with butoxamine, 818
—, pulmonary, effect of aminophylline on, 819
Cirrhosis, *see* Liver
Clindamycin, clinical and bacteriological studies, 820
Coeliac disease, osteomalacic, in adults, radioactive calcium studies, 827
Colitis, ulcerative, review, 828*
—, —, thrombocytosis in, 828
Coma, irreversible, and cerebral death, study of 71 cases, 854
Contraceptive, oral, effect on normal leucocyte count, 811
Coronary artery disease, incidence in rheumatic valvular heart disease, 837
—, — and left ventricular function in mitral stenosis, 837
Corticosteroid as vasodilator in low output syndrome, 841
— in dermatology (review article), 797
Criminality, relation of XXY chromosome abnormality in men to, 867
Crohn's disease, thrombocytosis in, 828
Cytotoxic serum factor in polyarteritis nodosa and related conditions, 813
Dapsone treatment, agranulocytosis due to, 824
Death, cerebral, and irreversible coma, study of 71 cases, 854
Decerebration, recovery from, 854
Dermatitis herpetiformis, small-intestinal mucosal abnormalities in relatives of patients with, 859
Dermatology, 859–60
—, corticosteroids in treatment (review article), 797

SUBJECT INDEX

- Dermographism, ultrastructural changes in skin in, 859
- Diabetes mellitus detection by rapid screening test, 849
- , —, glibenclamide in, clinical and metabolic study, 849, 850
- , —, maturity-onset, early insulin response to glucose and to tolbutamide in, 849
- Dimethyl sulphide in breath in liver cirrhosis, effect of methionine ingestion, 831
- L-Dopa in Parkinsonism, abnormal movements during treatment, 857
- , —, post-surgical Parkinsonism, 856
- Dressing, plastic occlusive, effect on psoriatic epidermis, 860
- Dumping syndrome, calcium deficiency after partial gastrectomy, 830
- Duodenum acidification, effect on gastric secretory response to pentagastrin, 831
- Dyslexia, relation to underlying brain function, retrospective study, 865
- Dystrophia myotonica, early recognition of heterozygotes for gene for, 867
- Electrocardiogram changes of vegetative and organic origin, differentiation by propranolol test, 834
- , —, in acute papillary muscle dysfunction and infarction, clinicopathological study, 834
- , "silent" T wave inversion, relation to cardiovascular disease in an epidemiological study, 833
- Encephalopathy, portal-systemic, in liver cirrhosis, lactulose treatment, 832
- Endocrinology, 847-50**
- Eosinophilia, early, induction in guinea-pigs by intrapulmonary injection of antigenic determinants and antigens, 825
- Epilepsy, mental deterioration due to folate deficiency in, 855
- , —, posttraumatic, longitudinal electroclinical study from time of original trauma, 856
- Erythroblastopenia, temporary, and anaemia, syndrome in children, 863
- Erythroblastosis foetalis, assessment by amniotic fluid analysis, 861
- Erythrocyte survival and alterations in metabolism in iron deficiency anaemia, 843
- Escherichia coli*, serologically classified strains, sensitivity to serum bactericidal system, 815
- Exercise in middle-aged men, variations in maximal oxygen intake with, 833
- Fat and carbohydrate, interrelationship of various kinds in hyperlipoproteinemia, 826, 827
- Fatty acid, volatile, in breath of patients with liver cirrhosis, 831
- Fibrillation, see Arrhythmia
- Fibroblast, cultivated, in cystic fibrosis of pancreas, ultrastructure, 812
- Fibrosis, cystic, effect of isoprenaline on airways obstruction in, 866
- Fluphenazine in disturbed children, comparison with haloperidol, 858
- Folate deficiency in epilepsy, mental deterioration due to, 855
- , —, deficiency in psychiatric patients, 858
- Food poisoning, *Salmonella virchow*, due to cooked meat, 868
- , —, —, experimental evidence on cooking of chicken, 868
- Galactosaemia, long-term follow-up study, 862
- Gallium, radioactive scanning with in detection of malignant neoplasms, 871
- Gambling, pathological, varieties of, 858
- Gastrectomy, partial, calcium deficiency after, 830
- Gastrin level in serum in peptic ulceration, 830
- Gastroenterology, 828-32**
- Genetics, medical, 867**
- Gilbert's syndrome, phenobarbitone in, 832
- Glibenclamide in diabetes, clinical and metabolic study, 849, 850
- Glucagon, central and peripheral haemodynamic effects, 817
- , —, in congestive heart failure, 841
- , —, resistant heart failure and cardiogenic shock, 840
- , —, systemic and coronary haemodynamic effects, 817
- Glutamic-oxaloacetic transaminase activity in serum, false elevations due to *p*-aminosalicylic acid, 811
- Glycosuria, induced, in rapid screening test for diabetes, 849
- Gonorrhoea, skin and joint manifestations, 823
- Growth hormone secretion in anorchia and delayed puberty, effect of testosterone on, 865
- , —, retardation, growth hormone response patterns to sex hormone administration in, 864
- Guillain-Barré syndrome, relationship of circulating immunocytes to disease activity, 857
- Haematocrit levels of preschool children, effects of dietary and iron supplementation on, 863
- Haematology, clinical, 843**
- Haemoglobin affinity for oxygen, acute change during angina pectoris, 838
- , —, concentration, normal variations in, 811
- , —, level, effect on normal leucocyte count, 811
- Haloperidol in disturbed children, comparison with fluphenazine, 858
- Handedness, distribution and symptoms of osteoarthritis in hands with reference to, 853
- Head injury, bacterial meningitis after, 855
- Heart, *see also* Carditis; Coronary; Ischaemia; Myocardial infarction
- , —, block, right-sided bundle-branch, and atrioventricular, in three generations of one family, 867*
- , —, disease, cyanotic congenital, preoperative correction of haemostatic defect with ϵ -aminocaproic acid, 835
- , —, failure, congestive, glucagon in, 841
- , —, resistant, glucagon in, 840
- , —, mitral stenosis, coronary artery disease and left ventricular function in, 837
- , —, murmurs of mitral and aortic regurgitation, effect of pregnancy on, 836
- , —, output, low, syndrome, corticosteroids as vasodilators in, 841
- , —, valve, pulmonary, congenital absence, 835
- , —, ventricle, single, clinical picture and diagnosis, 834
- Hepatitis, acute infective, autoantibodies and Australia antigen in, 814
- , —, chronic, Australia antigen and autoantibodies in, 814
- , —, —, necrotizing, 831
- Hepatitis, infective, natural history and prevention, 821
- , —, —, and serum, immunological distinction, 816
- "Hot nose", 872
- Hydroxocobalamin, effect in elderly subjects with low serum vitamin B₁₂ levels, 826
- Hyperaldosteronism, primary and secondary, distinction between, 842
- Hyperbilirubinaemia, *see* Gilbert's syndrome
- Hyperlipoproteinaemia, interrelationship between kinds of dietary carbohydrate and fat in, 826, 827
- Hypertension in chronic renal failure, relevance of salt, water, and renin to, 841
- , —, plasma renin activity and aldosterone secretion rate in, 842
- , —, relation to cystic medial necrosis of ascending aorta, 812
- Immunocyte, circulating, relation to disease activity in Guillain-Barré syndrome, 857
- Immunoglobulin deficiency, gastric disorder in, 829
- Industrial medicine, 870**
- Infants, newborn, thyroid function tests in, 861
- Infarct, *see* Propranolol
- Infection, staphylococcal, causing scalded skin syndrome, experimental model, 866
- Infectious diseases, 821**
- Influenza vaccine in adjuvant 65, long-term serological and clinical follow-up study, 869
- Intellectual development at ages 8-10 years, effect of birth weight and length of gestation on, 862
- Iron absorption from brown bread, 826
- , —, dextran in rheumatoid arthritis, reactions to total dose infusion, 852
- , —, supplementation of preschool children, effect on haematocrit levels, 863
- Ischaemia, cardiac, immediate revascularization in, 839
- Isoorbide dinitrate and prenylamine theophylline acetate in angina pectoris, clinical trial, 839
- Jejunum mucosa abnormalities in relatives of patients with dermatitis herpetiformis, 859
- Joint manifestations in gonorrhoea, 823
- Kidney, *see also* Nephrotic
- , —, disease, parenchymal, arteriographic diagnosis, 872
- , —, failure, chronic, relevance of salt, water, and renin to hypertension in, 841
- , —, tubular acidosis and Sjögren's syndrome, 853
- , —, vascular changes in ankylosing spondylitis, 853
- Knee, intraarticular pressure in rheumatoid arthritis, 851
- Lactate content of blood as indicator of severity of haemorrhagic shock, 842
- Lactulose in hepatoportal encephalopathy, 832
- Latex agglutination test for invasive amoebiasis, 815

SUBJECT INDEX

Leucocyte count, normal, effect of age, sex, parity, haemoglobin level, and oral contraceptives on, 811
 Librium. *see* Chlordiazepoxide
 Lichen planus, nail lesions in, 860
 Lidocaine. *see* Lignocaine
 Lignocaine, antimicrobial activity, 820
 Lindane, occupational exposure to, clinical and laboratory findings, 870
 Lipoprotein. *see also* Hyperlipoproteinaemia
 — level in serum, pattern in myocardial infarction, 840
 — and lipid levels in plasma in myocardial infarction and in control subjects, 840
 Liver. *see also* Hepatitis
 — cirrhosis, effect of methionine ingestion on mercaptane and dimethyl sulphide in breath, 831
 — —, volatile fatty acids in breath in, 831
 — — with portal-systemic encephalopathy, lactulose treatment, 832
 —, intermittent multispecies liver perfusions in long-term support, 831*
 — transplantation, serum immunosuppressive activity due to azathioprine in relation to liver function after, 832
 Lung disease, chronic obstructive, genetic and environmental determinant of, 846
 — function, regional, in obstructive lung disease, 846
 — mechanics in chronic bronchitis, effect of ultrasonic aerosol on, 818
 — size in acromegaly, 847
 Lupus erythematosus, fluorescent treponemal antibody-absorption test reactions in, 823
 Lymphoid infiltration, benign, of stomach, 830

 Malaria, *vivax*, naturally acquired, fluorescent-antibody patterns in, 824
 Meconium peritonitis, radiological signs, 872
 Meningitis, posttraumatic bacterial, 855
 Mental and physical degeneracy, a new syndrome?, 865
 Mercaptane in breath in liver cirrhosis, effect of methionine ingestion on, 831
 Metabolism, 826-7
 Methionine ingestion, effect on mercaptane and dimethyl sulphide in breath of patients with liver cirrhosis, 831
 Meulengracht's syndrome. *see* Gilbert's syndrome
 Microbiology, 815-6
 Mitral. *see* Heart
 Mucopolysaccharides, genetic, diagnosis and differential diagnosis, 827*
 Mumps virus vaccine, live attenuated, depression of tuberculin delayed hypersensitivity by, 822
Mycobacterium ulcerans, *see* Buruli
 Myocardial disease, primary, clinical, haemodynamic, and angiocardigraphic correlates, 836
 — function, left ventricular, comparison of effects of oxprenolol and propranolol on, 818
 — infarction, acute, electrocardiographic analysis of changes due to papillary muscle dysfunction and infarction, 834
 — —, —, practolol in, circulatory effects, 817
 — —, lipoprotein pattern in, 840
 — —, plasma lipid and lipoprotein levels in, 840

 Nail lesions in lichen planus, 860
 Neoplasm, malignant, detection by gallium⁶⁷ scanning, 871

Nephrotic syndrome in children, international cooperative prospective study, 813
 Neurology and Neurosurgery, 854-7
 Nitrofurantoin, pleuropulmonary allergic reaction to, 825
 Nose in internal carotid artery obstruction, increased early radionuclide activity in, 872
 Nutrition, 826-7

 Obesity, absence of satiety aversion to sucrose in, 827
 Oesophagus involvement in systemic sclerosis, manometric and radiological correlation, 828
 Old age. *see* Senescence
 Osteoarthritis in hands, distribution and symptoms with reference to handedness, 853
 Osteomalacia diagnosis by estimation of radioactive calcium levels in plasma, 827
 Oxprenolol and propranolol, comparison of effects on left ventricular myocardial function, 818
 Oxygen affinity of haemoglobin, acute change during angina pectoris, 838
 — intake, maximal, variations with physical activity in middle-aged men, 833
 — therapy, long-term continuous, in chronic airways obstruction, mortality in relation to cor pulmonale, hypoxia, and hypercapnia, 845

 Paediatrics, 861-6. For details *see* Children; Infants
 Pain, abdominal, recurrent in childhood, 863
 Pancreas, cystic fibrosis, ultrastructure of cultivated fibroblasts in, 812
 Pancreatic, chronic, long-term evolution, 828
 Papaverine, effect on regional blood flow in local vascular disease of brain, 819
 Parasitology, 815-6
 Parity, effect on normal leucocyte count, 811
 Parkinsonism, L-dopa treatment, abnormal movements during, 857
 —, post-surgical, L-dopa in, 856
 —, unilateral, effect of thalamotomy on progress, 856
 Paronychia, chronic, bacterial and mycotic flora in, 860
 Pathology, 811-4
 Pemphigus vulgaris, cell junctions in, electron microscopic study, 812
 Penicillin with and without streptomycin, massive doses in chronic haemophilus bronchitis, 844
 Pentagastrin, effect of acid infusion into duodenum on gastric secretory response to, 831
 Peritonitis, meconium, radiological signs, 872
 Pesticide. *see* Aldrin, Lindane
 Pharmacology, 817-9
 Phenobarbitone in Gilbert's syndrome, 832
 Pituitary fossa in acromegaly, plain film and tomographic assessment, 871
 — irradiation, conventional, efficacy in acromegaly, 871
 Plasma. *see* Blood
 Pneumonia, haemodynamic effects, 844
 Polyarteritis nodosa and related conditions, cytotoxic serum factor in, 813
 Polycythaemia, primary, diagnosis and treatment, 843

Practolol and butoxamine, comparison of effects on myocardial circulation, 818
 — in acute myocardial infarction, circulatory effects, 817
 Pregnancy duration, relation to intellectual development of child at 8-10 years of age, 862
 —, effect on murmurs of mitral and aortic regurgitation, 836
 Prenylamine theophylline acetate and isosorbide dinitrate in angina pectoris, clinical trial, 839
 Prethcamide, oral, in chronic respiratory failure, 845
 Procaine, antimicrobial activity, 820
 Propranolol and oxprenolol, comparison of effects on left ventricular myocardial function, 818
 — test in differentiation of electrocardiographic changes of vegetative and organic origin, 834
 Psoriasis, effect of plastic occlusive dressings on skin in, 860
 Psychiatry, 858
 Puberty, delayed, effect of testosterone on growth hormone secretion in, 865
 Public health, 868-9
 Pyoderma in children, treatment, 859
 Pyruvate content of blood as indicator of severity of haemorrhagic shock, 842

 Radiology, 871-2
 Regurgitation, mitral and aortic, effect of pregnancy on murmurs in, 836
 Renin activity in plasma in hypertension, relation to aldosterone secretion rate, 842
 Respiration, effect of aminophylline on, 819
 Respiratory failure, chronic, oral prethcamide in, 845
 — system, 844-6
 Resuscitation, cardiopulmonary, serial blood gas studies during, 833
 Rh disease. *see* Erythroblastosis foetalis
 Rheumatic diseases, 851-3
 Rhinitis, occupational, among cedar wood workers, 870
 Riboflavin metabolism, review, 826*
 Rocky Mountain spotted fever in children, 821

 Salmonellosis. *see* Food poisoning
 Sarcoid arthritis in children, 851
 Scalded skin syndrome, staphylococcal, experimental model, 866
 Schizophrenia in children, comparison of haloperidol and fluphenazine in, 858
 Sclerosis, systemic, oesophageal involvement in, manometric and radiological correlation, 828
 Senescence, low serum vitamin B₁₂ levels in, effect of hydroxocobalamin on, 826
 Sex, effect on normal leucocyte count, 811
 Shock, cardiogenic, glucagon treatment, 840
 —, haemorrhagic, lactate and pyruvate as indicators of severity, experimental and clinical studies, 842
 Sjögren's syndrome and renal tubular acidosis, 853
 Skin manifestations in gonorrhoea, 823
 —, ultrastructural changes in dermatographism, 859
 Sodium bicarbonate, intragastric and intravenous, effect on rate of recovery from postasphyxial acidosis in the newborn, 861

SUBJECT INDEX

Spondylitis, ankylosing, renal vascular changes in, 853

Sucrose, satiety aversion, absence in obesity, 827

Syphilis, early, post-treatment disappearance of reactivity in treponemal and lipoidal tests in, 823

Testosterone, effect on growth hormone secretion in anorchia and delayed puberty, 865

Thalamotomy, effect on progress of unilateral Parkinsonism, 856

Thoracic duct fistula as immunosuppressive treatment in rheumatoid arthritis, 851

Thrombocytosis in ulcerative colitis and Crohn's disease, 828

Thrombophlebitis, suppurative, after burns, 833

Thyroid carcinoma, plasma thyrotrophin and long-acting thyroid stimulator after treatment of, 848

— disease, acral changes in, 847

— function test(s), effect of chlorthalidopoxide on, 847

— — in newborn infants, 861

— replacement therapy, combined thyroxine and triiodothyronine for, 848

Thyrotrophin releasing hormone, synthetic, response of thyroid stimulating hormone to, clinical study, 848

Timber, *see* Cedar

Trasicor, *see* Oxprenolol

Tropical medicine, 824

Trypanosomiasis, Rhodesian, possible immunity to, 824

Tuberculin delayed hypersensitivity, depression by live attenuated mumps virus, 822

— testing with previous BCG immunization, 822

Tuberculosis, 822

—, pulmonary, rifampicin, isoniazid, and streptomycin combined with return to work after 45 days, 822

Tumour, *see* Neoplasm

Ulcer, giant duodenal, 831*

—, peptic, serum gastrin level in, 830

Urinary tract infection in rheumatoid arthritis, 852

Vagotomy, total abdominal, effect on competence of cardia, 829

Venereal diseases, 823

Vitamin B₁₂, *see* Hydroxocobalamin

Wood, *see* Cedar

SUBJECT INDEX

An asterisk denotes title and reference only

- Acid-base balance changes in newborn infants after oral sodium bicarbonate administration, 930
- Acidosis, hyperglobulinaemic renal tubular, 909
- Acromegaly, insulin secretion in, 910
- Agammaglobulinaemia, *in vitro* lymphocyte response in, 876
- Age, gestational, of newborn infant, clinical assessment, 930
- , influence on xylose absorption test, 888
- Airway conductance changes on smoking a cigarette, study of repeatability and effect of particulate and vapour phase filters, 906
- obstruction, effect of intravenous histamine on specific airway conductance in, 907
- resistance, dependence on flow rate in asthma and emphysema, 907
- Alactasia, psychiatric study, 925
- Albumin, gastroenteric clearance in liver cirrhosis, 892
- Aldosteronism, primary, surgical treatment, 912
- Allergy, 886
- Amantadine prophylaxis of A/2 Hong Kong influenza, 881
- Ammonia production in colon, effects of cleansing, neomycin, and acetohydroxamic acid, 888
- Amylobarbitone sodium, persistent behavioural and electroencephalographic changes after single dose, 879
- Amylopectin in recurrent duodenal ulcer, 891
- Anaemia, iron deficiency, in women, effect of iron therapy on psychomotor function, 903
- , —, iron supplements for prevention, evaluation, 902
- , —, and megaloblastic plasma and erythrocyte folate levels in, 902
- , megaloblastic, of pregnancy, total and labile serum folate levels in, 903
- of rheumatoid arthritis, significance of iron deposits in synovial membrane, 918
- , pernicious, in diabetes mellitus, 915
- Angiocardiography in study of hilar masses, 947
- Anoxia, acute cerebral, causing epileptic seizures, 923
- Antibiotic production, modification of intestinal flora of workers engaged on, 943
- Anticholinergic treatment, prolonged, effect on gastric acid secretion, 890
- Anxiety in children with rheumatic fever, relation to route of prophylaxis, 937
- Aorta coarctation in infants, effect on liver, 874
- stenosis, calcific, atypical presentations, 895
- Apnoea-alarm mattress for newborn infants, clinical assessment, 930
- Arcus senilis, relation to certain attributes and risk factors in coronary heart disease, 898
- Arrhythmia, *see also* Tachycardia
- after myocardial infarction, bretylium tosylate prophylaxis, 898
- , atrial fibrillation, quinidine bisulphate for maintenance of sinus rhythm after DC conversion, 896
- , —, flutter, propranolol in, 896
- Arrhythmia in children with pulmonary stenosis, 933
- , —, practolol in, 897
- Arteriography, selective bronchial, and blood flow, correlative study, 946
- Arthritis, rheumatoid, anaemia of, significance of iron deposits in synovial membrane, 918
- , —, azathioprine in, 919
- , —, "collagen-like" protein and collagen antibodies in, 918
- , —, early symptoms and signs, prospective study, 917
- , —, neuromuscular disorders in, 918
- , —, prognosis, significance of positive tests for rheumatoid factors in, follow-up study, 917
- Asbestosis, pleural calcification in, compared with that in tuberculosis, 942
- Aspirin and gastrointestinal haemorrhage in gastric ulcer, 891
- Asthma, airway resistance dependency on flow rate in, 907
- , bronchial, and chronic bronchitis, differentiation by intravenous histamine test, 907
- , relation of climatological and seasonal factors to outbreaks in New Orleans, 886
- Atlas dislocation, radiological diagnosis, 946
- Australia antigen determinants in acute viral hepatitis, 877
- Azathioprine in refractory idiopathic thrombocytopenic purpura in children, 934
- , —, rheumatoid arthritis, long-term treatment, 919
- Bacteraemia, *Staphylococcus albus*, with renal disease after ventriculoatrial shunts, 881
- Bannwarth's syndrome, 922
- Behaviour pattern of coronary-prone individuals, biochemical study, 897
- Behçet's syndrome, psychiatric aspects, 925
- Birth order and psychiatric problems in military recruit training camp, 924
- Blindness, transient monocular, in chronic rheumatic carditis, 895
- Blood flow, bronchial and selective bronchial arteriography, correlative study, 946
- platelet adhesiveness, effect of oral contraceptives on, 878
- pressure, *see* Hypertension; Hypotension
- variations, diurnal, in cerebrovascular disease, 922
- Body composition and insulin growth hormone responses, interrelationship in obese adolescents, 935
- Bradycardia, sinus, atrial pacing in, 897
- Bretylium tosylate prophylaxis of arrhythmias after myocardial infarction, 898
- Bronchiectasis complicated by haemoptysis, 935
- Bronchitis, chronic, and bronchial asthma, differentiation by intravenous histamine tests, 907
- , —, hyperplasia of bronchial muscle in, 875
- Bronchus, selective arteriography and blood flow, correlative study, 946
- Brucellosis due to *Brucella abortus* in France, 940
- Butaperazine in chronic schizophrenia, comparison with chlorpromazine and placebo, 928
- Calcification, pleural, in asbestosis and tuberculosis, differential diagnostic features, 942
- Calcium, *see also* Hypercalcaemia
- carbonate in duodenal ulcer, acid secretion after, 892
- Calculus, renal, in children, 935
- Candidiasis, cutaneous, manganese phenanthroline chelate in, 929
- Capillary morphology in rheumatic diseases, 916
- Carbohydrate ingestion, effect on abnormal α -cell function in diabetes, 913
- metabolism in thyroid disease, effect of glucagon on, 910
- Carbon tetrachloride poisoning, hepatic and renal complications, 945
- Cardiovascular system, 894-901
- Cardioversion, DC, after cardiac surgery, quinidine prophylaxis of arrhythmias, follow-up study, 897
- Carditis, rheumatic, chronic, transient visual obscurations in, 895
- Catatonia, acute lethal, in psychiatric hospital, 924
- Cerebrovascular disease, diurnal blood pressure variations in, 922
- Chemotherapy, 880
- Chickenpox, central nervous system manifestations, 882
- Children, *see also* Infants
- , chronic idiopathic pancytopenia in, 934
- , chylothorax and chyloperitoneum in, 894
- , deaths in Greater London, 1966, 940
- , presacral masses in, 933
- , refractory idiopathic thrombocytopenic purpura in, azathioprine treatment, 934
- , renal calculi in, 935
- , rheumatic fever in, relation of anxiety to route of prophylaxis, 937
- , subcutaneous tuberculin test in, 883
- Chinese restaurant syndrome, monosodium glutamate and, 944
- Chlorimipramine, intravenous, in depression, 926
- Chlorpromazine in chronic schizophrenia, comparison with butaperazine and placebo, 928
- Chlorthalidone in essential hypertension, haemodynamic changes, 900
- Cholesterol, *see* Hypercholesterolaemia
- Chondrodysplasia, multiple, in rheumatism, 916
- Chromosome, ring-shaped, comparative behaviour, 939
- Chylothorax and chyloperitoneum in children, 894
- Circulation, portacaval shunt for bleeding varices in liver cirrhosis, endoscopic study, 893
- , ventriculoatrial shunts, renal disease with *Staphylococcus albus* bacteraemia after, 881
- Cirrhosis, *see* Liver

SUBJECT INDEX

- Claudication, intermittent, incidence in Framingham study, 899
- Coeliac disease, gastrointestinal excretion of endogenous nonhaem iron in, 904
- , jejunal mucosa in, scanning electron microscopic study, 875
- Colichine level in plasma, implications as to pharmacology and mechanism of action, 878
- Colistin sulphomethate, adverse effects, manifestations and specific reaction rates, 880
- Colitis, ulcerative, in rheumatoid arthritis, 919
- Collagen antibodies and "collagen-like" protein in rheumatoid arthritis, 918
- disease, articular syndromes in, 920
- Colon, *see* Megacolon
- Coma, diabetic, hyperosmolar nonketotic, serum lipid levels in, 913
- , drug-induced, traumatic skin lesions in, 944
- , hepatic, effect of cleansing, neomycin, and acetohydroxamic acid on ammonia production in colon in, 888
- , irreversible, associated with electrocerebral silence, 922
- Contraceptive, oral, effect on lipoprotein lipase activity and platelet stickiness, 878
- Convulsion, infantile, diazepam treatment, 937
- Coronary artery disease deaths, effect of collateral from mammary artery pedicles on, 898
- — — — — prone individuals, biochemical characteristics, 897
- — — — — relation of arcus senilis to certain attributes and risk factors in, 898
- Coxsackievirus, group B, in respiratory tract disease, 881
- Crohn's disease, psychiatric study, 925
- Cytomegalovirus infection in North West of England, 941
- Death causes in treated hypertension, changes between 1952 and 1967, 901
- from coronary disease, effect of collateral from mammary artery pedicle on, 898
- of children in Greater London, 1966, 940
- , sudden in "solvent sniffing", 944
- Delirium acutum, potentially fatal condition in psychiatric hospital, 924
- Demethylchlortetracycline in acute gonorrhoea in women, comparison with penicillin, 885
- Depression, intravenous chlorimipramine in, 926
- , manic, lithium excretion test in, clinical application and interpretation, practical and biochemical aspects, 925, 926
- following L-dopa treatment of Parkinsonism, 923
- Dermatitis, atopic, sensitivity to house-dust mite in, 886
- Dermatology, 929
- Diabetes, *see also* Coma; Nephropathy
- mellitus, abnormal α -cell function in, response to carbohydrate and protein ingestion, 913
- —, liver disease in, clinical study, 915
- —, muscle glycogen content in, effect of insulin, 914
- — and liver cirrhosis, effect of potassium chloride on glucose and insulin metabolism, 893
- — — sexual ateliotic dwarfism, comparison, 914
- —, thyroid and gastric autoimmunity in, 915
- Dialysis in acute poisoning, 945
- Diazepam in infantile convulsions, 937
- Dibromomannitol in polycythaemia vera, 902
- Diphtheria toxoid, effect of physical state and route of inoculation on formation of nasal secretory and serum antibodies, 877
- Dislocation of atlas, radiological diagnosis, 946
- of proximal epiphysis of humerus in newborn infants, diagnostic criteria, 931
- L-Dopa in Parkinsonism, mental depression following, 923
- Dwarfism, sexual ateliotic, and diabetes mellitus, comparison, 914
- Dyspepsia, recurrent, in duodenal ulcer, 891
- Ebstein's anomaly, surgical correction, 894
- Eczema, allergic contact, new pharmacological findings in, 929
- Electroencephalogram, alpha rhythm, 921
- Embolism, pulmonary, diagnosis, correlation of clinical, scan, and angiographic findings, 946
- , —, thrombolytic treatment, selection of patients for, 900
- Emphysema, airway resistance dependency on flow rate in, 907
- Endocarditis, infective, open heart surgery in, 894
- Endocrinology, 910-5
- Epilepsy seizures resulting from acute cerebral anoxia, 923
- Escherich coli*, animal sources of common serotypes in food of hospital patients, significance in urinary tract infections, 941
- Ethchlorvynol poisoning, acute, clinical picture and treatment, 945
- Factor VIII, continuous intravenous infusion in classic haemophilia, 902
- Fasting, *see* Starvation
- Fibrillation, *see* Arrhythmia
- Fibrosis, cystic, massive haemoptysis in, 935
- Fluphenazine enanthate, intramuscular, in acute and chronic psychoses, comparison with oral fluphenazine, 924
- Folate levels in plasma and erythrocytes in iron deficiency and folate deficiency anaemias, 902
- , total and labile serum levels in megaloblastic anaemia of pregnancy, 903
- Forensic medicine, 944-5
- Furrier's lung due to inhalation of animal hair, 942
- Gastric acid secretion after calcium carbonate in duodenal ulcer, 892
- — —, effect of long-term anticholinergic treatment on, serial measurement of peak amezazole response, 890
- secretion, effect of prolonged continuous infusions of maximal and supra-maximal doses of gastric stimulants on, 889
- in normal subjects, effects of histamine acid phosphate and pentagastrin on, 890
- Gastroenteritis, infantile, retrospective survey of 339 cases, 932
- Gastroenterology, 888-93
- Genetics, medical, 938-9
- Glomerulonephritis, *see* Nephritis
- Glucagon, effect on carbohydrate and lipid metabolism in thyroid disease, 910
- test in pheochromocytoma, 912
- Glucose metabolism, effect of potassium chloride on, 893
- Glycogen content of muscle in diabetes mellitus, effect of insulin on, 914
- Gonad dysgenesis and normal male karyotype in phenotypic females, 938
- Gonorrhoea, acute, in women, demethylchlortetracycline in, comparison with penicillin, 885
- , asymptomatic, in women, single-dose antibiotic treatment, 885
- , uncomplicated, spectinomycin hydrochloride treatment, 885
- Granulomatous disease, chronic, in children, disorder of tryptophan metabolism in, 933
- Graves' disease, long-acting thyroid stimulator in, 911
- Growth hormone levels in serum, comparison after stimulation with Bovril and insulin, 936
- response to insulin in obese adolescents, relation to body composition, 935
- Haematology, clinical, 902-5
- Haemolytic disease of newborn, hypoglycaemia and urinary excretion of insulin in, 931
- — — — — uraemic syndrome, heparin in, 934
- — — — — in adults, 908
- Haemophilia, classic, continuous intravenous infusion of Factor VIII in, 902
- Haemoptysis, massive, in cystic fibrosis, 935
- secondary to bronchiectasis in young persons, 935
- Haemorrhage, gastrointestinal, due to gastric ulcer, association of aspirin with, 891
- Head carcinoma, hyperbaric oxygen with radiotherapy in, 948
- Headache, visual defects and, community study, 921
- Heart, *see also* Coronary; Myocardial infarction; Pericarditis
- disease, congenital, hepatic cell necrosis in newborn with, 874
- —, liver damage in infants with, 874
- —, rheumatic, *see* Carditis
- , mitral annuloplasty, long-term results, 895
- , pulmonary stenosis, congenital, arrhythmia in children with, 933
- surgery, open, in infective endocarditis, 894
- Heparin in haemolytic-uraemic syndrome, 934
- Hepatitis, acute viral, Australia-antigen determinants in, 877
- , fatal, early diagnosis, 893
- Hernia, hiatus, oesophageal response to gastric reflux in, 889
- , peristaltic activity of oesophagus in, simple tests, 888
- , mediastinal, of lung, functional capacity, 906
- Heterozygotes, detection by serum hexosaminidase assay, 939
- Hesosaminidase assay in serum in diagnosis of Tay-Sachs disease and detection of heterozygotes, 939

SUBJECT INDEX

Histamine acid phosphate, effect on gastric secretion in normal subjects, 890
 —, prolonged continuous intravenous infusion, effect on gastric secretion, 889
 —, intravenous, effect on specific airway conductance in airway obstruction and in normal subjects, 907
 House-dust mite sensitivity in atopic dermatitis, 886
 Humerus, proximal epiphysis, dislocation in newborn infants, diagnostic criteria, 931
 Hyaline membrane disease, cellular changes, 873
 —, lecithin content of lungs and, 873
 —, radiological study of 110 cases, 947
 Hydrocephalus, ventriculoatrial shunts in, complicated by renal disease with *Staphylococcus albus* bacteraemia, 881
 Hydrochlorothiazide in essential hypertension, haemodynamic changes, 900
 Hypocalcaemia, symptomatic, in thyrotoxicosis, 911
 Hypercholesterolaemia, familial, effects of short-term high-carbohydrate feeding on serum triglyceride levels of children with, 887
 Hyperparathyroidism, primary, in children, 935*
 Hypertension, essential, chlorthalidone, polythiazide, and hydrochlorothiazide in, comparison of haemodynamic effects, 900
 —, treated, changes in life expectancy and causes of death between 1952 and 1967, 901
 —, untreated, radiological chest findings in, correlation with systemic haemodynamics, 900
 Hypoglycaemia in haemolytic disease of newborn, 931
 Hypophosphataemia, familial and non-familial, defective intestinal phosphate absorption in, 887
 Hypotension, primary neurogenic orthostatic, 901
 Hypothyroidism associated with vertebral anomalies, 936
 Immunoglobulin G levels in serum of dystrophic newborn infants, 930
 Indomethacin in pericarditis, 894
 Industrial medicine, 942-3
 Infants, newborn, acid-base balance changes after oral sodium bicarbonate, 930
 —, —, apnoea-alarm mattress for, clinical assessment, 930
 —, —, gestational age, clinical assessment, 930
 —, —, hepatic cell necrosis with congenital heart disease in, 874
 —, —, small-for-dates, serum immunoglobulin G levels in, 930
 Infection, cutaneous, manganese phenanthroline chelate in, 929
 Infectious diseases, 881-2
 Inflammation, intestinal, in rheumatoid arthritis, 919
 —, ultraviolet induced, pharmacological activity of perfusate recovered from skin in, 929
 Influenza, A2/Hong Kong, amantadine prophylaxis, 881
 —, —, outbreak in Great Britain, field and laboratory study, 940
 Insulin, effect on muscle glycogen content in diabetes mellitus, 914
 —, excretion, urinary, in haemolytic disease of newborn, 931

Insulin metabolism, effect of potassium chloride on, 893
 —, secretion in acromegaly, 910
 Intellectual development of children, effect of early treatment of phenylketonuria on, 932
 —, —, phenylketonuric children, effect of early treatment on, 932
 Intelligence in twins and singletons, measurement of difference, 937
 Intestinal flora, modification in workers engaged on antibiotic production, 943
 Intrinsic factor antibodies in absence of pernicious anaemia, 904
 Iodine metabolism in autoimmune thyroiditis, 911
 —, radioactive, therapy of outpatients, contamination hazard, 948
 Iron deposits in synovial membrane, significance in anaemia of rheumatoid arthritis, 918
 —, endogenous nonhaem, gastrointestinal excretion, importance in coeliac disease and in iron overload, 904
 —, supplements in prevention of iron deficiency anaemia, evaluation, 902
 —, therapy, effect on psychomotor function in anaemic women, 903
 Jejunum mucosa, normal and coeliac, scanning electron microscopy of, 875
 Joint syndromes in collagen diseases, 920
 Kidney, *see also* Nephritis
 —, complications of carbon tetrachloride poisoning, 945
 —, disease with *Staphylococcus albus* bacteraemia after ventriculoatrial shunts, 881
 —, failure, acute, due to nephrotoxins, renal haemodynamic and angiographic studies, 908
 Krabbe's leucodystrophy, 921
 Lecithin content of lungs and hyaline membrane disease, 873
 Leucodystrophy, Krabbe's, 921
 Leukaemia, "hairy-cell", 904
 Lipid levels in serum in hyperosmolar nonketotic diabetic coma, 913
 —, metabolism in thyroid disease, effect of glucagon on, 910
 Lithium excretion test in manic depression, clinical application and interpretation, practical and biochemical aspects, 925, 926
 Liver, *see also* Coma; Hepatitis
 —, cell necrosis in newborn infants, pathological study with reference to congenital heart disease, 874
 —, cirrhosis and diabetes, effect of potassium chloride on glucose and insulin metabolism, 893
 —, protein-losing gastroenteropathy in, 892
 —, portacaval shunt for bleeding varices in, endoscopic study, 893
 —, complications of carbon tetrachloride poisoning, 945
 —, disease in diabetes mellitus, clinical study, 915
 —, effect of congenital heart disease on, 874
 LSD, *see* Lysergide

Lung disease, diffuse, diagnosis by lung biopsy, 906*
 —, function in scleroderma, 920
 —, hilar masses, angiocardigraphic study, 947
 —, mediastinal herniation, functional capacity, 906
 —, scanning in diagnosis of pulmonary embolism, correlation with clinical and angiographic findings, 946
 Lupus erythematosus, cutaneous manifestations, clinical study in Singapore, 920
 Lymphocyte response, *in vitro*, of patients with immunological deficiency diseases, 876
 Lysergide, effect on pregnancy, 879
 Manganese phenanthroline chelate in dermatological infections, 929
 Mefenamic acid, antipyretic activity, comparison with amidopyrine and a placebo, 878
 Megacolon with hyperplasia of myenteric plexus, anatomical and clinical entity, 932
 Melphalan, low-dosage continuous, in multiple myeloma, 905
 Meningitis, chronic lymphocytic, with clinical picture of polyneuritis, 922
 —, tuberculous, intrathecal streptomycin and hydrocortisone in, evaluation, 884
 Mental manifestations of ectopic tachycardias in old age, 896
 Metabolism, 887
 Microbiology, 877
 Mitral, *see* Heart
 Mongolism, mosaic, clinical correlations and cytogenetic studies, 938
 Mononeuritis multiplex associated with chronic lymphocytic meningitis, 922
 Monosodium glutamate and the Chinese restaurant syndrome, 944
Mycobacterium tuberculosis, sensitivity of fluorescence microscopy in detection, 877
 Myeloma, multiple, melphalan in low-dosage continuous regimen in, 905
 Myenteric nerve plexus hyperplasia with megacolon, anatomical and clinical entity, 932
 Myocardial infarction, bretylium tosylate prophylaxis of arrhythmia after, 898
 Neck carcinoma, hyperbaric oxygen with radiotherapy in, 948
 Neoplasm, malignant, *in vitro* screening test before chemotherapy, 880
 —, presacral, in children, 933
 Nephritis, glomerular, classification based on renal biopsy results, 875
 —, lupus, prednisolone in, effect of high doses, 909
 Nephropathy, diabetic, glomerular and "insudative lesions", electron microscopic study, 876
 Neuritis, *see* Mononeuritis
 Neurology and neurosurgery, 921-3
 Neuromuscular disorders in rheumatoid arthritis, 918
 —, function in pesticide workers, 943
 Nitrazepam, persistent behavioural and electroencephalographic changes after single dose, 879
 Nutrition, 887
 Obesity in adolescence, relation between body composition and insulin growth hormone responses in, 935

SUBJECT INDEX

Obesity, therapeutic starvation in, 887
Oesophagitis, oesophageal response to gastric reflux in, 889
Oesophagus motility in hiatus hernia, simple tests, 888
Old age, *see* Senescence
Oxygen, *see also* Anoxia
—, hyperbaric, in radiotherapy of head and neck carcinoma, clinical trial, 948

Pacemaker, atrial, in sinus bradycardia, 897

Paediatrics, 930–7. For details *see* Children; Infants

Pancreas, α -cell function, abnormal, in diabetes, response to carbohydrate and protein ingestion, 913

Pancreatitis, diagnosis by estimating serum lipase, esterase, and amylase levels, comparison, 876

Pancytopenia, chronic idiopathic infantile, 934

Parasitology, 877

Parathyroid, *see* Hyperparathyroidism
Parkinsonism, L-dopa treatment, mental depression in, 923

Pathology, 873–6

Pentagastrin, effect on gastric secretion in normal subjects, 890

—, prolonged continuous intravenous infusion, effect on gastric secretion, 889

Pericarditis, indomethacin in, 894

Pesticide workers, neuromuscular function in, 943

Phaeochromocytoma diagnosis by glucagon test, 912

Pharmacology, 878–9

Phenylketonuria, atypical, diagnosis and management, 931

—, effect of early treatment on intellectual development, 932

—, screening of "normal" population for, 940

Phobias and affective illness, 926

Phosphate, *see* Hypophosphataemia

Placidyl, *see* Ethchlorvynol

Pneumoconiosis, influence of surgical treatment for peptic ulcer on, 942

Poisoning, acute, dialysis in special centres in, 945

Polycythaemia vera, dibromomannitol in, 902

Polythiazide in essential hypertension, haemodynamic changes, 900

Porphyria cutanea tarda, neurological involvement, 921

Potassium chloride, effect on glucose and insulin metabolism, 893

— depletion in chronic respiratory failure, 906

Practolol in arrhythmias, 897

Prednisolone in lupus nephritis, effect of high doses, 909

Pregnancy, early, virus infection in, effect on children to four years of age, 937

—, effect of lysergide on, 879

—, megaloblastic anaemia, total and labile serum folate levels in, 903

— rubella, serological assessment, 882

Propantheline in recurrent duodenal ulcer, 891

Propranolol in atrial flutter, 896

Protein ingestion, effect on α -cell function in diabetes, 913

— losing gastroenteropathy in hepatic cirrhosis, 892

Psychiatric emergency service in New York, changing pattern, 940

Psychiatry, 924–8

Psychomotor function in anaemic women, effect of iron therapy on, 903

Psychosis, acute and chronic, intramuscular fluphenazine enanthate and oral fluphenazine in, comparison, 924
Public health, 940–1

Quinidine bisulphate in maintenance of sinus rhythm after DC reversion of atrial fibrillation, 896

— prophylaxis of arrhythmias in DC cardioversion after cardiac surgery, follow-up study, 897

Radiology, 946–8

Radiotherapy and hyperbaric oxygen in head and neck carcinoma, 948

Respiratory failure, chronic, potassium depletion in, 906

— system, 906–7

— tract infection, group B Coxsackieviruses in, 881

Rheumatic diseases, 916–20

—, capillaroscopic observations in, 916

— fever in children, relation of anxiety to route of prophylaxis, 937

Rheumatism, chondrodysplastic, 916

Rheumatoid, *see also* Arthritis

— factor, familial aggregation, 916

—, positive tests, significance in prognosis of rheumatoid arthritis, 917

—, presence in joints before and after synovectomy, 917

Rubella in pregnancy, serological assessment, 882

Schizophrenia, acute phase, thiothixene and trifluoperazine treatment, comparison, 927

—, chronic, butaperazine, chlorpromazine, and placebo in, comparison, 928

—, first rank symptoms, clinical details and examples, 927

Scleroderma, clinical study of 16 cases, 920

—, pulmonary function in, 920

Sclerosis, systemic, *see* Scleroderma

Senescence, ectopic tachycardias in, clinical features and mental manifestations, 896

—, syncopal attacks in, 900

Shunt, *see* Circulation

Skin lesions, traumatic, in drug-induced coma, 944

— manifestations of systemic lupus erythematosus, clinical study from Singapore, 920

— perfusate in ultraviolet inflammation, pharmacological activity, 929

Smoking, *see* Tobacco

Sniffing solvents, sudden death in, 944

Sodium bicarbonate, oral, effect on acid-base balance in newborn infants, 930

— colistimethate, *see* Colistin sulphomethate

Spectinomycin hydrochloride in uncomplicated gonorrhoea, 885

Spondylitis, ankylosing, inflammatory bowel disease in, 919

Starvation, therapeutic, in obesity, 887

Steatorrhoea, idiopathic, psychiatric study, 925

Streptomycin and hydrocortisone, intrathecal, in tuberculous meningitis, 884

Syncope attacks in the aged, 900

Synovectomy in rheumatoid arthritis, influence on presence of rheumatoid factor, 917

Synovial membrane iron deposits, significance in anaemia of rheumatoid arthritis, 918

Tachycardia, ectopic, in old age, clinical features and mental manifestations, 896

Tay-Sachs disease, detection of heterozygotes and homozygotes by serum hexosaminidase assay, 939

Therapeutics, 878–9

Thiothixene in acute phase of schizophrenia, 927

Thrombocytopenia purpura, refractory idiopathic, in children, azathioprine treatment, 934

Thromboembolism, recurrence after discontinuing anticoagulant therapy, factors affecting incidence, 899

Thymus aplasia, congenital, *in vitro* lymphocyte response in, 876

Thyroid, *see also* Hypothyroidism

— disease, autoimmune, in diabetes mellitus, 915

—, carbohydrate and lipid metabolism in, effect of glucagon, 910

— function testing by *in vitro* techniques, 910

— stimulator, long-acting, in Graves' disease, 911

Thyroiditis, autoimmune, iodine metabolism in, 911

Thyrotoxicosis, symptomatic hypercalcaemia in, 911

Tinaderm, *see* Tolnaftate

Tinea infection, tolinaftate in, 929

Tobacco smoking, cigarette, airway conductance changes in, study of repeatability and effect of particulate and vapour phase filters, 906

Tolnaftate, antifungal activity, 929

Toxicology, 944–5

Trifluoperazine in acute phase of schizophrenia, 927

Triglyceride level in serum of children with familial hypercholesterolaemia, effect of short-term high-carbohydrate feeding on, 887

Tryptophan metabolism disorder in chronic granulomatous disease, 933

Tubercle bacillus, *see* *Mycobacterium tuberculosis*

Tuberculin sensitivity, loss in certain cases of active pulmonary tuberculosis, 833

— test, subcutaneous, in children, 883

Tuberculosis, 883–4

—, meningeal, *see* Meningitis

—, pulmonary, influence of surgical treatment of peptic ulcer on, 942

—, —, late results in retreatment, 883

—, —, pleural calcification in, compared with that in asbestosis, 942

Tumour, *see* Neoplasm

Twins and singletons, measurements of difference in intelligence in, 937

Ulcer, duodenal, calcium carbonate treatment, acid secretion after, 892

—, —, recurrent dyspepsia in, 891

—, —, propantheline and amylopectin sulphate in, 891

—, gastric, aspirin and gastrointestinal haemorrhage in, 891

—, —, of lesser curve, vagotomy and simple draining for, follow-up study, 891

—, peptic, surgical treatment, influence on pneumoconiosis and tuberculosis, 942

SUBJECT INDEX

Ultraviolet inflammation, pharmacological activity of perfusate recovered from skin in, 929

Uraemia, *see* Haemolytic-uraemic syndrome

Urinary tract infection in hospital patients due to animal sources of *E. coli* in food, 941

— — —, recurrent, in general practice, 908

Urogenital system, 908-9

Urolithiasis, *see* Calculus

Vagotomy and simple draining for benign lesser curve gastric ulcer, follow-up study, 891

Venereal diseases, 885

Vertebra anomalies associated with hypothyroidism, 936

Virus infection, maternal, after first trimester of pregnancy, effect on children to four years of age, 937

Visual defects and headache, community study, 921

Xylose absorption test, influence of age on, 888
